Parent and Family Engagement Policy

2026 - 2027

Lee Antonello Elementary School, along with parents of students served under Title I, has collaboratively developed a Parent and Family Engagement Policy. The school will host annual meetings at various convenient times for parents to evaluate this policy. The school held two parent presentations on May 21, 2026, and August 20, 2026, during School Organization Team (SOT) meetings. Staff and parents participated in the Annual Title I presentation on August 7, 2026. We provided translation services for families during these meetings, and parents could also join via Google Meet. We informed parents about the meetings through Class Dojo, ParentLink, and school flyers. For access to our school's Title I Annual presentation, please visit our website at https://www.leeantonello.org/.

The Parent and Family Engagement Policy, developed by the school staff and parents, can be found on our school's website or printed upon request for parents who could not attend the meetings.

Lee Antonello Elementary School has partnered with the School Organization Team (SOT) committees to enhance parent involvement in planning, reviewing, and improving Title I programs, including the School Improvement Plan, School Operational Plan, and the Parent and Family Engagement Policy throughout the 2026-2027 school year. During parent meetings at Lee Antonello, staff and parents will review and evaluate school plans and documents to ensure ongoing growth and progress. The school will analyze Annual District-Wide Survey responses to gather feedback and suggestions for improving school practices. Lee Antonello will provide parents with opportunities to offer suggestions in both print and electronic formats. The feedback received will help determine the focus topics for future school meetings, events, or practices. https://aarsiapps.ccsd.net/survey/surveys/districtwide/results/2526/school/369/results

A comparative analysis of recent engagement data shows a notable shift in parent participation. In the 2025-2026 Winter District Parent Survey, 35 families shared feedback, a 43% decrease from the 81 families who participated in the 2024-2025 school year. Parents received the survey results during SOT meetings, monthly meetings, and Open House events. The survey indicated that 100% of students feel safe and that the school has clear behavioral rules in place.

We shared these survey results transparently with our community during SOT meetings, monthly parent gatherings, and Open House events. Key findings include:

- Student Safety: 100% of students reported feeling safe and acknowledged that the school has clear behavioral expectations.
- School Climate: While the low response rate (fewer than 10% of our families) may not capture the entire community's perspective, an overwhelming 97.5% of participating parents said they feel welcome at Antonello.

Among 35 participating families, 91.4% reported not feeling welcome at their child's school. However, the low response rate does not accurately reflect the community's views, as fewer than 10% of the schools responded to the survey. Antonello will improve efforts to increase parental participation in the school-wide survey. During the 2026-2027 school year, we will focus on increasing participation in the Annual School Survey and SOT meetings to assess parent perceptions.

Our primary focus for the 2026-2027 academic year will be to reverse this trend by revitalizing outreach. Our goal is to boost attendance at School Organizational Team (SOT) meetings and increase participation in the Annual School Survey so our data more accurately reflects the diverse voices of our entire school community.

Parents received information through various channels, including meetings, parent conferences, school events, and newsletters. To increase parent and student participation, we will provide incentives and raise awareness through ParentLink, Class Dojo, the school website, Broadcast Buzz, and the school marquee. All parents will have access to district computers to complete the survey during our fall and winter parent engagement activities.

The Education Involvement Accords and Code of Conduct forms are integrated into the registration process via Infinite Campus. Parents must review the Accords prior to completing their child's registration. Administrators and teachers will refer back to the Accords during parent and student conferences to emphasize the collective commitment to student success.

Administration and staff will help parents understand topics such as the Nevada Academic Content Standards (NVACS) and state and local assessments (SBAC, WIDA, and iReady), including evaluation results such as the School Performance Framework and Growth Model Data. They will also inform parents about relevant Title I requirements, such as monitoring their students' academic progress and collaborating with school staff to enhance student achievement. The school will organize community and parent events to inform parents about upcoming changes that may affect both CCSD and Lee Antonello Elementary School. Parents will receive communication through parent meetings, Meet and Greet events, school reminders, homework assignments, and
