It is the intent and purpose of the Board of Education of Northbrook School District 27 to provide a school environment which will contribute to the achievement by each child, in accordance with his/her age and abilities, of the following goals:

1. An intellectual awareness of the world in which he or she is learning to live and of the skills required for a satisfying exploration of that world;

3. Make the best use of the facilities and finances which are provided by the taxpayers.

The Board of Education shall periodically, but no less than every ten years, review and revise these overarching goals and objectives for the children and the educational program.
