Index to the Minutes of the Trustees of Burlington College

Vol. I: 1846–1887

A companion to the transcription and the online viewer

Draft for review, November 2026. Compiled from the transcription (viewer release 1.0). Page numbers refer to the pages of the transcription and viewer (scan pages 1–304). About this index

This index covers the transcription of the first volume of the minutes of the Trustees of Burlington College, 1846–1887, including the Act of Incorporation, the By-Laws, the Relief Fund report of 1857 and the financial exhibits copied into the volume.

Page numbers

Every reference is to a **transcription page**: the "Page N" headings of the transcription document, which are also the page numbers used in the online viewer and the scan numbers (1 = front cover, 304 = back cover). In the viewer, go to a page with the page box or by adding #p*N* to the address. The clerk also numbered the pages of the minute book by hand, starting again at "1" on page 21; the concordance at the end converts between the two. Where several scans were transcribed as one group (for example pp. 220–224, the 1876 mortgage), the reference gives the whole group.

How names are indexed

Names are spelled as written in the transcription. Forms that plainly refer to the same person (initials, abbreviations such as "Wm" or "Geo.", and spelling variants in the same list) are gathered under the fullest form, with the other spellings shown in italics. Where the clerk wrote two different forms that may or may not be one person (for example "G. S. Cannon" and "S. S. Cannon"), both entries are kept and should be compared; such entries usually sit next to each other. A name that appears only as a surname ("Mr Ogden") is assigned to a person only where the surrounding pages make the identity clear; otherwise it is listed as "surname only; person not identified." People referred to only by office ("the Bishop", "the Governor", "the Rector") are not indexed by name.

Role labels (trustee, Relief Fund subscriber, creditor in 1854, degrees, officer) summarise what the minutes record about a person and are a guide, not a complete record of service. Titles such as Rev., Hon., Gen. and Dr are omitted from headings.

Accuracy

The index was compiled by computer from the transcription and then checked against it: every page cited in the tables was confirmed to contain the name. It inherits any misreadings in the transcription; some likely ones are cross-referenced ("so transcribed"). Readers citing a name should confirm the reading against the scan in the viewer, whose matching of transcribed lines to the scan is approximate. Corrections are welcome.

Table 2. Trustees

The Governor of New Jersey (President of the Board) and the Bishop of New Jersey (President of the College and Visitor) served ex officio. The first 24 Trustees are those named in the Act of Incorporation (p. 11). Later entries record what the minutes say about each appointment and departure; “named to fill vacancies” is the wording of the record where the election itself is not stated. Where the clerk's spellings differ they are quoted. For every mention of a person see the People index.

Table 4. The Relief Fund, 1854–1863

In 1854 the Trustees set out to free St Mary's Hall, Riverside and Burlington College from the debts that followed Bishop Doane's assignment. The Provisional Committee's report (Sept. 1857, pp. 101–114) copies the certified list of incumbrances (debts) as of 3 November 1854 and the list of subscribers who pledged to retire them, arranged by county or city; the Treasurer's statement of 1863 (pp. 154–155) records what was later collected. Entries are copied as written, including the clerk's abbreviations: “do” and “"” mean ditto; “Scrip” and “Surrendered” refer to creditors who gave up their claims as their subscription; I.C.G. and R.B.A. are collectors' initials as written.
