1st Grade Second Semester Virtual Learning Choice Board

No printer needed! Choose 3 activities to complete. Try activities from different subjects. Use paper, a pencil, crayons, books, and safe items from home. Show your work when you return or submit a photo to your teacher.

1. Phonics: Word Detective Choose 5 words from a book or around your home. Underline the vowel in each word. Read each word aloud and tell whether the vowel sound is short or long.	**2. Handwriting: Sentence Practice** Write 3 complete sentences about your day. Begin each sentence with a capital letter, leave spaces between words, and use an ending mark.	**3. Math: Make 20** Find 20 small objects. Separate them into two groups in 3 different ways. Write an addition equation for each way, such as 8 + 12 = 20.
4. Phonics: Digraph Hunt Find or think of 2 words for each digraph: sh, ch, th, wh. Write the words and read them to someone.	**5. Math: Number Challenge** Choose a number from 20-100. Write the number, show it with tens and ones, and write the number that comes before and after it.	**6. Science: Living Things** Observe a plant or animal safely. Draw it and write 2 sentences describing what it needs to live and grow.
7. Social Studies: Good Citizen Tell 3 ways you can be a good citizen at home, school, or in your community. Draw yourself doing one of them.	**8. Art: Shape Creation** Create a picture using circles, triangles, rectangles, and squares. Label the shapes and write how many of each shape you used.	**9. Reading & Phonics: Read and Retell** Read or listen to a book for 15 minutes. Tell someone the characters, setting, and what happened at the beginning, middle, and end.
10. Math: Addition & Subtraction Make up 2 addition problems and 2 subtraction problems using numbers within 20. Solve them using drawings, objects, or equations.	**11. Science: Day Sky / Night Sky** Draw the sky during the day and the sky at night. Label at least 2 things you might see in each. Tell one way they are different.	**12. Social Studies & Art: Map My Space** Draw a simple map of a room in your home. Include and label at least 4 objects. Add a map key with symbols for 2 objects.

Second-semester focus: reading and retelling, vowel patterns and digraphs, complete sentences, addition/subtraction within 20, place value, living things, citizenship, maps, and creative thinking.
