III. PLEDGE OF ALLEGIANCE

IV. LEGISLATIVE LIAISON

Mr. Schymanski's report is as follows:

There has been significant online discussion about the proposed educational budget. We do need to see what comes out of the House and Senate. We do know a few facts about the proposed funding of Ohio Schools. Base student rate seems unchanged so expect funding this year, Line N, in the budget to be the same. Some of the supplemental item funding may change. Charter School funding will continue to be a deduction from the Local School District. There seems to be an indication this could change, if the Cupp/Patterson educational proposal is adapted. I do expect continued discussion, but time will tell.

I did submit written testimony in opposition to the proposed modifications on Academic Distress Commissions to a School Transformation Commission. My concern is the actual data suggests school performance is closely related to the social and economic conditions of the community. The School Transformation Committee does not recognize the need to address the larger picture. I also sent a letter to Senator Matt Huffman. I also submitted info to the Ohio School Boards Association, NW District for this group to also take action.

The budget also includes High School Graduation requirements developed by Ohio Excels, a group associated with the Heritage Foundation. I recommend we consider sending a letter to the Governor asking he veto this proposal and continue the discussion. The Ohio Department of Education established a working group over 18 months ago. The ODE plan was in the House version of the bill and provides more options for students and parents to select a graduation path that fits their particular need.

The Governor is supposed to sign the budget by July 1. I do expect the House and Senate Conference committee to reach consensus and meet this date.

There are computer simulations available to see how the Senate version of the budget provides funding. But, as close as we are to a final bill, I suggest we wait and use Mr. Parker's forecast.

There are some other bills in committee that I am following but we can cover them in July.
