HIPSAK HABITAT

Week of November 23

Our Learning Path This Week

Math

On Monday, students will review converting mixed numbers to improper factions and vise versa. Tuesday they will have more practive adding fracctions with unlike denominators. Wednesday we will review adding mixed numbers with unlike denominators. Students will only have homework if they don't finish the classwork in class.

ELA

This week students will take a break from our ELA curriculum.

Students will experience a virtual field trip to the Macy's Thanksgiving Day Parade. Students will read and watch videos to see how the parade comes together.

Students will learn what a parade is and the history of the Macy's parade. Students will also learned how the huge balloons are created and come to life.

Students will start on Monday and the Google Slide assignment is due at the end of day on Wednesday, November 25. I always encourage students to watch the Macy's Thanksgiving Day Parade the morning of Thanksgiving.

SEL & Science

On Tuesday, students will finish our unit 3 on inclusiveness. Wednesday, students will read and learn about tsunamis. All work will be done in class.

11/25 Speed Stacking 2:30-3:30
11/26 Thanksgiving Holiday No School
11/27 No school

End of the Quarter

After Thanksgiving week, we have 3 weeks left in the quarter. All missing work will need to be turned by Monday, December 14. I will be out on leave December 16 and 17. I found out in August that I need to have knee surgery. I was able to put it off until December, so I can recover during Christmas break. I waited because this will require me to miss 2 days instead of 2 weeks with the kids.

Progress Reports

Progress reports will come home Wednesday, November 25. Students should use the 4 day weekend to try and get their missing work completed and turned in. All report are due back Monday, November 30 with a parent signature.
