

Billings School District 2

INSTRUCTION

Boundary Change

Boundary changes made by the Board of Trustees will include an effective date.

From that date forward the following rules will apply:

1. Students who will be transitioning to another level (5th, 8th, 12th graders) may elect to remain in their original school when new attendance boundaries go into effect if there is available space and staff. Once the student begins attendance at that school, he/she must remain at that school during that entire school year. Exemptions may be made due to space problems.
2. New students who move or transfer into a new attendance area must attend the school assigned for that attendance area.
3. Exceptions for attendance outside of any new boundaries will be judiciously reviewed on the basis of education-related considerations.
4. Approved transfer requests may be renewed annually.
5. Students admitted under tuition will be assigned a school of attendance by the Superintendent.
