2015-16 July 1 Budget

2015-16 July 1 Budget

State law requires that all charter schools approve their Final Budget by July 1st of each year. This Budget is then updated at First and Second Interim. This report compares the projected annual budget for the coming year with Estimated Actuals, which are an estimate of the year just ending.

Average daily attendance, or "ADA", is anticipated to remain stable in the coming year. When combined with other projected changes in revenues, total revenues for the year are expected to increase by \$1,833,742 from the year just ending.

Expenditures for the coming year are projected to increase by \$2,158,047 in the coming year when compared with the year just ending.

When both the revenue and expenditure changes are taken into account, the School is now projected to show a budget deficit of \$295,592 in the coming year. This will result in a change in ending balance from \$1,897,065 to \$1,601,473 (13.34% of expenditures).

The budget includes one-time State revenue of \$601/ADA which has been allocated to one-time expenditures including facilities expansions, site improvements, and staff retention.

Due to purchases of capitalized equipment and building and site improvements, cash flow will need to be monitored early in the year.

Cash flow remains sufficient to cover all operational cash flow needs for the remainder of the year.

In general, the School's fiscal condition is stable, and the School will be able to meet all financial obligations for the current and two subsequent years.
