

Tahanto Athletic and Course Information

We currently have 200 athletes enrolled in the Fall athletics program. I have attached a screenshot of Matt Porcaro's enrollment data.

This Wednesday will mark 'midterms' and staff will have midterm grades updated this week. Currently we do not have any official grades as grades for Quarter 1 will not close until 11/3 and will be official on 11/8/2023 at which time we would be able to look at the failure report for any current or upcoming sports.

The process is as follows:

The quarter ends. The AD asks for a 'failures report' which is printed by guidance. The AD then reviews the list to see if there are student athletes on the list. He assesses the grades and number of courses and then speaks with the students. He confirms they are taking the number of required credits and if they are taking 5 full courses and they have 1 failure they would be eligible. If they were taking 6 full courses and failed 1 they would be eligible. If they are taking 7 full courses and fail 1, they would be eligible. A full course is a 5-credit course equivalent to a major "English Course".

During the 2022-2023 school year there were no ineligible students.

During the 2020-2021 there was 1 ineligible student who could no longer play their sport for the remainder of the season. That student was not playing a sport the following season.
