Strategic Planning/District of Innovation Committee
Roles, Opportunities and Responsibilities

The 2015/2016 Strategic Planning Committee is a distinct group of school, student and community leaders who have been selected to serve as representatives in the development of the forthcoming strategic plan. Specifically, the committee will work alongside SBISD staff members to develop the district’s strategic plan. This plan will serve as a foundational element from which the district will base all future work across the next three to five years. In serving as a representative on the committee, each member agrees to work to meet each of the below responsibilities.

1. As best as possible, attend each of the scheduled committee meetings.

2. Provide insight and feedback to help shape the development and direction of the strategic plan.

3. Work collaboratively as a member of a subcommittee focusing specifically on the development of a particular theme.

4. Review materials between meetings in an effort to continue collaborative thought and provide ongoing insight to associated SBISD staff members.

To serve you in this role, Spring Branch Independent School District commits to providing each steering committee representative with the following throughout the process of developing the forthcoming strategic plan.

1. SBISD will provide all associated materials in a timely manner.

2. SBISD will design and facilitate a strategic planning process built upon multiple phases of community feedback as well as relevant performance data.

3. SBISD commits to providing committee members with multiple opportunities to provide insight and feedback. This insight will be foundational to the development of the strategic plan.

4. SBISD commits to providing committee members with transparent two-way communication as questions or needs arise.

Please note that committee members will not be responsible for writing the strategic plan as document creation will be the responsibility of SBISD staff members. The final draft of the forthcoming strategic plan is expected in mid-February. In accordance with requirements associated with Texas House Bill 1842, the plan must be posted publicly for 30 days prior to final votes by the SBISD District Improvement Team and the SBISD Board of Trustees.
