TITLE I MEMORANDUM OF UNDERSTANDING

Title I allocations are made to public school districts based on the number of low-income children residing in a particular district. Since district residents may attend nonpublic school districts located within another public school district's boundary, funds allocated on a per pupil basis can be transferred from one district to another.

In accordance with federal rules and regulations, the purpose of the Delphos City School District non-public program is:

1. To supplement the educational program for eligible students in non-public schools by providing services in consultation with the non-public school administrators.
2. To provide student progress reports and an annual evaluation to ensure that high quality services are being delivered, and
3. To provide funding to support opportunities for parent involvement to facilitate meaningful two-way communication between the parents and students served through the Title I program.

In compliance with the purpose of the Title I Non-Public School Program, the **Elida Local School District** and the Delphos City School District agree that:

The Delphos City School District will provide properly licensed educators to implement the Title I program serving eligible **Elida Local School District** students attending Delphos St. John, a non-public school within the Delphos City School District boundary. The amount of funding will be calculated by the Ohio Department of Education's Non-Public Data System based on the participation status between **Elida Local School District** and the non-public.

Tutors and non-public administrators will use standardized assessment among multi-criterion to rank students based on academic performance and use this list to priorities services for those most in need. Tutors will provide instruction based on the state academic content standards. Tutors will administer standardized post-tests to evaluate students' growth and the effectiveness of the Title I nonpublic tutoring program. Copies of student progress reports and the overall program evaluation will be shared in a timely manner with the LEA State and Federal Program Office.

Elida Local School District will make payment to the Delphos City School District provided that they have complied with the above listed requirements and provided the **Elida Local School District** with proper documentation.

For the **2024-25 school year**, **Elida Local School District** agrees to transfer funds from its Title I allocation in the amount allotted by ODE to the Delphos City School District

The Delphos City School District in cooperation with Delphos St. John will provide school-parent compacts for the Title I students, evidence of parent involvement activities, training, materials, progress reports for Title I students, eligibility criteria and a list of students residing in its district who attend Delphos St. John to **Elida Local School District**.

The Delphos City School District agrees to provide services equal to the services amount allocated by the **Elida Local School District**.

Eligible students from **Elida Local School District** will be identified for service by the selection procedures designed by the Delphos City School District.

The **Elida Local School District** and the Delphos City School District agree after consultation to pool Title I funds across all participating public schools who agree to pool funds. Based on uniform criteria of educational need, the lowest-achieving Title I eligible non-public children who attend Delphos St John regardless of their district of residence and without regard to how much funds children from low-income families within their non-public school general towards the pool will be served. Eligible low-achieving children may receive Title I services even if their school has a few or no children from low-income families who generate Title I funds.

The Delphos City School District agrees to include the student(s) being served from **Elida Local School District** in all required district, state and/or federal Title I reports for the **2024-25 school year**.

The **Elida Local School District** will provide for effective control over, and accountability for, all funds property and assets. The **Elida Local School District** will maintain title to materials, equipment and property purchased with those funds. The **Elida Local School District** will allow the non-public school to keep items from year to year, in accordance with approved on-going activities, as long as records are maintained.

Treasurer, **Elida Local School District**

A handwritten signature in blue ink, reading "Laura A. Peters", is written over a horizontal line.
