HOW IS MY FINAL GRADE CALCULATED?

Full-Year Courses - Quick Guide

Your final course grade has three parts:

SEMESTER 1	SEMESTER 2	FINAL ASSESSMENT
45%	45%	10%

FINAL COURSE GRADE =
S1 x 45% + S2 x 45% + Final Assessment x 10%

EXAMPLE

S1	S2	Final Assessment
90	86	80
90 x .45 = **40.5**	86 x .45 = **38.7**	80 x .10 = **8.0**

40.5 + 38.7 + 8.0 = 87.2 FINAL GRADE

QUICK REMINDER

45% Semester 1 + 45% Semester 2 + 10% Final Assessment = Final Course Grade

MID-YEAR ASSESSMENT

If your teacher gives one, it is already included in your Semester 1 grade. It may count for up to 10% of the S1 average, so it is **not added again** when calculating the final course grade.

GRADES ARE SNAPSHOTS

Students will receive one formal progress report each marking period. Please note that Marking Period 1 and Marking Period 3 grades are progress grades for the semester and do not factor into the final course grade.
Marking Period 2 continues the grades from Marking Period 1, while Marking Period 4 continues the work and grades from Marking Period 3.
