DATA LINKS

Please follow the links listed below, for comprehensive planning data on the following topic areas:

- **Population**
- **Housing**
- **Economy**

1) https://www.maine.gov/dafs/economist/home Various demographic, housing and economic data from the U.S. Census Bureau and other sources are available through this Maine Office of Policy and Management webpage.

2) https://www.maine.gov/dafs/economist/demographic-projections Population projections for Maine cities and towns are available through this Maine Office of Policy and Management webpage.

3) https://www.maine.gov/labor/cwri/employers.html The "Employer Locator" tool found on this Maine Department of Labor webpage allows the creation of a list of a town's employers and the number of workers employed by each one. There are 3 tabs on top of the window where the lists appear. To get a town-specific list, press the “Employer Name” tab and then, on the right hand side of the following page, select the county and then the town from the "City" dropdown box.

4) https://www.mainehousing.org/policy-research/housing-data This Maine State Housing Authority webpage provides home ownership and rental information by state, county and market area.

5) https://data.census.gov/ The U.S. Census Bureau website can provide additional detailed local housing and other information.

Questions about Office of Policy and Management webpages and data should be directed t

Amanda Rector
State Economist
Governor's Office of Policy and Management
