Testing Program (continued)

In planning, every effort will be made to see that testing contributes to the learning process rather than detracts from it. Efforts shall be made to incorporate necessary culture-free and culture-fair tests to assure reasonably accurate measurements.

The district shall not discriminate in the methods, practices and materials used for testing, evaluating and counseling students on the basis of sex, race, national origin, creed, sexual orientation or physical, mental, emotional or learning disability. Discrimination complaints shall be processed in accordance with established procedures.

Parents shall be notified prior to any individual student testing, beyond that which is part of the regular classroom routine. Parental notification shall include the reason for the testing and an explanation of the test to be used. All such tests results shall be shared with parents.

Staff will receive in-service education in the use of designated tests, confidentiality issues and interpretation of test results.

A periodic review and evaluation of the district's testing program will be conducted.
