

HONORS in Equine Science

Any seniors enrolled in *Equine Science* and active members of Lancers or Equestriennes may choose to complete the requirements for HONORS in Equine Science.

Prerequisites

Candidates must be have upheld the honor standards and have earned grades no lower than B in prerequisite courses. Candidates will be assigned an advisor appropriate for their proposed project, and will be awarded HONORS based on the determination of the Horsemanship Department faculty as a whole. Prerequisite courses include the following:

Area of Study	Term/s
Equine Sculpture	1 Term
Equine Veterinary Science	1 Term
Honors Seminar	4 Terms

Honors Project

Students will pursue self-directed in-depth research in an area of equestrian studies that interests them and present their findings to *Honors Seminar* advisors and interested students and faculty.

Honors Seminar

This course is designed to provide *Equine Science* students with an opportunity to complete an honors project under the guidance of and for presentation to Horsemanship Department faculty.
