

Billings School District 2

STUDENTS

Students Rights, Responsibilities, and Code of Conduct

District-Provided Access to Electronic Information, Services and Networks for Students

Technology is provided for BPS staff and students to conduct research and to learn and communicate with others. Communications over the network and files stored on district equipment should not be considered private. The communications and files may be treated like school lockers – administrators and faculty may review files and messages to maintain system integrity and insure users are acting responsibly. Additionally, the technology department may disable, uninstall or block traffic at any time with no prior notice to maintain system integrity.

Violations of the Acceptable Use Policy include, but are not limited to, the following activities:

1. Engaging in illegal activities;
2. Sending or displaying pornography, offensive messages, offensive language or other offensive media;
3. Use of racist, harassing, insulting or threatening communications;
4. Using district resources for campaigning or promotion of candidates or ballot issues;
5. Wasting technological resources for non-educational purposes (i.e., interactive games, p2p file sharing, downloading games, shareware or freeware, streaming audio & video, excessive printing);
6. Disclosing personal information outside the network;
7. Posting of images or personal information;
8. Accessing and/or changing files, systems or folders without authorization;
9. Trespassing in and/or changing other user's files, folders or documents without their permission;
10. Using the network for buying, selling, personal profit or gain;
11. Sharing passwords or logging on as another user without their permission;
12. Transmitting viruses, Trojan horses, worms or other destructive files;
13. Posting to bulletin boards, web logs (blogs), chats or instant messaging (IM), unless specified

under curriculum or as approved by the supervising teacher or administrator;

14. Engaging in gambling or betting;
15. Plagiarizing and violating copyright laws;
16. Using personal electronic devices unless approved by a teacher or administrator for educational purposes (i.e., cell phones, MP3 players, PDAs, cameras);
17. Attaching devices to the network without prior approval from the supervising teacher or administrator;
18. Attaching personal equipment, such as laptops, to the district network, installing district software on it or having district personnel maintain it without permission from the Director of Technology; and
19. Transmitting anonymous communications.

Violation of the regulations is unethical and may constitute a criminal offense. Should a student commit any violation of the regulations, computer privileges may be limited or revoked, school disciplinary action may be taken and/or appropriate legal action may be pursued.
