# August Summary

# Milton High School Governance Council

**August 5, 2026 MHS SGC Summary:**

Milton High School School Governance Council met at 7:20 a.m. The agenda and previous meeting minutes were approved, followed by a PTO update that included information about the upcoming PTO meeting and Homecoming Parade.

The Council completed officer elections and committee assignments. Tracy was elected Chair, Rebecca Vice Chair, and Stacey Parliamentarian. Members were also assigned to the Communications, Budget, and Principal Selection committees, with all assignments approved.

For 2026–27 SGC goal setting, the Council agreed to continue using the goals established last year while Fulton County transitions to a new strategic goal process. Members will review current data at the next meeting and discussed the need for stronger, more measurable metrics.

During the Principal's Update, Mr. Jones shared that current enrollment is 1,943 students compared with the projected 1,952. The school is reviewing its 10-day count and staffing implications but expects to be in a manageable position. The seventh counselor will be retained. The current online course expense is approximately $420,000 compared with the $324,000 budgeted, in part because there is no senior exemption this year. SGC funding is expected to be approximately $30,000. Mr. Jones also shared that the school will continue pursuing Performing Arts Magnet status after the proposal was not approved last year due to county budget constraints.

The Council noted that both a community member and faculty member still need to be appointed. The meeting adjourned at 8:02 a.m.
