

School Board Executive Summary

Topic: Approval of Design Development for the Westside Middle School Track and Field Renovation project

Date: September 22, 2026

Presented by: Matt Herzog, Project Advocates
Mindy Filipi, APMA

Recommended Action:

- ☐ Information Only
- ☐ Presentation/Discussion
- ☒ Discussion/Action by Board of Education
- ☐ Presentation/Action Next Meeting

Recommendation(s): Approval of the Design Development plans for the Westside Middle School Track and Field renovation project as presented by Alley Poyner Macchietto Architecture (APMA).

Background: Alley Poyner Macchietto Architecture (APMA) is contracted by Westside Community Schools to design the Westside Middle School Track and Field Upgrade Project. The project includes: installing a synthetic turf field; a new track with jump pits; 980-seat grandstands; a concession/restroom building; field lighting; and a public address system. The north grass area behind the grandstands will be converted into a throwing venue featuring dual-direction discus rings and six shot put pads. APMA presented the Schematic Design at the August 24th Board Meeting.

Project design is anticipated to be completed in November 2026, with bidding in December 2026. Construction is scheduled to begin in May 2027, with the field and track substantially completed before the start of the 2027-28 school year. The track surface is expected to be finished in August 2027, and the concession/restroom building in December 2027.
