

Principals:

Attached are resources to use regarding ESSA Evidence-Based Programs.

- The first list is comprised of programs that WCSD has collected research and citations that qualify it as an ESSA Evidence-Based Program. **You may use any of these programs!**
- The second list is comprised of literacy programs from the What Works Clearinghouse that also qualify as ESSA Evidence-Based Programs. **You may use any of these programs!**
Programs that do not qualify have NOT been included on this list.

If you do not see a program you are interested in using, you can:

- Log on to the What Works Clearinghouse and see if the program has qualified as a ESSA Evidence Based Program: <https://ies.ed.gov/ncee/wwc/>
- Email Marianne Reger, Grant Writer at mreger@washoeschools.net and let her know the name of the program you are interested in using, and she will see if there is any research available that would qualify the program as an ESSA Evidence Based Program.

Here is a list of programs that SO FAR have no research that qualifies them as an ESSA Evidence Based Program and **cannot be used at this time:**

- BrainPOP
- IReady Instruction
- MysteryScience.com
- Learning/Handwriting Without Tears
- Arts Attack
- School City
