Brake Inspector Certification

2026-2027

All information requested on this form is required, including selections, signature, and date.

Brake Inspector Certification

I, _____, certify that I understand the assigned brake service or inspection tasks; am knowledgeable of and have mastered the applicable methods, procedures, tools, and equipment; and am capable of performing those tasks through qualifying training, experience, or both in accordance with 49 C.F.R. § 396.25(d) and 1 CCR 301-26, Rule 9.1.1(B). I agree to comply with all applicable regulations governing brake inspection and service.

Qualified Brake Duties - Check All That Apply			
☐ **Inspection**	☐ **Maintenance**	☐ **Repair**	☐ **Service**

Qualification Basis - Check All That Apply

☐ Passed the CDL air-brake knowledge and skills test. This qualification applies only to inspection of air brake systems.

☐ Completed a State, Federal, Canadian Province, or Labor Union apprenticeship program qualifying me to perform brake inspection or service.

☐ Completed one year of brake experience, brake-related training, or a combination thereof, in brake maintenance or inspection.

☐ Completed one year of experience performing brake maintenance or inspections at a commercial garage, fleet leasing company, motor carrier maintenance program, or similar facility.
