Arrupe Jesuit High School
Corporate Work Study Program

HEALTHCARE

A Workforce Solution for the Healthcare Industry

Solve operational needs while developing the next generation of healthcare professionals.

Through Arrupe Jesuit's Corporate Work Study Program, students perform meaningful administrative tasks, provide patient support, and support clinical operations. This work helps healthcare organizations increase capacity while introducing students to careers in healthcare.

What do the students do?

Student responsibilities with Arrupe's current healthcare partners:

Patient Services & Front Desk
- Assist with patient check-in
- Greeting and wayfinding
- Patient intake support
- Assist wheelchair patients for safe movement through the facility

Administrative
- File, sort, and scan document management
- Prepare medical records for insurance requests
- Update and maintain office database
- Assist staff with smooth day to day operations

- **Clinical Support**
- Room preparation
- Inventory and supply management
- Sterilization support, where appropriate
- Organizing patient education materials

Client Services & Reception
- Billing support
- HR, onboarding, and event assistance
- Inventory management and restocking supplies
- IT and technology support

95%	86%	65%	33%
Students meet or exceed employer job performance expectations	Partners "very satisfied" with the overall Arrupe program	Supervisors say a student directly improves their workday	Interested in Pursuing Careers in Healthcare

3 Reasons Why the Healthcare Industry Partners with Us:

1. **INCREASE TEAM CAPACITY**
Students support patient services, administration, business operations, and clinical support functions that allow healthcare professionals to focus on patient care.

2. **DEVELOP FUTURE TALENT**
Introducing students to careers in nursing, pharmacy, healthcare technology, and clinical operations develops a future talent pipeline.

3. **DELIVER A FULLY MANAGED WORKFORCE SOLUTION**
Investing in Denver students helps build a stronger, more diverse healthcare workforce for Colorado.

How it Works:

- Four students share one full-time position throughout the school year.
- Students work one day each week, providing five full workdays of support.
- Arrupe manages transportation, workers' compensation coverage, liability insurance, and Department of Labor compliance, eliminating administrative burden for employer partners.
- Your organization receives dependable administrative capacity while helping students launch professional careers.

☑ What this IS:

- Real administrative support
- Consistent coverage 5 days a week for the 10-month school year
- A full-time equivalent position
- A long-term healthcare workforce strategy

☒ What this is NOT:

- Job shadowing or internship
- Volunteer hours
- A traditional internship
- An added HR burden

Alumni Spotlights

Destiny Arias '19

Registered Nurse
Children's Hospital Colorado

Bachelor's in Nursing,
Regis University '23

Stephen Archuleta, PhD '13

Postdoctoral Research Associate
University of Colorado Boulder

PhD in Biochemistry,
University of Colorado Boulder '24
Bachelor's in Chemistry,
Regis University '17

> *Workforce challenges are real across the healthcare industry. At Care Synergy, we have an intern scholarship program with Arrupe which gives us the opportunity to introduce students to meaningful careers, build relationships over time, and develop future employees who already understand our culture and expectations. We have partnered for over 10 years with Arrupe, and will continue to partner to develop the next generation of professionals for years to come.*
