Rights & Limitations of Permit (From WPCA Policies)

1. The permit shall remain valid for a period of **one year** from the date of issuance by the WPCA. If work has not started on the project within one year from the date of issuance, the planning approval and permit shall be considered null and void. The Applicant must re-apply for and obtain planning approval and new permit before proceeding with any work.

2. If the work cannot begin within the one-year time period allotted by the permit, the Applicant may petition the WPCA for a one-year extension of the Permit. To be considered by the WPCA, a request for an extension of the permit must be made by the **Applicant at least sixty (60) days prior to the date of expiration of the current permit.** Only one, 1-year extension shall be considered for each permit.

3. Who Can Do the Work: Only a contractor that holds a valid Drain Layer's license may perform the work. In addition, the contractor is required to post a Drain Layer's bond and provide Certificated of Insurance in amounts acceptable to the WPCA.

4. Requirements for Inspection by the WPCA:
    a. All work must be inspected and approved by the WPCA or its representative before permission will be granted to activate the facilities.
    b. The WPCA shall determine the number of inspectors and the amount of the inspection required for each project.
    c. It is the responsibility of the Applicant to provide a minimum of **7 days'** notice to the WPCA of their intent to start construction on the project to enable the WPCA to arrange for inspection services.
    d. **Under no circumstances shall construction be allowed to begin without the approval of the WPCA**. Prior to final acceptance of the new facilities by the WPCA, a final inspection shall be conducted by the WPCA. The cost for all inspection performed by the WPCA shall be borne by the Applicant.
    e. Under no condition shall the pipe be covered until there has been an inspection by the WPCA.
    d. **The WPCA Commission or designee may require the owner to uncover the sewer to expose the pipe if the above requirements have not been met.**

Penalties: The Applicant shall be fined in the event of any of the following:
(From Water Pollution Control Authorities Policies and Requirements for Extensions and Repair to Existing Sewerage Facilities for the Town of Suffield Connecticut)

a. Commencement of construction prior to receipt of a permit from the WPCA;
b. Commencement of construction prior to execution of a Developer's Agreement by the WPCA;
c. Commencement of construction prior to notification of the WPCA of any changes to the plans or specifications;
d. Failure to properly arrange for or otherwise permit the inspection of newly constructed facilities by the WPCA; or
e. Failure to submit as-built drawings to the WPCA within 30 days of final approval by the WPCA.

Penalties shall be assessed in accordance with the following schedule:
(From Water Pollution Control Authorities Policies and Requirements for Extensions and Repair to Existing Sewerage Facilities for the Town of Suffield Connecticut)

Construction without planning approval or a permit - $5,000/day
Failure to notify WPCA of any changes - $500/day
Construction without proper inspection - $500/day
Failure to submit O&M manuals or acceptable as-builts - $100/day

Inspection

Inspection cannot be performed unless permit has been issued by WPCA Superintendent or his/her designee.

A copy of the permit shall be given to the property owner and one copy maintained by the WPCA.

An as-built drawing must be provided to the WPCA. Sewer tie-in measurements must include one distance measurement of connection to a manhole.

One will show the pipe connection, and the other will show the path of the pipe from the connection location to the home or business.

Must include one stationary landmark for use to determine distance and length. Examples include telephone poles, manholes, or houses.

The pictures must have the address or parcel number, the date, and permit number included in the description.
