After School Enrichment, Winter Session
Monday, November 30, 2026– Friday February 19, 2027
Makeup Classes Monday, February 22, 2027- Friday, February 26, 2027

MONDAYS 3:15pm-4:15pm – 8 class meetings
11/30, 12/7, 12/14, 1/4 , 1/11, 1/25, 2/1, 2/8

- **Bucketeers (K-5):** Bucketeers use an innovative color-coded system applied to five-gallon buckets to allow children to learn & experience the art of percussion. Special multi-rod drumsticks help keep the volume down and seat cushions provide a comfortable experience. Benefits include forging a foundation in rhythm, playing with a steady pulse, learning a variety of patterns, participating in collaborative movement activities, and developing hand-eye coordination. Students play along with a diverse set of music: children's, pop, rock, jazz, and multi-genre songs in several languages incorporating beats and patterns from around the world. Each class doubles as a rehearsal building towards an end-of-session performance. Drummers will be introduced to several music skills and concepts throughout the session including: Stick Technique, Dynamics, Song Structure, Improvisation, Call & Response, Tempo, Melody, and Timbre.
- **Cute and Cuddly Animals (K-5):** Cute and Cuddly Animals offers students a hands-on experience with some of the most adorable animals around! Each week, they enjoy learning about new animals such as guinea pigs, ferrets, miniature chickens, bunny rabbits, and more. This exciting and enchanting class is perfectly suited for students of all ages!
- **Storytime Chess (K-5):** Story Time Chess is the authority in early childhood chess, using a creative, story-based curriculum to teach kids to play (and love) this complicated strategy games. For students who already know the basic piece mechanics, we journey deeper into Chesslandia to plan the first phase of every game. Kids learn to send their pieces on three "Secret Missions" at the start of every match, laying the foundation for thoughtful strategy. Stories, games, and guided play help them see how careful planning leads to exciting possibilities on the board. Milestone: Employ basic opening theory and execute planned sequences. Academic Skills: Executive Function, Sequencing, Spatial Reasoning.
- **Grounded Groove (K-1st):** A mindful movement program that combines physical activity, body awareness, creative expression, games, and social-emotional learning to help students build focus, self-regulation, and meaning.

TUESDAYS 3:15pm-4:15pm - 9 class meetings

12/1, 12/8, 12/15, 1/5, 1/12, 1/26, 2/2, 2/9, 2/16

- **Upcycled Arts & Crafts (K-5)**: Turn "old" into amazing! Students create one-of-kind projects like squishies, stuffed animals, and art using gently used materials while learning about waste, sustainability and its big impact on our community.
- **Strongish® @ School by Toluca Lake Pilates (K-2)**: Welcome to the after-school program for becoming strong, in body, mind, and confidence. Strongish® is a Pilates-based movement education program designed specifically for growing bodies. Through purposeful movement, mindfulness, breathing techniques, creative activities, and weekly Strongish Takeaways, students develop strong bodies, confident minds, and healthy movement habits while discovering the joy of movement in a fun, encouraging environment. Lessons are thoughtfully adapted for each age group, ensuring every child is challenged, supported, and inspired to grow, one movement at a time.
- **Ninja Ninja Learns: Secrets of the Tiger & Crane (K-3):** Pounce, leap, and soar into action! This season, students will uncover the exciting martial arts styles of the Tiger and the Crane. The Tiger teaches explosive strength, courage, and powerful movements, while the Crane develops balance, focus, and graceful evasion. Together, these animal styles help children build coordination, confidence, patience, self-control, and body awareness through fun and engaging activities. Ninja Ninja Learns introduces children to non-contact and non-competitive martial arts through play-based learning with exciting pad drills, group games, and physical challenges. In a safe, encouraging environment, students will build new skills, stay active, make new friends, and discover the fun of martial arts while growing in confidence every step of the way!
- **LEGO Robotics- Parker Anderson (K-5):** Students build different projects each week and learn the basics of coding through a LEGO Education app in this fun and educational robotics class! This course begins with engineering principles such as wheels, axles, and levers, and then progresses to more complex components including sensors, light matrices, and motors!

WEDNESDAYS 3:15pm-4:15pm – 9 class meetings

12/2, 12/9, 12/16, 1/6, 1/13, 1/20, 1/27, 2/3, 2/10, 2/17

- **Kids Culinary Arts w/ Ms. Carri (K-4):** Students tantalize their taste buds and have fun with food in this scrumptious class! Each week, students explore different recipes, including appetizers, desserts, lunch-style entrées, and more. **Please note:** Students do not have access to the kitchen on campus, so all culinary activities will take place in the classroom using recipes and cooking methods that are safe and appropriate for a classroom environment.

- **Grounded Groove (2-4):** A mindful movement program that combines physical activity, body awareness, creative expression, games, and social-emotional learning to help students build focus, self-regulation, and meaning.
- **Character Builders: Clay and Storyboarding (1-5)**: This special Little Yellow House Art class lets students explore the world of visual storytelling through drawing, ceramics, and narrative creation. Guided by a professional animation artist with major studio credits, students will design original characters on paper, bring them to life as ceramic sculptures, and craft their own short stories using classic storyboard techniques. Along the way, they'll build creativity, sequencing skills, and a deeper understanding of how stories come to life through art.
- **Dramatics w/ Mr. Delandis (K-5):** Become a better storyteller in this fun, creative, and interactive drama class! This class is filled with silly drama and theatre games that will allow the students to create exciting characters. Students will study scripts, monologues, write and create their own scenes that they will perform for family and friends. Watch as the drama unfolds in "Dramatics!"

THURSDAYS 3:15pm-4:15pm – 10 class meetings
12/3, 12/10, 12/17, 1/7, 1/14, 1/21, 1/28, 2/4, 2/11, 2/18

- **Hip-Hop Halftime Show (K-5):** Bring the energy! This high-energy class blends hip-hop dance with halftime-style performances and introductory cheer. Students build coordination, rhythm, stage presence and teamwork while leaming performance skills in an age-appropriate choreography to today's favorite hits - including K-pop!
- **Woodworking (K-5)*:*** This class is a fun-filled introduction into the world of woodworking, specifically designed for beginners. Students will use fine motor skills to forge a strong connection between the hands and the mind. They are encouraged to try new ideas, exercise their imagination and creativity, and are allowed to make mistakes in a safe environment. With the guidance of an experienced artist/woodworker, children learn how to use tools safely, effectively, and (ultimately) independently. Students will have the opportunity to build a number of take-home projects that increase in complexity as they progress through their session.
- **Chem Kids (K-5):** Students conduct physical and chemical experiments and learn what makes them work in this hands-on and memorable class! They investigate acids and bases, polymers, static electricity, and more. Scientists engage in fun experiments like Elephant Toothpaste, insta-snow, and Mentos-Coke explosions!

FRIDAYS – (1:30PM-2:30PM) 9 class meetings

12/4, 12/11, 1/8, 1/15, 1/22, 1/29, 2/5, 2/12, 2/19

- **Basketball Clinic w/ Coach Matt (3-5):** Ready to take your basketball game to the next level? Join Coach Matt for a fun, skill-building basketball clinic! Open to students in grades 3–5, this class will focus on developing the fundamentals needed to play in games. Students will build confidence, sharpen their skills, and put what they learn into practice through fun drills and friendly gameplay!
- **TechKidz: Minecraft (K-5)**: Students learn about and play the hugely popular game Minecraft in this engaging class! They explore building techniques, work to layer blocks to create new and exciting details, and discover how to craft awesome, next-level Minecraft builds. They develop strategy, team-building, and cooperation skills!
- **Harry Pottery (K-6):** Get your hands dirty while exploring the magical world of Harry Potter! Young witches and wizards will learn three clay hand-building techniques - slab, coil, and pinch pot - to create goblets of fire, bobblehead characters, golden snitches, and more. Students will glaze and paint their creations; these will be kiln-fired off-site, wrapped, and returned after the session.
- **Pops Stars Video Jam w/ Mr. Delandis (K-5):** Calling all singers and dancers! Become your favorite Pop star or Rock star in this high-energy video jam class! We will sing and dance as we create the concert that everyone has been waiting for. The students will keep the party rocking as they create their bands. We capture all the fun in a music video to share with friends and family. So, get your voices tuned and get ready to groove in Pop Stars Video Jam!
- **Spanish Immersion w/ Kallpachay (K-3):** Our next Spanish adventure will take us into an Enchanted Kingdom, where students will explore kingdoms, princesses, and magical creatures such as dragons and unicorns! They will learn vocabulary for clothing and accessories to describe characters, as well as action verbs to talk about what people and mythical creatures can do. Through games, art activities, and pretend-play, students will bring this magical world to life while building their Spanish skills. It's hands-on, imaginative, and full of practical Spanish they'll love using! We place speaking skills and cultural fluency at the core of all our classes to help students gain real-world communication confidence. All levels are welcome! Kallpachay teachers are experienced in working with small, mixed-age groups of students at blended proficiency levels. Each enrichment session introduces new verbs, nouns, and adjectives, integrating grade-level reading and writing with fun, engaging experiences.
- **Culinary Arts w/ Ms. Carri (5-8):** Our Culinary Arts program gives students hands-on experience in the kitchen as they learn real cooking techniques, explore global flavors, and build confidence through creative food preparation. Each class introduces a new dish along with essential skills like knife safety, seasoning, and plating. Students leave with practical kitchen know-how, a collection of recipes, and a deeper appreciation for cooking as both a craft and a science. **Please**

note: Students do not have access to the kitchen on campus, so all culinary activities will take place in the classroom using recipes and cooking methods that are safe and appropriate for a classroom environment.
