

DHS SCHOOL COUNSELORS

The Dalton High School Counseling Department will collaborate with key stakeholders to provide meaningful academic, social/emotional and college/career readiness support to all students. Our school counselors will develop and provide unique and engaging interventions to support and empower students with the skills needed to self-advocate and succeed through school and thereafter as contributing citizens.

The School Counselor's Role

School counselors have a minimum of a master's degree in school counseling, meet the state certification/licensure standards and abide by the laws of the states in which they are employed. They uphold the ethical and professional standards of ASCA and other applicable professional counseling associations and promote the development of the school counseling program based on the following areas of the ASCA National Model: foundation, delivery, management and accountability.
