

Mapping trade directions: (Use this with the map of the Atlantic world that is with the resources)

1. Place three direct jobs on the map. Use a triangle in your key for these jobs.
2. Place 4 indirect jobs on the map. Use a circle in your key for these jobs.
3. Create a symbol for sugar, guns, tobacco, slaves, and rum. Then, place each one where it is produced (This can be in multiple places.) Draw an arrow or arrows showing where the good would be shipped to.
4. Create symbols for at least two more goods that were produced by jobs that benefitted from the slave trade. Place these goods where they were produced.
5. **Don't forget to put your symbols and what they mean in your key!**

Key is on the next page

Key:

1) Possible Answers
