The EESA School Improvement Team (SIT) is a state-mandated organization made up of elected Rashkis staff and parents. Our purpose is to "develop a school improvement plan to strengthen student performance." Besides the development of the School Improvement Plan and its End-of-Year Status Report, the SIT also:

- Approves the capital and operational budget requests to the district and School Board
- Serves as counsel to the district and the Board of Education
- Functions as an advisory group to the principal and may provide input on issues such as school climate, safety, programs, and philosophy
- Solicits input from our school community and hears concerns of our constituents about school programs.
