Memorandum

To: Carol Costello, Superintendent of Schools
From: Cinthia D. Sykes, Principal, Boylston Elementary School
Date: April 4, 2024
Re: Report to School Committee about School Choice Feeback

Below you will find a table with enrollment projections for the 2024-25 school year. These numbers are based on current enrollment plus informal information we have received from families.

Grade	BES Projected for 2024-2025	BES Choice Proposed for 2024-2025	BES Average Class Size
K (3 classrooms)	58	1 (due to sibling)	19
1 (3 classrooms)	63	0	21
2 (3 classrooms)	47	2 (1 new, 1 existing)	16
3 (3 classrooms)	63	0	21
4 (2 classrooms)	37	0	18.5
5 (3 classrooms)	57	0	19

As you can see, our enrollment is constant. In light of the limited size of our classrooms, the unknown data from the new apartment building being built on Sewall St., and the unknown number of Kindergarten students, it is my recommendation that we fill the open second grade school choice spot, open a new one for this grade and accept the kindergarten sibling of the already attending student.

Our mission at Boylston Elementary School is to support and challenge all students to achieve personal and academic excellence in a student-centered environment.
