ANDOVER, MASS. 01810

KALEIDOSCOPE 2027

Definition: Kaleidoscope is a non-profit enrichment program that offers varied educational and cultural opportunities to children in the Merrimack Valley. For the forty-seventh summer, Kaleidoscope offers one-week courses, where students are immersed in the subject(s) of their choice. The emphasis is on concrete learning in a creative setting. A highly qualified professional instructor teaches each group.

Directors: Grant Elliott and Tim Stonecipher

Assistant Director: Kelsea Lussier

Office Manager: Christa Ritter

Consultant: Janis Baron

Classes: Classes meet from 9:00–11:30 A.M. or from 12:00–2:30 P.M. daily. You can sign up for a full-day by registering for two half-day courses. Some courses run for the full day (9:00 A.M.–2:30 P.M.). See detailed schedule on next page.

Class Size: Average class is 12, with a maximum of 15.

Location: Pike School, 34 Sunset Rock Rd., Andover, MA

Transportation: Parents' responsibility.

Tuition: $285 for most regular one-week A.M. or P.M. course. Some unique half-day Special Offerings are $345 or $445. Most Full-Day courses are $490. A few Full-Day Special Offerings are $545, $595, or $695. A $45 non-refundable registration fee per family covers processing of each form. Fireworks Week courses (4 days) are priced differently and that information is listed with descriptions.

Eligibility: Students from all communities are welcome and encouraged to participate in Kaleidoscope courses. Last summer we enrolled almost 700 children from 40 different communities. The program is open to all children regardless of race, creed or ethnic origins.

Grade Level: Grade level requirements, listed with each course description, refer to the student's CURRENT GRADE at time of registration (not the grade they are entering in the fall). Age refers to age as of June 1, 2027.

Please observe these guidelines when registering. If special circumstances exist, please call or email our Office Manager.

Registration: Courses are filled on a first-come, first-served basis, preferably through our website, www.kaleidoscopekids.com. You will be prompted to enter course codes as listed on the schedule page. Registration should be done online at www.kaleidoscopekids.com. Payment can easily be made via PayPal or credit card at this site. If you plan to pay by check, please contact Christa at (978) 494-3978 to register by phone, as our system will not process your registration form without payment at that time. We will send a confirmation email within 48 hours to confirm registration. A detailed letter will be emailed to all families in late May/early June.

Kaleidoscope in Action: Some of our courses, due to their "active" nature, will require current immunization records as well as updated physicals prior to the start of class. This applies to courses with the following codes: B, 13, 29, 37, 49, 73, 88, 97, 99, 110, 126, 129, 135, 154. This camp must comply with regulations of the Massachusetts Department of Public Health (105 CMR 430.190C) and be licensed by the local board of health.

Scholarships and Contributions:
A limited number of partial scholarships are available. Contributions to Kaleidoscope are tax-deductible and are used for this purpose. Interested parties should call or write to the director.

Contact Information:
Our office phone is (978) 494-3978.
Our e-mail address is: info@kaleidoscopekids.com

Website: Check out our website at www.kaleidoscopekids.com! Registration should be done online. Use PayPal or mail check within 48 hours to confirm registration.

Lunch: You can sign up for a full-day by registering for two half-day courses. For those students who enroll in both a morning and an afternoon course, a closely supervised lunch area will be provided free of charge. Our aides will eat lunch with students in small groups, then sign them in with their afternoon teacher. Students need to bring their own lunches.

Refunds: To facilitate early registration, there will be no cancellation fees until after March 1, 2027, with the exception of any transaction fees. There is a $50 per course cancellation fee between March 1 and June 1, after which no refunds can be issued. This includes Extended Day. A $50 per course change fee applies after June 10.

Class Changes: After a session has begun, class changes are difficult to accommodate and can only be considered in extenuating circumstances.

Third Child Discount: Register three children and receive a 10% discount off the third child's tuition. (This applies to the child with the fewest courses.)

Faculty: Our faculty, as in the past, is comprised of highly qualified, creative, enthusiastic professionals. We are very proud to have offered quality education for children for what will soon be forty-seven years.

☆ ☆ ☆ ☆ ☆

Back by popular demand:

EXTENDED DAY OPTION!
For students enrolled in A.M. and/or P.M. courses: Join us from 2:30–5:00 daily, and enjoy many options such as arts and crafts, music, stories, computer time, videos, outdoor physical activities and more in a relaxed, creative, closely supervised environment. A snack is also included. Cost: $250 per week per child

EARLY CARE
Early Care (8:00–9:00) can be provided for an additional $50 per child weekly fee.

K I T E

(Kaleidoscope Institute for Thinking Excellence)

June 28, 29, 30, July 1, 2, 2027

A ONE-WEEK FULL-DAY PROGRAM DESIGNED FOR CURIOUS, MOTIVATED LEARNERS IN PRE-KINDERGARTEN THROUGH GRADE 7

LOCATION: PIKE SCHOOL, 34 SUNSET ROCK ROAD, ANDOVER, MASSACHUSETTS

KITE 2027 Theme: "Brain Blast"

Our brains are amazing organs! What is a brain freeze? A brainstorm? A brainteaser? A no-brainer? What "tricks" can help us remember things? How does the brain actually work? Bring your own questions about the brain and discover answers.

For example: Why do I remember my last birthday but not my first? How can I take care of my brain? Why do elephants have such a big brain but they cannot read? What experiments do psychologists create to help us understand how we think?

Join other enthusiastic KITE learners as we explore these topics and much more. Meet a university professor of social and cognitive psychology, Dr. Andrew Baron, who is also a former KITE student himself! This summer, KITE parents can also participate in networking opportunities as well as information sessions throughout the week, facilitated by KITE founder, Janis Baron, who is also a Board Member of MAGE (Massachusetts Association for Gifted Education).

KITE kids enjoy learning as they:

- Engage in challenging outdoor and indoor activities and projects
- Use technology to gather and process information
- Take Special Interest classes based on survey results (options could include science, mathematics, engineering, literature, history, languages, theatre, art, and more)

Our theme is a springboard for many challenging and thought-provoking activities. During the week, our skilled teachers provide instruction on a variety of topics, pose open-ended questions, and function primarily as a "guide on the side" rather than the more traditional teacher's role of "sage on the stage." Projects are "hands-on," interest-based, and involve research as well as creativity.

WHO SHOULD COME TO KITE?

If your child grasps new concepts quickly and deeply, asks questions that show depth of understanding, often adds that "something extra" to a project, does not require any in-classroom support, seems motivated to explore new ideas, and/or spends time waiting for others to "catch up"…then we highly recommend that you try the KITE program this summer. Please feel free to call us at (978) 494-3978 or email kelsea@kaleidoscopekids.com any time to discuss your child and to determine whether the KITE program would be a good match. Please see comments from previous families on the KITE link of our website, www.kaleidoscopekids.com. .

HIGHLIGHTS:

- Emphasis on higher-order creative and critical thinking, as well as problem-solving skills
- Productive thinking, communication, forecasting, decision-making and planning activities
- Chance to meet and work with other eager students, share interests and abilities, and make new friends
- Individual and small group independent investigations
- In-depth study of high-interest topics

PREREQUISITES:

- Strong academic skills
- Independent learning skills
- High degree of motivation
- Teacher survey (not required for previous KITE students)
- Student interest questionnaire (sent in the spring and also online)

Our 37th Year!

NOTE: Pre-K children must be entering kindergarten in 2027 to enroll in KITE this year.

TIME:
9:00 A.M.–2:30 P.M. daily

TUITION:
$575 per child + $45 non-refundable registration fee. Refunds are given, less a $100 cancellation fee, if student withdraws prior to May 1, 2027.
No refunds available beyond that date.
Early Care (8:00–9:00 A.M.): $50 per week
Extended Day (2:30–5:00 P.M.): $250 per week

REGISTRATION:
Register online. Please indicate grade level completed as of June 1, 2027. A confirmation letter and teacher survey will be mailed upon receipt of registration form and tuition. Families will receive several letters prior to the start of the program.

CLASS SIZE: 12

COORDINATORS: Grant Elliott and Tim Stonecipher

2027 DIRECTOR: Kelsea Lussier

CONSULTANT: Janis Baron

INSTRUCTORS: Highly qualified, certified teachers with training in gifted education and/or higher-order thinking skills.

FOR KITE INFORMATION: (978) 494-3978

Visit the KITE link at www.kaleidoscopekids.com

Quotes from KITE parents:

"My son has attended KITE for the past two summers and it has been a great fit. The teachers really understand how he learns and know how to challenge him in ways that keep him engaged, curious, and excited to learn."

"I love that KITE gives my child the opportunity to explore ideas in ways that go beyond the typical classroom experience."

"My child has loved having peers who share his interests and truly understand the way he thinks."

SCHEDULE

Please use appropriate codes from this page when registering. This will ensure the proper placement of your child. Please use child's age or grade as of June 1, 2027 as your guide. If special circumstances exist, feel free to contact the office. Detailed descriptions of each course can be found on our website. We look forward to seeing your child(ren) this summer!

Introducing Kaleidoscope's Preschool Academy!

We are excited to introduce **Preschool Academy**, a special week designed just for our youngest Kaleidoscope learners! Taking place June 28–July 2, Preschool Academy gives children ages 3 and 4 the opportunity to experience all that Kaleidoscope has to offer in a welcoming, age-appropriate environment with a smaller selection of classes and a more relaxed pace. Whether your child has already been in preschool or is just beginning his or her educational journey, this is a wonderful way to build confidence, make new friends, try new things, and discover the fun of learning at Kaleidoscope! Children can choose from exciting classes including **Summertime Fun**, **Get Youth Moving**, **Bluey's Big Adventure**, **Teddy Bear Picnic**, and **Number Soup**. With our fabulous preschool staff–educators who are experienced and trained in working with this age group–your little one will feel comfortable, supported, and ready for a week of fun, exploration, and learning. Preschool Academy is the perfect first step into the Kaleidoscope experience!

Kinderskills:

A very special program uniquely designed for children entering Kindergarten in Fall 2027

Back for its third summer! This enriching program has received wonderful feedback from parents who have seen their children grow in confidence, curiosity, and enthusiasm for kindergarten.

Look out, kindergarten, 'cause here I come! Build print awareness, sound awareness, letter recognition, sight words, and other pre-reading skills in a hands-on, interactive way through stories, songs, and grand conversations. Get ready for "math talks" to enhance mathematical concepts and awareness of the language of math. Exciting number line activities, counting, skip counting, and patterning, along with games, songs, and math crafts, will provide meaningful opportunities to explore early math concepts. These are just a few of the many experiences that will help your child dash through the classroom door feeling prepared, capable, and ready to learn!

Quotes from KINDERSKILLS parents:

"My daughter had only ever been in preschool for two and a half hours, three days a week, so I wasn't sure how she would handle a full week of learning. This program made such a difference! By the end of the week, she felt so much more confident and ready for kindergarten…and honestly, so did I."

"Kinderskills was the perfect introduction to Kindergarten. We would definitely recommend it to other families!"

PARENT COMMENTS

"This is our third summer here and we keep adding a week. We have tried a lot of different programs as we want our daughter to be happy and she has to spend almost her whole summer in camps. Just wanted to drop a line and say that Kaleidoscope is hands down the best summer program. Not just because of the variety of course offerings, which does help, but it's sooooo organized and you communicate with parents. It's those simple things that so many programs neglect, but are so important for working parents trying to juggle full-time jobs and multiple kids. Our daughter wants to do all of the sessions next year! Thank you!"

"I went to Kaleidoscope as a child, and now my two children come! I feel completely comfortable dropping them off knowing they are in such a safe, well-run environment with thoughtful safety protocols and high-quality, engaging courses. It's really special to see that same feeling I remember from my childhood being created for my own children, and it's clear that the staff genuinely cares about creating an experience that is both fun and enriching for kids."

IMPORTANT: *Before submitting your form, please be sure that the age/grade level of your child corresponds to the requirements of each course. Grade levels refer to the 2026–2027 school year, NOT the grade your child will be entering in the fall of 2027. Classes are carefully designed by teachers to meet the skills and maturity expected at specific grade levels. Enrollment cannot be completed if this information is not correct. If you have questions, please contact Christa at (978) 494-3978 before attempting to register. Thank you!*

2027 Pricing

REGISTRATION FEE: $45 PER FAMILY
