V. STUDENT ACHIEVEMENT LIAISON REPORT

VI. LEGISLATIVE LIAISON

Mr. Schymanski reported on the following:

The Biden Administration is continuing to develop its rulemaking authority to address its objectives including educational issues. Rulemaking is an authority granted by the Legislative Branch to the Executive Branch. The purpose is to add clarity to the laws passed by the Legislative Branch but not to add or remove from the laws passed by the Legislative Branch. The Legislative Branch can overturn any executive order by passing a law or modifying an existing law. The Judicial Branch can also overturn executive orders. This is the most common avenue. Expect more judicial action as president's use their rulemaking authority more frequently.

Federal Budget

The Biden Administration has asked Congress to pass Continuing Resolutions for the 12 required Government Financial actions. This is caused by the continuing fight over the 2 infrastructure bill proposals. The Education Bill that contains beneficial increases in TITLE and IDEA funds is one of the 12 bills moving far too slowly. The bill is in the House Education and Labor committee and is subject to significant infighting. This bill should not be part of the Reconciliation package, so I do expect the Senate to negotiate. Expect less money in Title & IDEA than in the House bill but hopefully some increases to cover cost of living increases.

Here are 3 bills that OSBA has asked us to address, HB123, HB126 & HB140

HB 140 wants to change language on the ballot if an entity is asking for a property tax increase. Current requirement is to list levy cost per \$100 of tax value. The proposal would be to list the levy in terms of \$100,000 of appraised value. This does not help farmers who must calculate CAUV impact or businesses where values differ from homeowners. Nor does it help homeowners who may have discounts like Homestead exemption. Personally, the way we work with the county auditor for a link to get a more accurate picture of any tax proposal would not change. This is not an issue I will follow.

Elida High School Community Room at 7:00 p.m. September 21, 2021

HB126 is around again for its 3rd Legislative session. This bill would require any public entity like a school board to pass a resolution to either address a concern on an appraised tax value or appeal a request by the property owner to reduce their property taxes. Elida only has addressed business tax reduction requests and then if the amount requested is significant. If a property tax reduction is approved, it takes anywhere from 2 to 4 property tax cycles for the auditor to rebalance the reduction and ensure the school district collects the required levy amounts. This means that the school rainy day fund has to cover the lost income. The lost income is not recovered. This could create a need for a general fund levy request to keep the school district solvent. If this bill passes, I suggest that we develop model resolutions that clearly state our goal to protect our other business, farmers and homeowners who already pay their fair share from a hidden tax increase.

HB123 seeks to change the tax abatement process. School now have input on investment over \$1 million, where the tax abatement requests is a 50% (or greater) property tax reduction, on the new investment. The bill seeks to change the threshold to \$3 million and 75% property tax reduction. For us, we are a small community and have seen investment totaling \$1 million. We have worked and will work with the Allen County Economic Develop group to bring in or enhance businesses in our community. But we are fiscally fragile, and we should have maximum flexibility. We should seek to keep the law as is to help protect our current taxpayers. Talking with the Allen County Commissioners, I did find out that there are school districts who do create many problems for economic development. Probably as a result of the school funding formula issues we all experience.

One interesting bill is SB214. This bill seeks to require Asian American history be taught from Kindergarten through Grade 12. This overly ambitious bill seeks to start with the 2022-2023 school year.

There are a serious of bills all relating to mask mandate prevention as well as mandatory vaccination requirements. As best I can tell, none address the Federal policy relating to masks on public transportation.

HB290 could be a funding nightmare for public schools. This bill would allocate the per pupil funding in a fashion that moves that funding amount with the student if the student changes schools. This conflicts with the Fair School Funding Formula as students are counted in the new school when they transfer. How this affects Voucher payments is one key issue. For schools like Elida that are not fully funded, what amount would transfer in and out. This could be another disaster of transferring fully funding formula amounts not the actual amount a school receives.

I have reviewed both HB322 & HB327. Although both bills are slightly different, the concept of what teacher can teach is similar. I found that the bills articulate many of the unspoken rules that teachers and administrator do follow. I think it would be better to place these concepts in the current Teacher Administrative code of Conduct already approved by the Ohio. That way, any teacher conduct issues shows up in one location. If the term "Decisive Content" stays to its literal wording, there should be minor impact to our current policies and procedures both for teachers as well as our administrators. My primary concern are references to teachers who "consciously or UNCONSCIOUSLY" cover something considered racist, sexist, or oppressive.

There is some concern that HB327 may allow civil action to be filed by a parent or guardian if there is a feeling that the student was subject to indoctrination to receive a grade or complete an assignment. I have seen references to this, but I could not find clear language in either bill about parental lawsuits. None of our teachers require one sided assignment with a specific goal to advocate for a cause important to the teacher or the school. I am not aware of any local teacher requiring a one sided assignment with a specific goal to advocate for a cause important to the teacher or the school. Think lobbying for a cause. There have been a few incidents in the country where an individual teacher did push students to understand a certain point of view but that is rare and all I am aware the school leadership did provide consequences to the teachers.

My concern that in the absence of good parent teacher and then parent, teacher and administrator conversations, misunderstandings could result in unnecessary civil action. Having ODE review all the Ohio Curriculum standards and redefine, if necessary, would allow school boards to ensure the law is followed. HB 327 suggests but does not require ODE to review and update any teaching requirements from this legislation.

VII. PUBLIC PARTICIPATION RELATED TO ACTION ITEMS

VIII. SUPERINTENDENT REPORT

- Pandemic Response Update
- High School Grading Exams

Mr. Mengerink reported on the following:

Updated the Board on progress/work that is continuing in the elementary.

- Thanked everyone for a great first couple of weeks to the school year.
- Discussed need to add custodial position for 2nd shift in elementary.
- Discussed adding 3 sub bus drivers as regular employees.
- Updated the Board on a response to questions from Mr. Christoff regarding Board policy/ethics.
- Mr. Sharp updated the Board on possible changes to grading/exams in the high school.
- Discussed masking requirements for students/staff. Asked Board Members for their position on universal vs. optional masking in order to make future decisions:
 - Mr Barnt - prefers parental choice.
 - Mr Christoff - initially stated he did not have enough information, but stated universal masking should be required at some point.
 - Mr. Schymanski - wants to make sure we follow advice of attorneys and liability insurance provider, but would like to keep it as is (parent choice).
 - Mr. Bowers - keep optional as parental choice.
 - Mrs. Stocker - believes it should be a parents choice.
- Shared with the Board current attendance rates for the year. Absence rates are currently 3-5% lower while masks are optional, than they were last year during the highest incidence rate periods with masks mandated. Based on this information I can't suggest/mandate universal masking. Parents who are concerned still have the option of their children wearing masks.
- Mr. Christoff has questioned the lack of Board input into pandemic plans for this year, so I would like to ask the Board to add an Action Item and formally approve the district's Back to School Protocols that were announced in early August.
