Asst. Superintendent Business Services

Subject: Clarification Regarding Recommendations for Fence Foundations
Proposed Athletic Field Renovation
Lynwood High School
4050 E Imperial Highway, Lynwood, California
GPI Project No. 3328.I

Dear Gretchen:

As requested by Steven Park of tBP Architecture, this letter provides clarification of recommendations presented in our geotechnical investigation report dated October 3, 2025 (GPI, 2025); see references. We understand that the DSA reviewer questioned whether or not there was a specific height restriction for the geotechnical recommendations presented in our referenced report for fencing greater than 10 feet in height. For clarification, there is no height restriction.

We trust that this letter satisfies your current needs. Feel free to call us if you have questions regarding this letter or need further assistance. The conclusions and recommendations included in this letter are subject to the same limitations as presented in our October 3, 2025 report.

Very truly yours,
Geotechnical Professionals Inc.

Justin J. Kempton, G.E.
Principal
