

Scouting America has developed a new Aviation Drone Exploring Program. They have partnered with the FAA Drone Initiative and have a partnership with the Academy of Model Aeronautics who will provide a free drone kit to youth who join a newly organized Scouting America Drone Club or Post.

Scouting America Career Exploring programs deal with STEM education and career exposure. The drone program includes FAA certification, hands-on drone activities, safety training, and career exploration for Youth ages 14-20.

An organizational meeting for our New Drone Explorer Post will be held on December 1st 6:00pm at the Pocatello Community Charter School 995 S. Arthur Ave.
