

ELIDA LOCAL SCHOOLS

STUDENT WELLNESS AND SUCCESS FUND PLAN

Describe your district's goals for the Student Wellness and Success funding.

Over time we have had an increased demand for services from our ESC. We will supplant the cost of a few of these services related to the health and wellbeing of our students. We will also supplant a few positions at our district that we have recently added to support our students and their health/social emotional health with nursing and guidance services.

Do you have a logic model you can share?

We will pay for the following services from the ESC:

Speech

Psychologist

Occupational Therapy

We will also pay for the following services at our district:

Nurse services

Guidance/Social services

What successes from your district can you share in relation to the topic of student wellness and success?

Many students come to us with a variety of needs. The ESC provides a great deal of support as it relates to special services that our students need. From OT,PT to ED, MD, Speech and Psychology, they really help serve the students of our district.

Our nurse and guidance serve hundreds of students each year. In some cases, we are the primary care physician for our students. They play a vital role in keeping our students healthy and happy.

What obstacles or challenges are you experiencing or anticipate experiencing as you implement your plan?

We always have the challenge of serving all students with a limited staff.

INITIATIVE DETAILS

GOAL 1

Initiative title: Fund ESC Services

Initiative description: Provide OT, Speech and Psychology

Initiative state: Existing

Community partner category included in the planning for this initiative: Educational Service Center

District partnership description: We contract with the Allen County Educational Service Center to provide these services.

Allowable use of funds: Physical Health Care Services

Grade and number of students directly impacted by the initiative: Grades K-12 serving approximately 2,400 students.

How will you measure the success of this initiative: We will evaluate students served by the ESC position to ensure they are being utilized to their fullest potential and track students to ensure we are making progress with the student.

What data will you use to demonstrate successful implementation: Data from the ESC logs and evaluations by our SEO of the IEP data.

Goal 2

Initiative title: Fund Nurse and Guidance positions

Initiative description: We will supplant the cost of our current School Nurse and Guidance positions to continue to provide vital services to our students.

Initiative state: Existing

Community partner category included in the planning for this initiative: Educational service center

District partnership description: We partnered with the Allen County Educational Service Center to have additional resources for our School Nurse and Guidance to utilize when needed.

Allowable use of funds: Physical Health Care Services

Grade and number of students directly impacted by the initiative: Grades K-12 serving approximately 2,400 students.

How will you measure the success of this initiative: We will evaluate students served by the position to ensure they are being utilized to their fullest potential. The nurse provides an annual report at the end of each school year.

What data will you use to demonstrate successful implementation: All student accidents are logged and notation is made based on care given. These positions have been highly used in the past and we are confident it will continue. The guidance department collects data on graduation rates and helps students prepare for college (with work on FAFSA, financial aid etc.)

The plan was adopted by the Elida Local School Board on May 19, 2020 and certified by the following:

Superintendent, Elida Local Schools

Superintendent, Allen County ESC
