VIRTUAL LEARNING
CHOICE BOARD

2nd SEMESTER

4th & 5th Grades

No printer required. Choose 3 activities to complete.
Use paper, a pencil, crayons, books, and safe household items.
Try to choose activities from different subjects.

1 READING — POINT OF VIEW

Read a short story or paragraph from two different points of view (yours and another character's). Write how each point of view is different and how it changes the story.

2 MATH — REAL-WORLD PROBLEM SOLVER

Pick a real-life situation (shopping, baking, sports, etc.). Write and solve 2 multi-step problems using whole numbers, decimals, or fractions. Show your thinking with words, numbers, or a drawing.

3 WRITING — INFORMATIONAL REPORT

Choose a topic you are curious about. Write an informational report with an introduction, 3 main facts (with details), and a conclusion. Include a title and subheadings.

4 VOCABULARY — WORD CONNECTIONS

Select 5 vocabulary words you've learned recently. For each word, write the meaning, part of speech, a synonym or antonym, and use it in a original sentence.

5 MATH — FRACTIONS IN ACTION

Create a "Fraction Art" picture. Divide shapes into different fractions, shade them, label them, and write an equivalent fraction for each.

6 WRITING — LETTER TO THE FUTURE

Write a letter to your future self to be opened in 5 years. Share your goals, dreams, and advice you want to remember. Seal it in an envelope (or fold and save it)!

7 SCIENCE — EXPLAIN & MODEL

Choose a science topic (water cycle, weather, light, sound, or ecosystems). Draw a model and write an explanation of how it works.

8 SOCIAL STUDIES — A TIME IN HISTORY

Pick an event from U.S. history you have learned about. Create a mini timeline with at least 5 key events. Include dates and a short description for each.

9 PE — CREATE A WORKOUT

Design your own 15-minute workout. Include 5 exercises (cardio, strength, and flexibility). Write how long or how many reps for each.

10 ART — VALUE & CONTRAST

Draw a picture using only pencil (or black crayon). Use light, medium, and dark shading to show value and create contrast in your artwork.

11 MUSIC — SONGWRITER

Write original lyrics to a song about a topic that matters to you (kindness, friendship, dreams, etc.). Use a familiar tune (or make up your own melody) and sing or perform it!

12 STEM — DESIGN A SOLUTION

Identify a problem in your home, school, or community. Design a solution or invention to solve it. Draw your design and explain how it would work.

Be curious. Be creative. Keep learning!
