Look. Listen. Learn.

During his first 90 days as SBISD’s Superintendent of Schools, Dr. Scott Muri embarked on an intensive listening tour. He gathered feedback from a diverse array of district stakeholders through one-on-one meetings, small focus-group sessions and a public online survey.

The tour and survey results provided Dr. Muri with a comprehensive understanding of Spring Branch ISD’s strengths and opportunities.

Dr. Muri presented his findings to the SBISD Board of Trustees on October 13, 2015. View the presentation at the link below.
