

School buses provide safe and reliable transportation for families.
They also create the first and last impression of school, every day.

Families within the school district are grateful for our bus system.

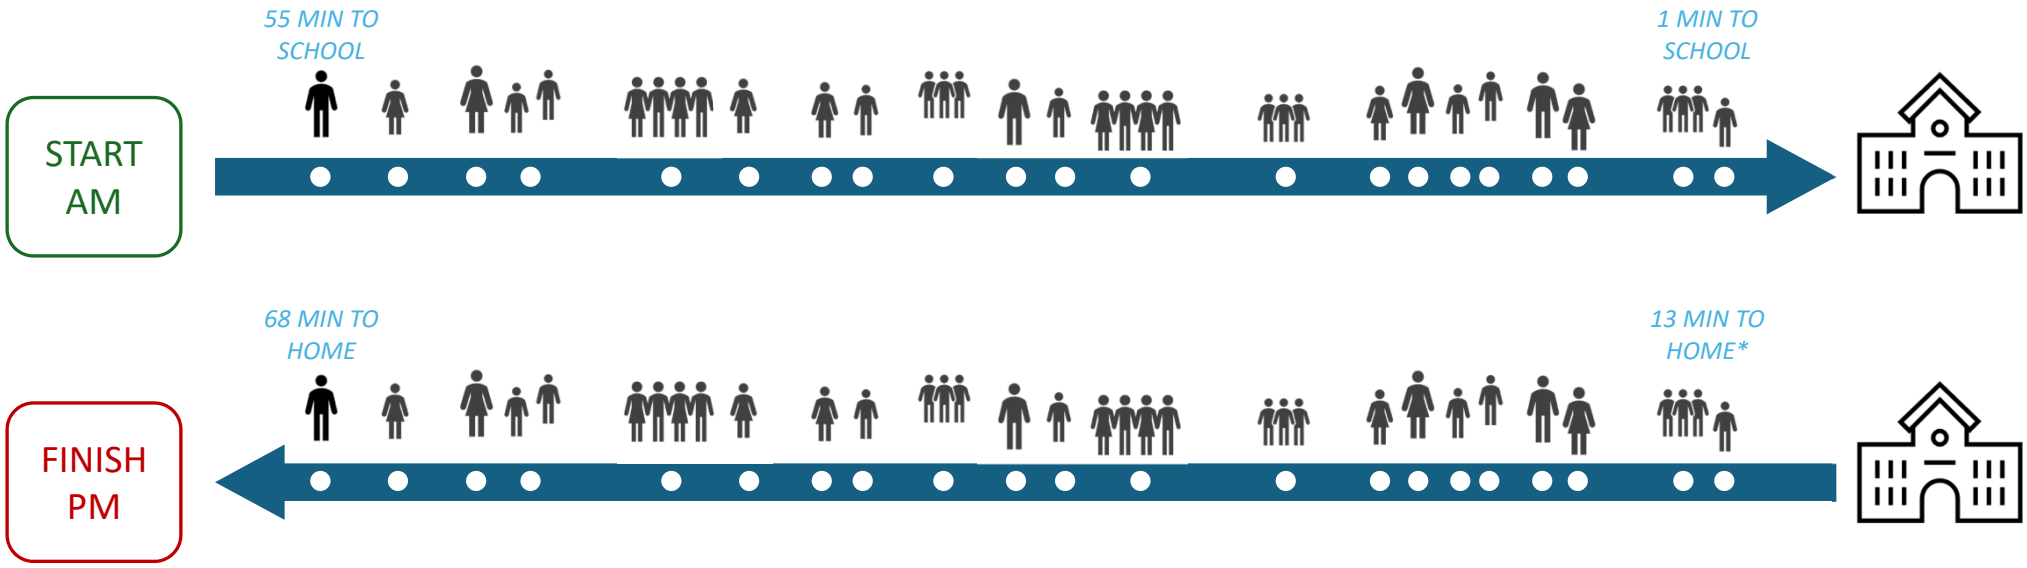

For ***zero cost***, we can make the experience even **better**.
For everyone.

Today, PM bus routes are operated in reverse of AM routes.

This was done to accommodate a child with a medical condition 5+ years ago that is no longer at BMS.

The child picked up first in the morning is dropped off last in the afternoon.
Some children must spend over 2 hours per day on the bus, other children less than 15 minutes.
Bus drivers must memorize two separate driving routes.

All children live less than 3 miles from Berlin Memorial School.

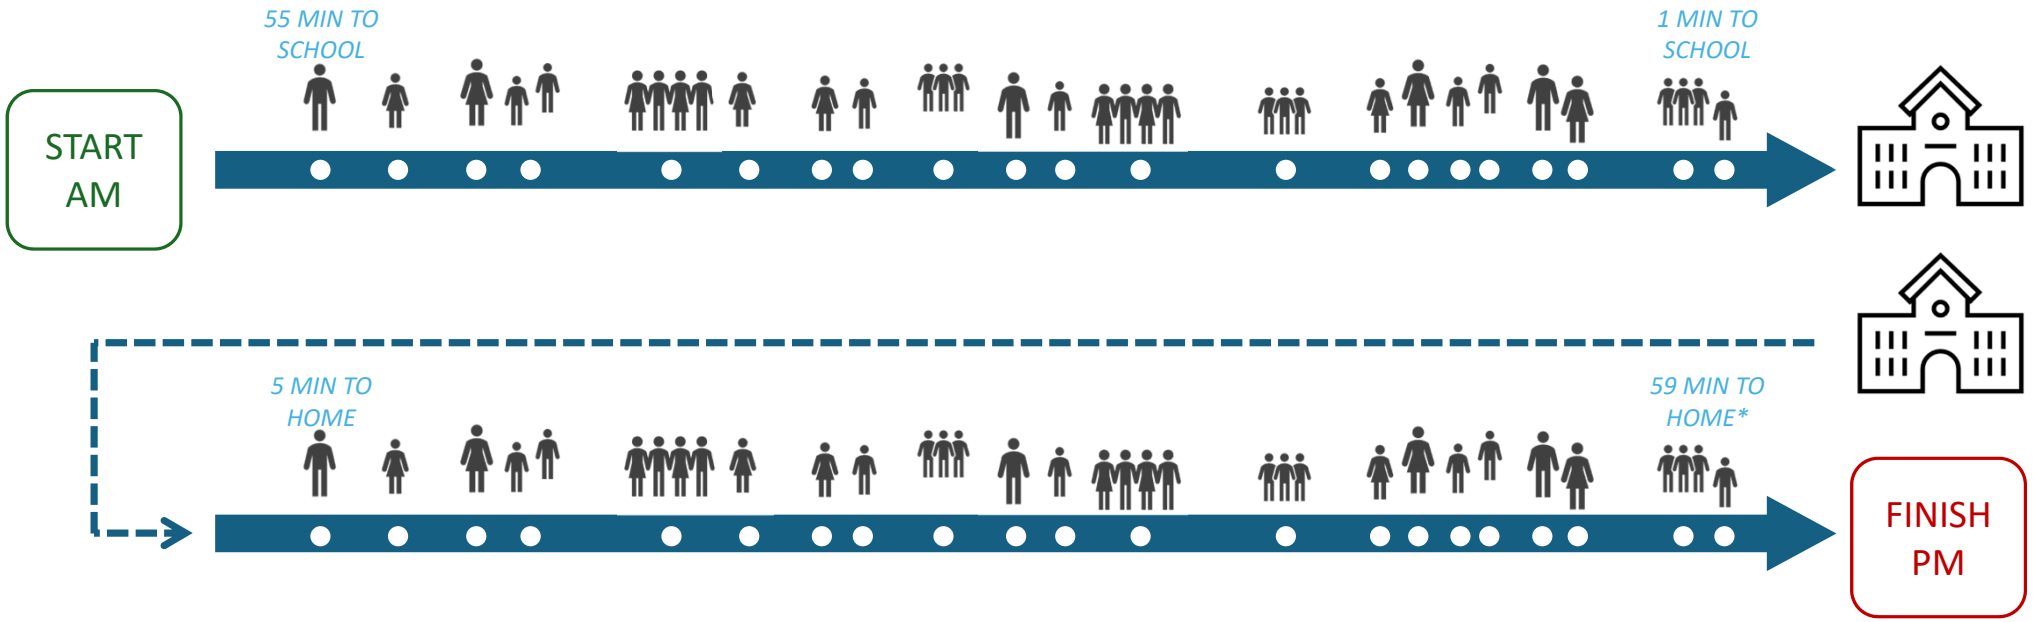

The proposal:

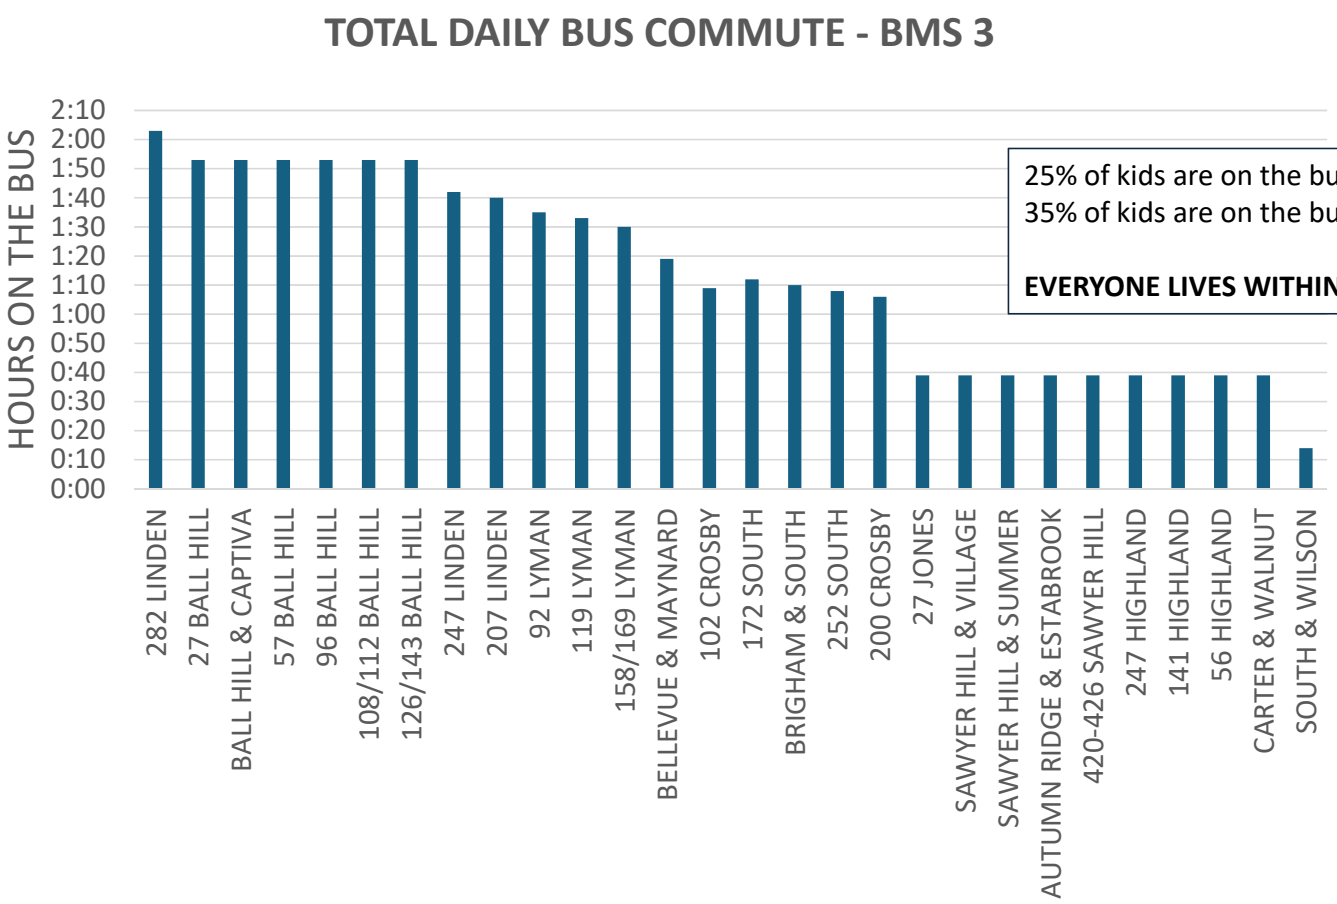

Run the exact same route morning and afternoon.

The child picked up first in the morning is dropped off first in the afternoon.
Everyone spends a similar amount of time on the bus.
Bus drivers need to memorize just one route, and one route only.

It's faster.

CURRENT ROUTING

25% of kids are on the bus for ~2 hours
35% of kids are on the bus for ~30 min or less

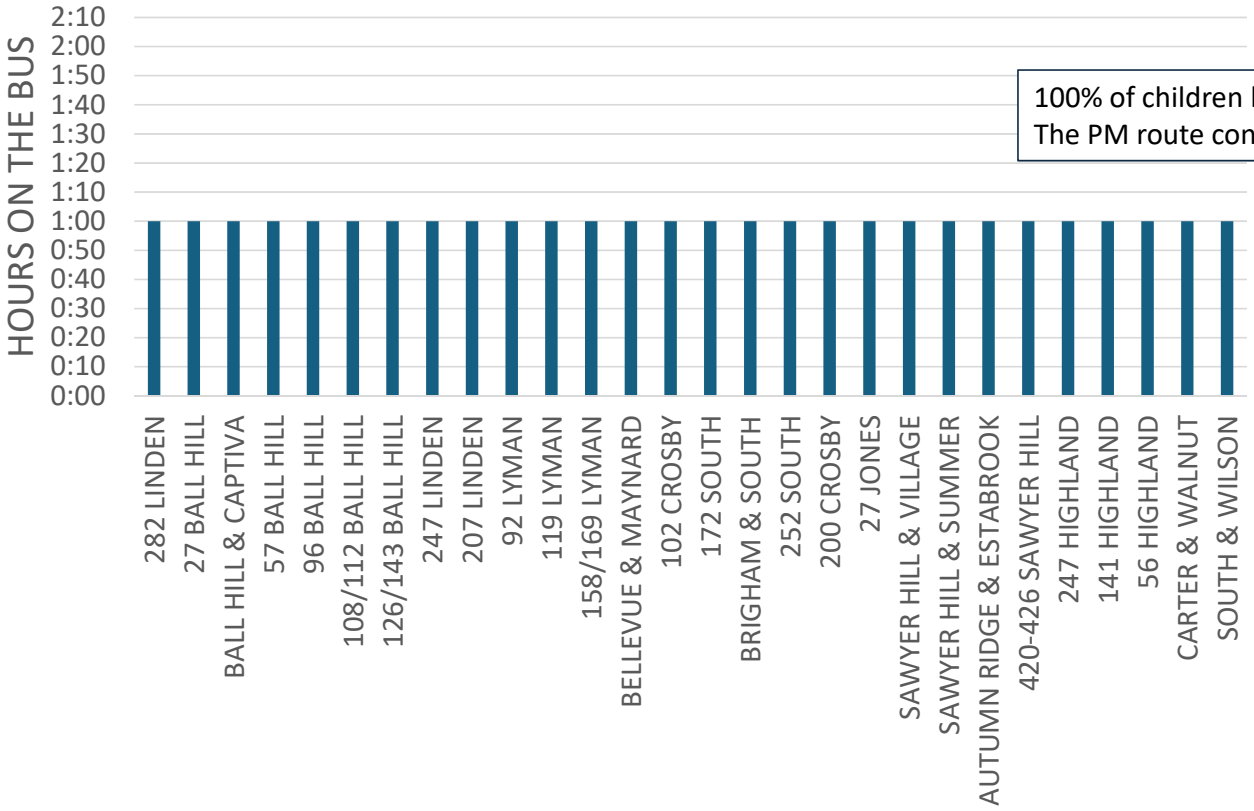

EVERYONE LIVES WITHIN 3 MILES OF THE SCHOOL.

How would you feel if you were the child at 282 Linden?

There is an easy fix.

PROPOSED ROUTING

TOTAL DAILY BUS COMMUTE - BMS 3

100% of children have a 1-hour total commute time per day
The PM route concludes 5 minutes earlier than current.

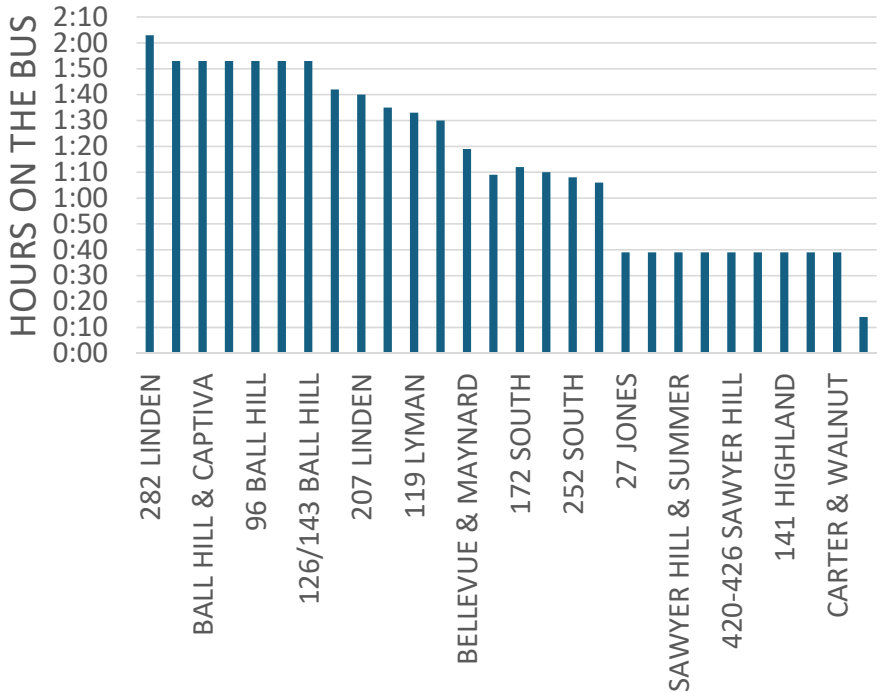

Yes, it really works out this evenly!

BMS Route 3 change summary

*Children's commute time is level-loaded to **60 minutes total per day**.*
Driver has 1 route to memorize.
With zero optimization, driver finishes PM route 5 minutes early.

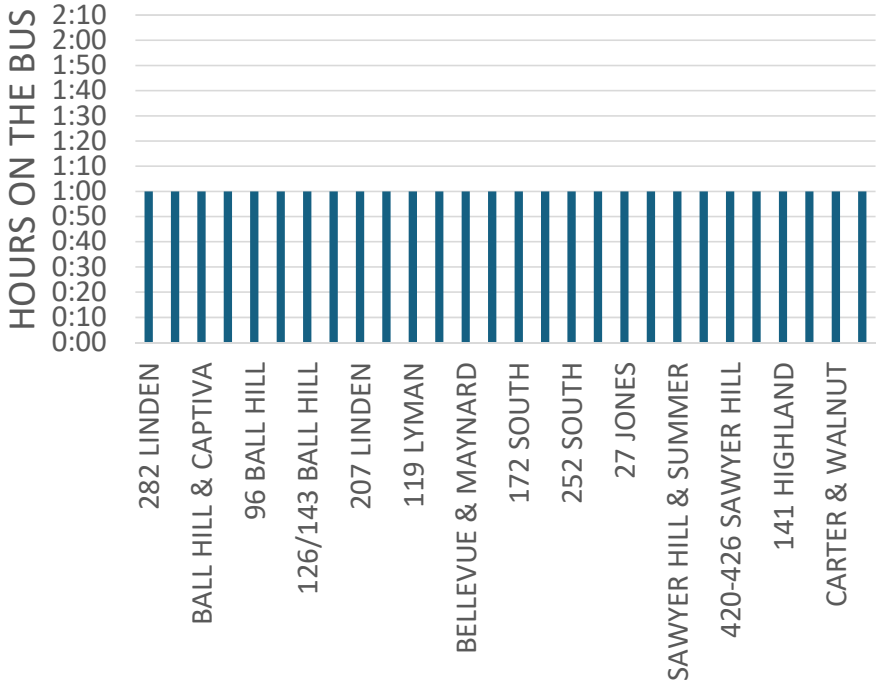

CURRENT ROUTING

TOTAL DAILY BUS COMMUTE - BMS 3

PROPOSED ROUTING

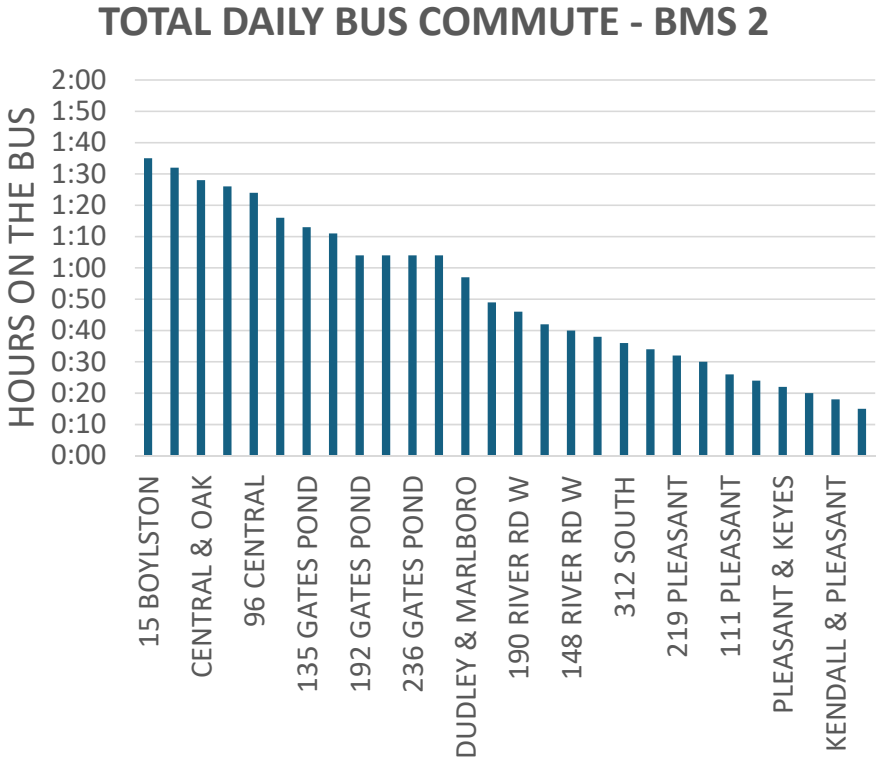

TOTAL DAILY BUS COMMUTE - BMS 3

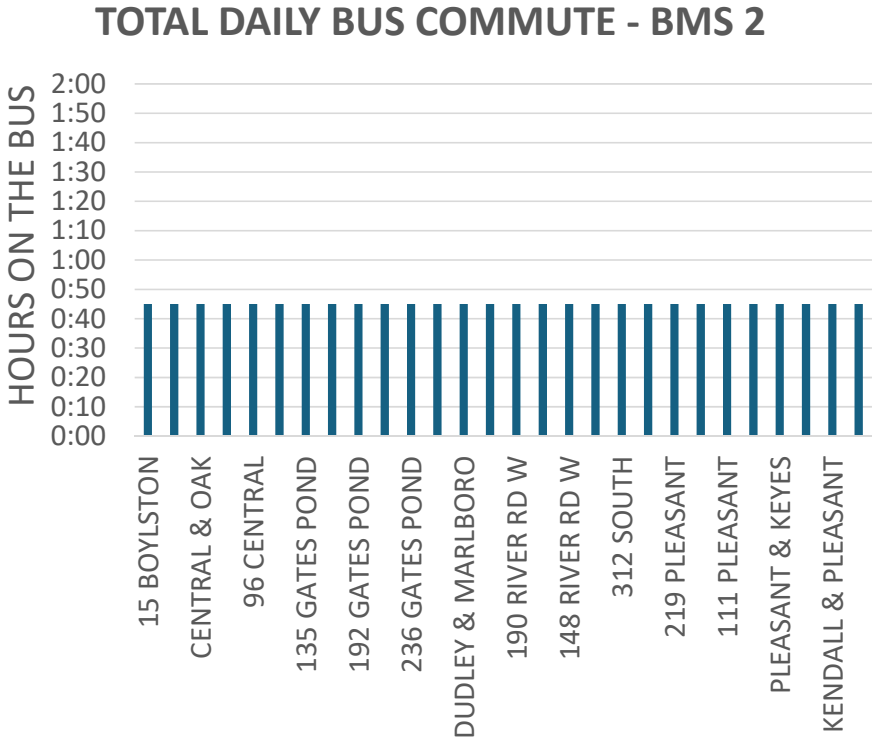

The same positive impact applies to BMS route 2

*Children's commute time is level-loaded to **45 minutes total per day**.*
Driver has 1 route to memorize.
With zero optimization, driver finishes PM route 7 minutes early.

CURRENT ROUTING

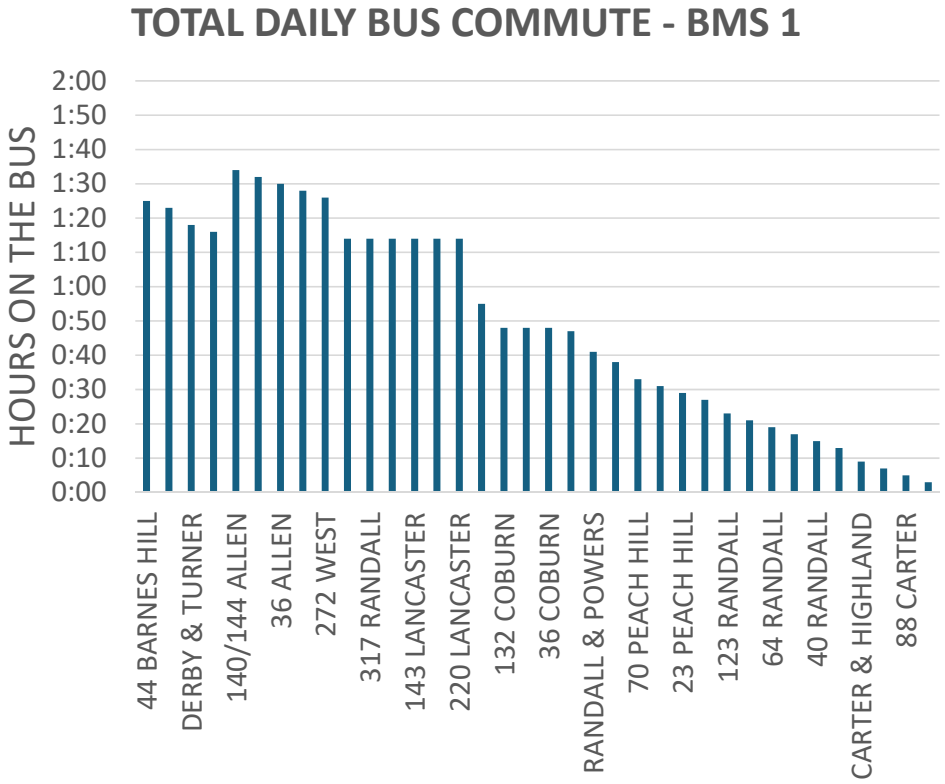

PROPOSED ROUTING

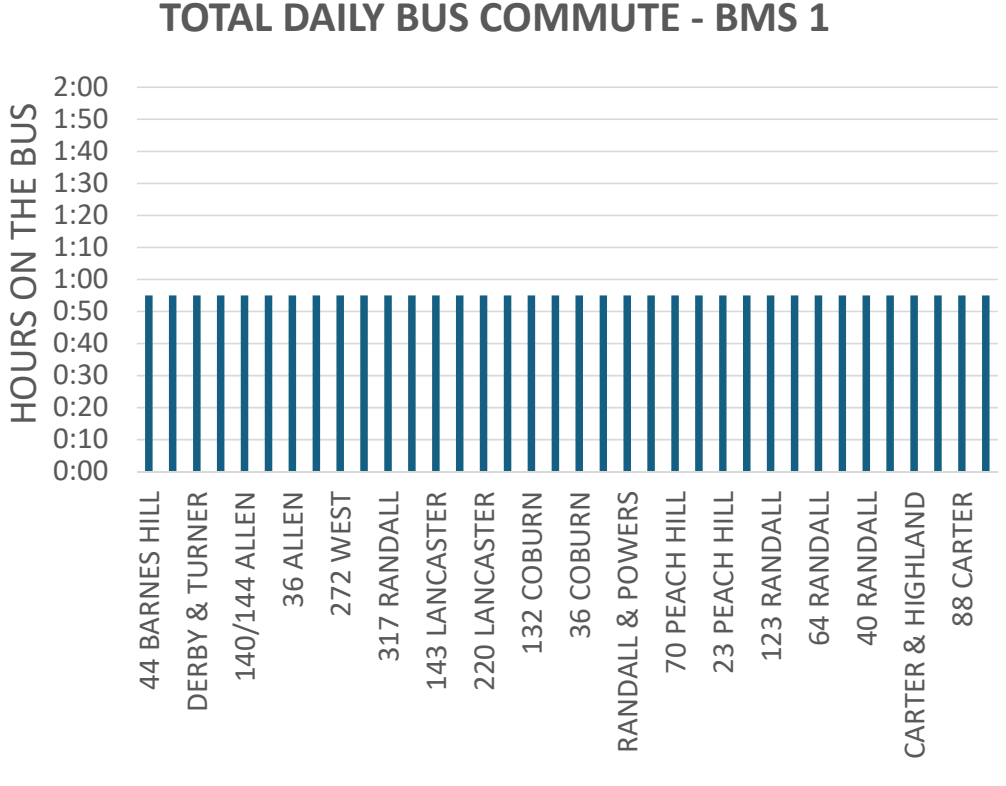

The same positive impact applies to BMS route 1

*Children's commute time is level-loaded to **55 minutes total per day**.*
Driver has 1 route to memorize.
With zero optimization, driver finishes PM route 6 minutes later.

CURRENT ROUTING

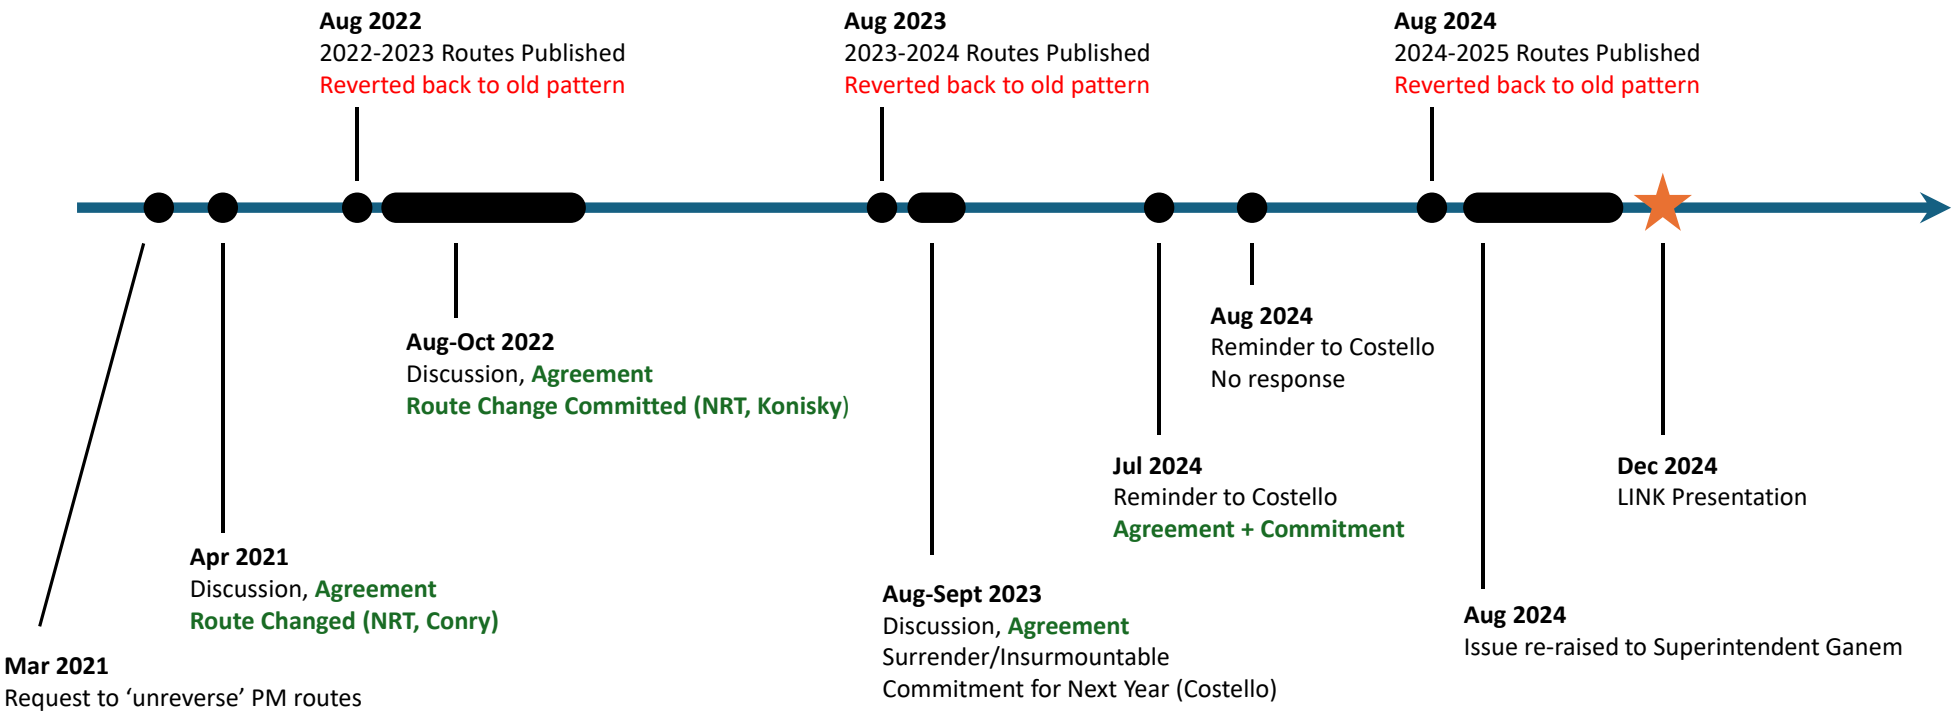

PROPOSED ROUTING

The proposed solution is simple.

The path to getting here, and staying here, has been challenging.

The Bottom Line

Many families have sought and would appreciate this change.

It creates equity where there is currently none.
It is free.
It's simpler.

It creates a better school experience for our children.

Thank you

Hi Bob,

Just following up on the bus routes. Any response from NRT?

Thanks,
Jon

I will update you when I get a response from NRT. If you don't hear back from me in a few days, feel free to circle back.

Hi Bob,

I think this is something we can accommodate. In the past the route was run like this for a student with medical reasons. That student no longer rides the bus. I think we can do this over April Vacation to allow time to notify all the parents of the stop and time changes. Thanks!
