USE OR LOSE VACATION

If you have vacation that is use or lose, please use it as soon as possible. Do not wait until the last minute to take time off. There are only 10 interns to cover head custodians. September and October are the months we receive the most requests for interns to substitute. During these months last year, dozens of custodians could not be covered. Please plan early.

PROFESSIONAL DEVELOPMENT DAY- JUNE 7

We are looking forward to this year's Professional Development Day. There will be many informative breakout sessions and general classes. We will be sending out an agenda including detailed information about the breakout sessions in the weeks to come.

PARKING LOT SWEEPING

We will begin parking lot sweeping. As soon as a schedule is available from the contractor, we will send that information out to you via email so you can plan appropriately.

ORNAMENTAL GRASS

If you have not already trimmed your ornamental grasses, please do so now. Bundle the grass, tape it, and measure at least 9 inches from the ground before cutting with hedge trimmers. The grass cannot be cut shorter than 9 inches.

GYM FLOOR FINISHING

Because of the water based floor finish, it is no longer necessary to aggressively sand the gym floor. You will need to rough-up the surface with an SPP pad (item #04471420 square or item #04020201 round) before applying another coat of floor finish. We are advising 5 years before aggressively sanding to allow the buildup of the water based product which will provide extra protection of your floors.
