

# WELCOME TO THE Launch Family

## A Message from an Alumni Parent & Launch's Parent Engagement Coordinator

### **Congratulations on your acceptance to Launch!**

You are now a member of a learning community that joins together engaging curriculum, character development, and family engagement.

As the idea of school closures loomed due to the Coronavirus, the Launch team rallied together to search for innovative solutions to this new and complex challenge. Thinking ahead, we had a plan in place and executed it prior to the announced school closures. Teachers were trained and ready to go on Google Classroom and students were provided with laptops. All the tools and procedures were in place to launch a successful expedition into distance learning.

As a parent or guardian invested in your child's education, this is what you should expect from your child's school. When my son attended Launch he received the same care and attention. I was treated as a partner and a vital participant in my son's education. I am always proud to say I'm a Launch parent alum.

— **Miko Simmons-Jones**  
*Alumni Parent & Outreach Coordinator*

### **Welcome new Launch parents!**

Our ultimate goal at Launch is to ensure that each and every parent knows that they are partners in their child's education. We foster this collaboration by hosting informative, resource-filled Parent Association meetings. Parents are encouraged to volunteer in classrooms and the main office. Parent input is essential when there are school policy decisions being made and, of course, making our Launch celebrations a family affair.

This spring, when the school had to transition to distance learning, every team member at Launch was readily available to parents and students to have regular check-ins, for technical support, and to keep morale high!

We are really looking forward to having you join the Launch Community because "We Are Crew".

Join us!

— **Sheryl Davis**  
*Launch Parent Engagement Coordinator*
