Hi Everyone,

Hope you're having a good break. Boylston Day @ Polar Park is scheduled for August 23rd. CREST Technologies and the WooSox have been discussing a partnership, where every BES student would get one free ticket (sponsored by CREST) to the game. Assuming next years kindergarten class is comparable to this year that is roughly 330 students.

One challenge we are seeing is how to get the tickets to the kids given the game is in the summer. One idea is to have an event with the WooSox and mascot a week or so prior to the game where kids can come get their ticket and families have the opportunity to purchase more so they can accompany their child.

I think that will work, however I'm sure some people won't be able to make it. Is the BES office staffed in the summer and could we have people pick up tickets there? We can have a flyer with a QR code to send with them so families can get more tickets.

I would like to get working on this ASAP for budgeting and logistics reasons, so please respond with your thoughts ASAP.

Thanks,
Matt
