Additional fees will be charged for damaged computers - see MS handbook for details. *Costs for TVR and Washington DC trips are estimated.*		

Q: **DOESN'T MY TUITION COVER EVERYTHING?**

Tuition provides the foundation of our school: our teachers, curriculum, classroom materials, student support, elements of technology, and daily operations. However, like most private schools, the true cost of educating each student is higher than what tuition alone covers.

To keep tuition as affordable as possible, we rely on additional support from fundraising, donations, and volunteer efforts, and sometimes special fees to bridge that gap. These resources allow us to offer enhanced programs, improve our campus, upgrade technology, strengthen safety measures, and provide financial aid for families who need it. In short: Tuition keeps the school running. Additional support/special fees allow it to grow, enrich, and thrive.

Please contact our Director of Finance if you need assistance with payment planning.
