

Elida's Abre Usage

What is Abre?

Abre is a district-wide platform that centralizes student data, behavior records, communication logs, district plan, and performance dashboards into one system. It provides staff with real-time access to the information needed to support students effectively.

What does Abre usage look like for Elida Local Schools?

Data Integration

- Combines attendance, behavior, and course performance data into one platform
- Eliminates the need to navigate multiple systems to find student or district data
- Individual Student 360 profiles provide a complete, holistic view of each student's information and records

Behavior Tracking & Transparency

- All student behavior incidents are documented in Abre
- Provides a consistent, district-wide system for tracking behavior
- Teachers and administrators can see behavior history across classrooms
- Promotes shared responsibility and consistency in student support

Parent Communication Logging

- All parent/guardian contact is logged in Abre through the Student 360 page
- Creates a transparent communication history for each student
- Allows staff to see previous communication with parents by all teachers
- Tracks contact log for the entire district in a dashboard to ensure we are prioritizing parental engagement

District Plans & Student Records

- District plans and important student documentation are stored directly in Abre
- Eliminates the need to locate and manage physical cumulative folders
- Ensures information is:
 - Easily accessible to staff
 - Consistently updated
 - Shared across buildings and teams
- Improves efficiency and ensures all staff are working with the same information

Insights & Dashboards

We have developed a comprehensive set of dashboards that are used across the district to monitor student progress and guide decision-making.

- Abre dashboards transform complex data into clear, visual insights which save administrators significant time and effort that would otherwise be spent collecting, organizing, and interpreting spreadsheets.
- Provides up-to-date data on attendance, behavior, and course performance, allowing teams to respond quickly rather than waiting on delayed reports.
- Monitors the effectiveness of district initiatives and interventions
- Identify students who are off-track in regards to attendance, behavior, or course performance

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they
