Re: Continuing Disclosure Undertakings of the Board of Education of Davis School District, Utah

EMMA:

In accordance with the provisions of paragraph (b)(5)(i)(A) of Rule 15c2-12 promulgated by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended (the "Rule"), the Board of Education (the "Board") of Davis School District, Utah (the "District") files the comprehensive annual financial report of the District for Fiscal Year Ended June 30, 2016 (the "2016 CAFR") and the Supplemental Continuing Disclosure Memorandum of the Board dated on or before January 31, 2017 (the "2017 SCDM"). This letter, the 2016 CAFR, and the 2017 SCDM constitute the annual financial information and operating data concerning the District to be filed in compliance with the Board's obligation under certain disclosure agreements entered into in connection with the offering of the following securities (identified by CUSIP® number) described in the following Official Statements:

GENERAL

Davis School District, Utah

The Davis School District, Utah (the "District") was established in 1911 and shares common boundaries with Davis County, Utah (the "County"). The County, incorporated in 1853, covers an area of approximately 304 (land area) square miles and is located in the north central portion of the State of Utah (the "State"). See the location map above. The southern boundary of the County adjoins the northern boundary of Salt Lake City, Utah and Salt Lake County. The northern boundary is approximately eight miles south of Ogden City, Utah. The County had 336,043 residents according to the 2015 population estimate by the U.S. Census Bureau, ranking the County as the third largest populated county in the State (out of 29 counties). See location map above.

The Board of Education of the District (the "Board") main administration building is located in Farmington, Utah and the Board maintains a Web site at http://www.davis.k12.ut.us. The information available at this Web site is provided by the Board in the course of its normal operations and has not been reviewed for accuracy or completeness. Such information is not a part of this Supplemental Continuing Disclosure Memorandum

When used herein the terms "Fiscal Year[s] 20YY" or "Fiscal Year[s] End[ed][ing] June 30, 20YY" shall refer to the year ended or ending on June 30 of the year indicated and beginning on July 1 of the preceding calendar year.

Contact Person For The District

As of the date of this Supplemental Continuing Disclosure Memorandum, the chief contact person for the Board is:

Craig A. Carter, Business Administrator, ccarter@dsdmail.net

Davis School District Administration Center PO Box 588 (45 E State St) Farmington UT 84025–0588 801.402.5256 | f 801.402.5249

The Issues

The Board is providing continuing disclosure on the following 14 general obligation bond issues in chronological order of issuance (base CUSIP® 239019).

[®] CUSIP is a registered trademark of the American Bankers Association. CUSIP Global Services is managed on behalf of the American Bankers Association by S&P Capital IQ.

\$24,905,000

Board of Education of Davis School District, Utah General Obligation Refunding Bonds (Utah School Bond Guaranty Program), Series 2005B

Bonds dated and issued on: April 13, 2005

CUSIP® numbers on the 2005B Bonds are provided below.

Background Information. The \$24,905,000, General Obligation Refunding Bonds (Utah School Bond Guaranty Program), Series 2005B, dated April 13, 2005 (the "2005B Bonds"), were awarded pursuant to a negotiated sale on March 15, 2005 to George K. Baum & Company, Kansas City, Missouri and Wells Fargo Brokerage Services, LLC, San Francisco, California, at a "true interest rate" of 3.94%. Zions Public Finance, Inc., Salt Lake City, Utah, acted as Municipal Advisor.

The 2005B Bonds are fully-registered bonds in book-entry only form, registered in the name of Cede & Co., as nominee for The Depository Trust Company, New York, New York ("DTC"). DTC is currently acting as securities depository for the 2005B Bonds. Principal of and interest on the 2005B Bonds (interest payable June 1 and December 1 of each year) are payable by U.S. Bank National Association ("U.S. Bank"), as Paying Agent, to the registered owners thereof, currently DTC.

No Redemption Provisions. The 2005B Bonds are not subject to redemption prior to maturity.

Current Maturity Schedule.

Current principal outstanding: \$3,685,000 Original issue amount: \$24,905,000

Dated: April 13, 2005 Due: June 1, as shown below

Due June 1	CUSIP® 239019	Principal Amount	Original Interest Rate
2017	VV1	\$3,685,000	5.00%

Security for all General Obligation Bonds. The 2005B Bonds (and all general obligation bonds issued by the Board as described herein) are general obligations of the Board, payable from the proceeds of ad valorem taxes to be levied, without limitation as to rate or amount, on all of the taxable property in the District, fully sufficient to pay the Board's general obligation bonds as to both principal and interest.

Credit Enhancement. State of Utah Guaranty. Payment of the principal of and interest on the 2005B Bonds when due is also guaranteed by the full faith and credit and unlimited ad valorem taxing power of the State of Utah (the "State") under the provisions of the Utah School Bond Guaranty Act (the "Guaranty Act"). The Guaranty Act establishes the Utah School Bond Default Avoidance Program (the "Program" or the "Utah School Bond Guaranty Program").

\$55,000,000

Board of Education of Davis School District, Utah General Obligation School Building Bonds (Utah School Bond Guaranty Program), Series 2007

Bonds dated and issued on: August 1, 2007

CUSIP® numbers on the 2007 Bonds are provided below.

Background Information. The \$55,000,000, General Obligation School Building Bonds (Utah School Bond Guaranty Program), Series 2007, dated August 1, 2007 (the "2007 Bonds"), were awarded pursuant to competitive bidding received by means of the Parity® electronic bid submission system on July 10, 2007 to Piper Jaffray, Minneapolis, Minnesota, at a "true interest rate" of 4.37%. Zions Public Finance, Inc., Salt Lake City, Utah, acted as Municipal Advisor.

The 2007 Bonds were issued by the Board as fully-registered bonds in book-entry only form, registered in the name of Cede & Co., as nominee for DTC. DTC is currently acting as securities depository for the 2007 Bonds. Principal of and interest on the 2007 Bonds (interest payable June 1 and December 1 of each year) are payable by U.S. Bank, as Paying Agent, to the registered owners thereof, currently DTC.

Redemption Provisions. The 2007 Bonds maturing on or prior to June 1, 2017 are not subject to optional redemption prior to maturity. The 2007 Bonds maturing on and after June 1, 2018 were refunded by the 2015 C Bonds.

Current Maturity Schedule.

Current principal outstanding: \$5,100,000 Original issue amount: \$55,000,000

Dated: August 1, 2007 Due: June 1, as shown below

Due June 1	CUSIP® 239019	Principal Amount	Original Interest Rate	Due June 1	CUSIP® 239019	Principal Amount	Original Interest Rate
2017	XQ0	\$5,100,000	4.50%	2020	XT4	\$5,825,000	4.75%
2018	XR8	5,325,000	4.50	2021	XU1	6,100,000	4.75
2019	XS6	5,550,000	5.00	2022	XV9	6,400,000	4.75

(Strikethrough) These maturities were refunded by the 2015C Bonds (as defined herein). The Board issued \$53,010,000, General Obligation Refunding Bonds (Utah School Bond Guaranty Program), Series 2015C (the "2015C Bonds") through a direct purchase. Proceeds from the 2015C Bonds refunded portions of the 2007 Bonds. The 2015C Bonds were not rated (no rating applied for); are general obligation bonds of the Board; and are additionally guaranteed by the full faith and credit and unlimited ad valorem taxing power of the State under the provisions of the Guaranty Act.

Security; Credit Enhancement; State of Utah Guaranty. The bonds are general obligations of the Board, payable from the proceeds of ad valorem taxes to be levied, without limitation as to rate or amount, on all of the taxable property in the District, fully sufficient to pay the as to both principal and interest. Payment of the principal of and interest on the bonds is additionally guaranteed by the full faith and credit and unlimited ad valorem taxing power of the State under the provisions of the Guaranty Act.

\$64,000,000

Board of Education of Davis School District, Utah General Obligation School Building Bonds (Utah School Bond Guaranty Program), Series 2008

Bonds dated and issued on: May 7, 2008

CUSIP® numbers on the 2008 Bonds are provided below.

Background Information. The \$64,000,000, General Obligation School Building Bonds (Utah School Bond Guaranty Program), Series 2008, dated May 7, 2008 (the "2008 Bonds"), were awarded pursuant to competitive bidding received by means of the Parity® electronic bid submission system on April 22, 2008 to Piper Jaffray, Minneapolis, Minnesota, at a "true interest rate" of 4.24%. Zions Public Finance, Inc., Salt Lake City, Utah, acted as Municipal Advisor.

The 2008 Bonds are fully-registered bonds in book-entry only form, registered in the name of Cede & Co., as nominee for DTC. DTC is currently acting as securities depository for the 2008 Bonds. Principal of and interest on the 2008 Bonds (interest payable June 1 and December 1 of each year) are payable by U.S. Bank, as Paying Agent, to the registered owners thereof, currently DTC.

Redemption Provisions. The 2008 Bonds maturing on or prior to June 1, 2017 are not subject to optional redemption prior to maturity. The 2008 Bonds maturing on and after June 1, 2018 were refunded by the 2015B Bonds (as defined herein).

Current Maturity Schedule.

Current principal outstanding: \$2,800,000 Original issue amount: \$64,000,000

Dated: May 7, 2008 Due: June 1, as shown below

Due June 1	CUSIP® 239019	Principal Amount	Original Interest Rate	Due June 1	CUSIP® 239019	Principal Amount	Original Interest Rate
2017	YF3	\$2,800,000	5.00%	2023	YM8	\$3,625,000	4.50 %

\$68,500,000

Board of Education of Davis School District, Utah General Obligation School Building Bonds (Utah School Bond Guaranty Program), Series 2010A (Federally Taxable–Issuer Subsidy–Build America Bonds)

Bonds dated and issued on: March 9, 2010

CUSIP® numbers on the 2010 Bonds are provided below.

Background Information. The \$68,500,000, General Obligation School Building Bonds (Utah School Bond Guaranty Program), Series 2010A (Federally Taxable–Issuer Subsidy–Build America Bonds), dated March 9, 2010 (the "2010 Bonds"), were awarded pursuant to competitive bidding received by means of the Parity® electronic bid submission system on February 23, 2010 to Robert W. Baird & Co., Incorporated, Milwaukee, Wisconsin, as Senior Manager; with Morgan Keegan & Company, Inc., Memphis, Tennessee; CL King & Associates, Albany, New York; Fidelity Capital Markets Services, Boston, Massachusetts; Coastal Securities, Houston, Texas; Charles Schwab & Company, San Francisco, California; Davenport & Company LLC, Richmond, Virginia; Loop Capital Markets LLC, Chicago, Illinois; William Blair & Company; Chicago, Illinois; Edward Jones, St. Louis, Missouri; Kildare Capital, Philadelphia, Pennsylvania; Vining Sparks IBG, Memphis, Tennessee; SAMCO Capital Markets Inc., Dallas, Texas; Wedbush Morgan Securities, Inc., Los Angeles, California; NW Capital Markets Inc., Jersey City, New Jersey; Crews & Associates, Inc., Little Rock, Arkansas; Cronin & Co., Inc., Minneapolis, Minnesota; and Ramirez & Co., New York, New York; as Co–Managers; at a "true interest rate" of 3.30% (assuming interest rate subsidy payments). Zions Public Finance, Inc., Salt Lake City, Utah, acted as Municipal Advisor.

The 2010 Bonds are fully-registered bonds in book-entry only form, registered in the name of Cede & Co., as nominee for DTC. DTC is currently acting as securities depository for the 2010 Bonds. Principal of and interest on the 2010 Bonds (interest payable June 1 and December 1 of each year) are payable by U.S. Bank, as Paying Agent, to the registered owners thereof, currently DTC.

Optional Redemption. The 2010 Bonds maturing on and after June 1, 2020 are subject to redemption prior to maturity in whole or in part at the option of the Board on December 1, 2019 or on any date thereafter, from such maturities or parts thereof as shall be selected by the Board at the redemption price of 100% of the principal amount to be redeemed plus accrued interest (if any) thereon to the redemption date.

Extraordinary Event Optional Redemption. The 2010 Bonds will be subject to extraordinary redemption prior to their maturity at the option of the Board, in whole or in part, upon the occurrence of an Extraordinary Event, at a redemption price equal to 100% of the principal amount of the 2010 Bonds to be redeemed, plus accrued interest thereon to the redemption date. For purposes of these provisions, "Extraordinary Event" means a material adverse change to Section 54AA or 6431 of the Internal Revenue Code of 1986, as amended (the "Code") (as such Sections were added by Section 1531 of the American Recovery and Reinvestment Act of 2009, pertaining to "Build America Bonds") pursuant to which the Board's 35% cash subsidy payment from the United States Treasury is reduced or eliminated.

\$13,000,000 4.65% Term Bond due June 1, 2023 (CUSIP® 239019 ZY1)

Mandatory Sinking Fund Redemption. The 2010 Bonds maturing on June 1, 2023 are subject to mandatory sinking fund redemption at a redemption price equal to 100% of the principal amount thereof, plus accrued interest thereon to the date of redemption, but without premium, on the dates and in the principal amounts as follows:

Mandatory Sinking Fund	Sinking Fund
Redemption Date	Requirements
June 1, 2021	\$ 4,205,000 4,330,000
Total	\$13,000,000

Build America Bonds. General Description. In February 2009, as part of the Recovery Act, Congress added Sections 54AA and 6431 to the Code, which permit state or local governments to obtain certain tax advantages when issuing taxable obligations that meet certain requirements of the Code and the related Treasury regulations. Such bonds are referred to as Build America Bonds. A Build America Bond is a qualified bond under Section 54AA(g) of the Code (a "Qualified Build America Bond") if it meets certain requirements of the Code and the related Treasury Regulations and the issuer has made an irrevocable election to have the special rule for qualified bonds apply. Interest on Qualified Build America Bonds is not excluded from gross income for purposes of the federal income tax, and owners of Qualified Build America Bonds will not receive any tax credits as a result of ownership of such Qualified Build America Bonds when an issuer has elected to receive the Interest Subsidy Payments, as defined below.

Interest Subsidy Payments. Under Section 6431 of the Code, an issuer of a Qualified Build America Bond may apply to receive payments (the "Interest Subsidy Payments" or "Interest Subsidy Payment") directly from the Secretary of the U.S. Treasury (the "Secretary"). The amount of an Interest Subsidy Payment is set in Section 6431 of the Code at 35% of the corresponding interest payable on the related Qualified Build America Bond. To receive an Interest Subsidy Payment, under currently existing procedures, the issuer will have to file a tax return (now designated as Form 8038–CP) between 90 and 45 days prior to the corresponding bond interest payment date. The issuer should expect to receive the Interest Subsidy Payment contemporaneously with the interest payment date with respect to the Qualified Build

America Bond. Depending on the timing of the filing and other factors, the Interest Subsidy Payment may be received before or after the corresponding interest payment date.

The 2010 Bonds as Qualified Build America Bonds. The Board will elect to treat the 2010 Bonds as Qualified Build America Bonds. As a result of this election, interest on the 2010 Bonds will be includable in gross income of the holders thereof for federal income tax purposes and the holders of the 2010 Bonds will not be entitled to any tax credits as a result of either ownership of the 2010 Bonds or receipt of any interest payments on the 2010 Bonds. Holders of the 2010 Bonds should consult their tax advisors with respect to the inclusion of interest on the 2010 Bonds in gross income for federal income tax purposes.

The Board intends to apply for Interest Subsidy Payments from the Secretary under the "Build America Program" pursuant to Section 6431 of the Code.

No assurances are provided that the Board will receive Interest Subsidy Payments. The amount of any Interest Subsidy Payment is subject to legislative changes by Congress. Interest Subsidy Payments will only be paid if the 2010 Bonds are Qualified Build America Bonds. For the 2010 Bonds to be and remain Qualified Build America Bonds, the Board must comply with certain covenants and the Board must establish certain facts and expectations with respect to the 2010 Bonds, the use and investment of proceeds thereof and the use of property financed thereby. There are currently no procedures for requesting an Interest Subsidy Payment after the 45th day prior to an interest payment date; therefore, if the Board fails to file the necessary tax return in a timely fashion, it is possible that the Board will never receive such Interest Subsidy Payments. Also, Interest Subsidy Payments are subject to offset against certain amounts that may, for unrelated reasons, be owed by the Board to an agency of the United States of America.

Security; Credit Enhancement; State of Utah Guaranty. The bonds are general obligations of the Board, payable from the proceeds of ad valorem taxes to be levied, without limitation as to rate or amount, on all of the taxable property in the District, fully sufficient to pay the as to both principal and interest. Payment of the principal of and interest on the bonds is additionally guaranteed by the full faith and credit and unlimited ad valorem taxing power of the State under the provisions of the Guaranty Act.

6.

\$45,000,000

Board of Education of Davis School District, Utah General Obligation School Building Bonds (Utah School Bond Guaranty Program), Series 2011A

Security; Credit Enhancement; State of Utah Guaranty. The bonds are general obligations of the Board, payable from the proceeds of ad valorem taxes to be levied, without limitation as to rate or amount, on all of the taxable property in the District, fully sufficient to pay the as to both principal and interest. Payment of the principal of and interest on the bonds is additionally guaranteed by the full faith and credit and unlimited ad valorem taxing power of the State under the provisions of the Guaranty Act.

14.

\$68,500,000 Board of Education of Davis School District, Utah General Obligation Bonds (Utah School Bond Guaranty Program), Series 2016

Bonds dated and issued on March 3, 2016

CUSIP® numbers on the 2016 Bonds are provided below.

Background Information. The \$68,500,000, General Obligation Bonds (Utah School Bond Guaranty Program), Series 2016, dated March 3, 2016 (the "2016 Bonds"), were awarded pursuant to competitive bidding received by means of the Parity® electronic bid submission system on February 18, 2016 to Raymond James & Associates, St. Petersburg, Florida, at a "true interest rate" of 2.63%. Zions Public Finance, Inc., Salt Lake City, Utah, acted as Municipal Advisor.

The 2016 Bonds are fully-registered bonds in book-entry only form, registered in the name of Cede & Co., as nominee for DTC. DTC is currently acting as securities depository for the 2016 Bonds. Principal of and interest on the 2016 Bonds (interest payable June 1 and December 1 of each year) are payable by U.S. Bank, as Paying Agent, to the registered owners thereof, currently DTC.

Optional Redemption. The 2016 Bonds maturing on and after June 1, 2026 are subject to redemption prior to maturity in whole or in part at the option of the Board on December 1, 2025 or on any date thereafter, from such maturities or parts thereof as shall be selected by the Board at the redemption price of 100% of the principal amount of the 2016 Bonds to be redeemed plus accrued interest (if any) thereon to the redemption date.

Current Maturity Schedule.

Principal and interest has been refunded by the 2015B Bonds.
 Principal and interest has been refunded by the 2015C Bonds.
 Does not reflect an originally 35% federal interest rate subsidy on the 2010A Bonds.

Additional Information. For the schedule of annual debt service requirement of the District as of Fiscal Year 2016 for the Fiscal Year 2017 through Fiscal Year 2035 time period see "COMPREHENSIVE ANNUAL FINANCIAL REPORT OF DAVIS SCHOOL DISTRICT, UTAH FOR FISCAL YEAR 2016–Statistical Section–Schedule of Annual Debt Service Requirements Years Ending June 30, 2017 to 2039" (CAFR pages 101 and 102).

Future Issuance Of Debt; Historical Tax Anticipation Note Borrowing

Future Issuance Of Debt. The Board has approximately \$267 million authorized unissued general obligation bonds from a 2015 bond election. As of the date of this Supplement Continuing Disclosure Memorandum, the Board may issue additional authorized bonds from the 2015 bond election in Fiscal Years 2017 through 2021.

Historical Tax Anticipation Note Borrowing. The Board issued \$20 million of tax anticipation notes in Fiscal Year 2012. Over the past five Fiscal Years (Fiscal Years 2013 through 2017) the Board has not issued tax anticipation notes.

Overlapping And Underlying General Obligation Debt

Total overlapping and	underlying general	obligation debt			\$ <u>253,580,640</u>		
Total <i>overlapping</i> general obligation debt (excluding the State) (6)							
Total direct and overl) (6)	\$ <u>482,502,805</u>					

This table excludes any additional principal amounts attributable to unamortized original issue bond premium.

(1) Preliminary; subject to change. Taxable value used in this table *excludes* the taxable value used to determine uniform fees on tangible personal property.

- (3) All or portions of these governmental entities outstanding general obligation debt are supported by user fee revenues from water or sewer. The County's portion of overlapping general obligation debt has been reduced to the extent that such general obligation debt is supported by "user fee revenues."
- (4) A portion of this entity is located in Weber County.
- (5) South Davis Recreation District members are the cities of: Bountiful, Centerville, North Salt Lake, Woods Cross, and West Bountiful.
- (6) The State's general obligation debt is not included in overlapping debt because the State currently levies no property tax for payment of general obligation bonds.

(Source: Zions Public Finance, Inc.)

Additional Information. For the overlapping and underlying general obligation as presented by the District as of Fiscal Year 2016 see "COMPREHENSIVE ANNUAL FINANCIAL REPORT OF DAVIS SCHOOL DISTRICT, UTAH FOR FISCAL YEAR 2016–Statistical Section–Overlapping and Underlying General Obligation Debt June 30, 2016" (CAFR page 99).

⁽²⁾ Weber Basin Water Conservancy District ("WBWCD") overlaps into the County and almost covers the entire County; for purposes of this table WBWCD will be considered as overlapping debt. WBWCD covers all of Morgan County, almost all of the County and Weber County, and portions of Box Elder and Summit Counties. Principal and interest on WBWCD's outstanding general obligation bonds are limited ad valorem tax bonds. Certain portions of the principal of and interest on WBWCD's general obligation bonds are paid from sales of water.

Debt Ratios

The following table sets forth the ratios of general obligation debt (excluding any additional principal amounts attributable to unamortized original issue bond premium) that is expected to be paid from taxes levied specifically for such debt and not from other revenues over the taxable value of property within the District, the estimated market value of such property and the population of the District. The State's general obligation debt is not included in the debt ratios because the State currently levies no property tax for payment of general obligation debt.

	To 2016	To 2016	To 2015
	Estimated	Estimated	Population
	Taxable	Market	Estimate Per
	<u>Value (1)</u>	<u>Value (2)</u>	<u>Capita (3)</u>
Direct general obligation debt	2.26%	1.46%	\$1,369
Direct and overlapping general obligation debt	2.37	1.54	\$1,436

⁽¹⁾ Based on an estimated 2016 Taxable Value of \$20,391,317,626, which value *excludes* the taxable value used to determine uniform fees on tangible personal property.

(Source: Zions Public Finance, Inc.)

Additional Information. For a 10-year history of various debt ratios calculated by the District see "COMPREHENSIVE ANNUAL FINANCIAL REPORT OF DAVIS SCHOOL DISTRICT, UTAH FOR FISCAL YEAR 2016–Statistical Section–Ratios of Outstanding Debt Last Ten Fiscal Years December 31, 2007 through 2016" (CAFR page 98).

General Obligation Legal Debt Limit And Additional Debt Incurring Capacity

The general obligation indebtedness of the Board is limited by State law to 4% of the fair market value of taxable property in the District. The legal debt limit and additional debt incurring capacity of the Board are based on the estimated fair market value for 2016 and the calculated valuation value from 2015 uniform fees, and are calculated as follows:

Estimated 2016 "Fair Market Value"	
Estimated 2016 "Fair Market Value for Debt Incurring Capacity"	\$ <u>32,188,967,974</u>
"Fair Market Value for Debt Incurring Capacity" times 4% (the "Debt Limit")	
Estimated additional debt incurring capacity	\$ <u>811,817,274</u>

^{(1) 2016} final information is not available. For debt incurring capacity only, in computing the fair market value of taxable property in the District, the value of all motor vehicles and state–assessed commercial vehicles (which value is determined by dividing the uniform fee revenue by 1.5%) will be included as a part of the fair market value of the taxable property in the District.

(Source: Zions Public Finance, Inc.)

⁽²⁾ Based on an estimated 2016 Market Value of \$31,414,458,159, which value *excludes* the taxable value used to determine uniform fees on tangible personal property.

⁽³⁾ Based on the 2015 population estimate of 336,043 from the U.S. Census Bureau.

⁽²⁾ For legal debt limit purposes, the outstanding general obligation debt as shown above is increased by the premium associated with debt issued that is reported in the long-term debt notes of the Board's financial statements. Thus, for accounting purposes, the total unamortized bond premium was \$15,731,445 (as of June 30, 2016), and together with current outstanding debt of \$460,010,000, results in total outstanding debt of \$475,741,445.

Additional Information. For a 10-year Fiscal Year history of the Board's general obligation legal debt limit and debt capacity see "COMPREHENSIVE ANNUAL FINANCIAL REPORT OF DAVIS SCHOOL DISTRICT, UTAH FOR FISCAL YEAR 2016—Statistical Section—General Obligation Legal Debt Limit and Debt Capacity Last Ten Years June 30, 2007 through 2016" (CAFR page 100).

No Defaulted Obligations

The Board has never failed to pay principal of and interest on its financial obligations when due.

FINANCIAL INFORMATION REGARDING DAVIS SCHOOL DISTRICT, UTAH

Five-Year Financial Summaries

The summaries contained herein were extracted from the District's basic financial statements for Fiscal Years 2012 through 2016. The summaries itself have not been audited.

⁽¹⁾ Maximum tax rate where applicable under current State law.

(Source: From records of the Utah State Tax Commission, compiled by Zions Public Finance, Inc.)

⁽²⁾ Set by law for the District's portion of the State Minimum School Program.

⁽³⁾ General maintenance and operation revenue. In the early 1980's, District residents approved a Voted Leeway Program of not to exceed a .000600 tax rate; in 1993, District residents approved an additional .000400 tax rate to the Voted Leeway Program; and in 1997, District residents approved an additional .000800 tax rate to the Voted Leeway Program (which results in a maximum tax rate of .001800).

⁽⁴⁾ Construction remodeling projects and purchase of school sites/equipment, etc.

⁽⁵⁾ This maximum limitation is not applicable to levies made to provide for payment of the principal of and interest on general obligation bonds authorized by vote of school district electors.

⁽⁶⁾ A "judgment levy" is levied for the purpose of collecting additional revenues. The Board has the legal right to levy a "judgment levy" in the succeeding tax year to make up for any tax revenue shortfall due to tax or revaluation "judgment" circumstances that the Board had no control over.

⁽¹⁾ These tax rates represent a taxing district within the city or town with the highest combined total tax rates of all overlapping taxing districts.

(Source: Reports from the Utah State Tax Commission, compiled by Zions Public Finance, Inc.)

Additional Information. For the District's presentation of property tax rates based on a Calendar Year see "COMPREHENSIVE ANNUAL FINANCIAL REPORT OF DAVIS SCHOOL DISTRICT, UTAH FOR FISCAL YEAR 2016—Statistical Section—Direct and Overlapping Property Tax Rates Last Ten Tax Years—December 31, 2006 through December 31, 2015" (CAFR page 95).

⁽²⁾ These tax rates represent a taxing district within the unincorporated municipalities within the County with the highest combined total tax rates of all overlapping taxing districts.

Taxable, Fair Market And Market Value Of Property

		% Change		% Change
	Taxable	Over	Fair Market/	Over
<u>Year</u>	<u>Value (1)</u>	Prior Year	Market Value (2)	Prior Year
2016 (3)	\$20,391,317,626	8.1%	\$31,414,458,159 (4)	8.8%
2015	18,870,014,310	4.8	28,876,517,167	4.4
2014	18,004,477,904	9.4	27,667,309,912	10.1
2013	16,456,475,562	4.2	25,133,286,793	4.4
2012	15,795,391,788	0.8	24,070,679,556	0.6

⁽¹⁾ Taxable valuation includes redevelopment agency valuation. The estimated redevelopment agency valuation for Calendar Year 2016 was approximately \$965 million; Calendar Year 2015 was approximately \$921.7 million; Calendar Year 2014 was approximately \$816.5 million; Calendar Year 2013 was approximately \$659.7 million; and Calendar Year 2012 was approximately \$555.6 million.

(Source: Information taken from Utah State Tax Commission reports.)

See "Historical Summaries Of Taxable Value Of Property" below.

(The remainder of this page has been intentionally left blank.)

⁽²⁾ Estimated fair market values were calculated by dividing the taxable value of primary residential property by 55%, which eliminates the 45% exemption on primary residential property granted under the Property Tax Act.

⁽³⁾ Preliminary; subject to change.

Additional Information. For the District's presentation of a 10-year history of property tax levies and collections see "COMPREHENSIVE ANNUAL FINANCIAL REPORT OF DAVIS SCHOOL DISTRICT, UTAH FOR FISCAL YEAR 2016–Statistical Section–Property Tax levies and Collections Last Ten Tax Years December 31, 2006 through 2015" (CAFR page 97).

Some Of The Largest Taxpayers

Information for Fiscal Year 2017 (Calendar Year 2016) is currently not available. The District's single largest property tax payer in Fiscal Year 2016 (Calendar Year 2015) was Chevron U.S.A., a petroleum refinery located in North Salt Lake City, Utah. The company comprised approximately 2.4% of the District's total taxable valuation for Calendar Year 2015. The top 10 largest property tax payers comprised approximately 10.5% of the District total taxable valuation for Calendar Year 2015.

For a list of the District's 10 largest property tax payers for Calendar Year 2015 and Calendar Year 2006 see "COMPREHENSIVE ANNUAL FINANCIAL REPORT OF DAVIS SCHOOL DISTRICT, UTAH FOR FISCAL YEAR 2016–Statistical Section–Principal Property Tax Payers Current Year and Nine Years Ago December 31, 2015 and 2006" (CAFR page 96).

⁽²⁾ Treasurer's Relief includes abatements. These Treasurer's Relief items are levied against the property, but are never collected and paid to the entity.

⁽³⁾ Delinquent Collections include interest; sales of real and personal property; and miscellaneous delinquent collections.

⁽⁴⁾ In addition to the Total Collections indicated above, the District also collected Uniform Fees (fees—in—lieu payments) for tax year 2015 of \$11,617,647; for tax year 2014 of \$10,758,340; for tax year 2013 of \$10,824,339; for tax year 2012 of \$10,787,452; and for tax year 2011 of \$10,956,944; from tax equivalent property associated with motor vehicles, watercraft, recreational vehicles, and all other tangible personal property required to be registered with the State.

COMPREHENSIVE ANNUAL FINANCIAL REPORT OF DAVIS SCHOOL DISTRICT, UTAH FOR FISCAL YEAR 2016

Included with this supplement is the District's comprehensive annual financial report for Fiscal Year 2016.

Additionally, the District's present and historical comprehensive annual financial reports may be found on the State of Utah, State Auditor's website at:

Section 1

THIS PAGE INTENTIONALLY LEFT BLANK

November 15, 2016

To President Eckersley, Members of the Board of Education, and the Citizens of the Davis School District:

State law requires that school districts publish within five months of the close of each fiscal year a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America (GAAP) and audited by a firm of licensed certified public accountants in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller of the United States. Pursuant to that requirement, we hereby issue the comprehensive annual financial report (CAFR) of the Davis School District (District) for the fiscal year ended June 30, 2016.

Designed to meet the needs of a broad spectrum of readers of financial statements, this CAFR is divided into three major sections:

- Introductory section Introduces the reader to the report and includes this transmittal letter, a map of School Board precinct boundaries, the list of elected and appointed officials, the organization chart of the District, certificate of excellence in financial reporting, and the District's model for public education.
- Financial section Consists of the independent auditor's report, management's discussion and analysis, the basic financial statements, and combining and individual fund statements and schedules.
- Statistical section Contains substantial financial information, but presents tables that differ from financial statements in that they present non-accounting data, cover several years, and are designed to reflect social and economic data and financial and fiscal trends as well as the fiscal capacity of the District.

Internal controls. This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Independent audits. Squire & Company, PC, a firm of licensed certified public accountants, has audited the District's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2016 are free from material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion, and that the District's financial statements for the fiscal year ended June 30, 2016 are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the District was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. The District was also subject to and underwent a state compliance audit, the purpose of which is to examine general and major state program compliance with applicable state laws and regulations. These reports are available in the District's separately issued Single Audit report.

Management's discussion and analysis. GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of management's discussion and analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in connection with it. The District's MD&A can be found immediately following the report of the independent auditors.

District profile. The District is located in the north central part of the state of Utah. The boundaries of the District are contiguous with those of Davis County, Utah. Davis County is largely an urban county with high concentrations of residential development. The District is a legally separate and fiscally independent entity enjoying all rights and privileges accorded political subdivisions in the state of Utah. Policymaking and legislative authority are vested in the Board of Education consisting of seven members. The Board is responsible for, among other things, developing policy, adopting the budget, levying taxes, incurring bonded debt, supervising committees, and hiring both the superintendent and business administrator. The superintendent and business administrator are responsible for carrying out the policies of the Board of Education and oversee the day-to-day operations of the District. The Board is elected on a non-partisan basis. Board members serve four-year staggered terms with no more than four board members elected every two years.

The major purpose of the District is to provide public education for those who reside within the boundaries of the District. To accomplish this purpose, as of fall 2016, the District operates eight traditional high schools, sixteen junior high schools, and 62 elementary schools. The District also offers three special purpose programs: Pioneer Adult Rehabilitation Center (a community rehabilitation program serving persons with disabilities), the Family Enrichment Center (providing preschool and Head Start programs), and Farmington Bay (a youth correctional facility). In addition, the District operates two alternative schools, Mountain High and the Renaissance Academy. The District serves 71,021 students based on the October 1, 2016 enrollment report.

The District also acts as the fiscal agent for the Davis School District Foundation (Foundation). The Foundation is a separate legal 501(c)(3) entity, and is reported as a discretely presented component unit in the District's financial statements. The Foundation is a not-for-profit entity that solicits financial support of public education through local school communities and community business partners.

Budgetary control. The District adopts an annual budget for its funds. This budget acts as the financial operating plan for the entire year. Revisions may be implemented during the year authorizing a larger appropriation of available resources through a public hearing and approval from the Board.

All annual appropriations lapse at fiscal year end with the exception of those reported as a commitment of fund balance resources. During May of each year, the District superintendent submits to the Board a proposed operating budget for the next fiscal year commencing July 1. This budget includes proposed expenditures and the means of financing them. Included also is a final budget for the current year ending June 30.

If the District does not exceed the certified tax rate, a public hearing is held prior to June 22 at which time the budget is legally adopted by resolution of the Board after obtaining taxpayer input. If the District exceeds the certified tax rate the budget is adopted in August after required advertisement of proposed tax rate increases and a public hearing. The level by which expenditures may not exceed appropriations has been interpreted by the State Superintendent of Public Instruction to be the total budgeted expenditures of a given fund.

Economic condition and outlook. The economic outlook of the District is tied to and dependent on the economic condition and outlook of the state of Utah since state aid provides 70% of general fund revenues. Utah's economy maintained moderate growth over the last three years increasing funding for the weighted pupil unit by 2%, 2.5%, and 4% respectively. For 2016, the State increased per student funding by 3% and raised equalization funding by 8.3%. Current revenue projections for 2017 appear positive as well. The District projects student growth of over 1,000 in 2016-17 and approximately 500 in 2017-18 as well.

The District continues to monitor budgets and evaluate District programs. Every position that becomes vacant in the District is discussed by District administration to determine if it must be re-filled. For the 2016-17 school year, the Board left tax rates within the certified rate and funded new fiscal demands with increased State revenues and taxes on new growth.

The District's taxing authority rests with property taxes on residential and commercial property within the District. For 2016, the District's taxable property values increased 9.7%. This is compared to an increase of 3.4% in 2015. Local taxation accounts for only 20% of general fund revenues, and 29% of all governmental fund revenues.

Long-term financial planning. State revenue projections appear to be increasing for fiscal year 2017. These funds will be utilized to offset district expenditures for state retirement and health insurance as well as employee compensation increases. The District actively examines all revenue and expenditure categories and programs to identify budget reductions. The driving force is to meet the demands of an ever changing budget without significant impact to our students and classrooms.

Dealing with the challenges and demands of budgets is further complicated by the fact that the student population of the District and the state of Utah is continuing to grow. Based on information from Utah's Bureau of Vital Records, the District expects the kindergarten enrollment increase to accelerate because of a climb in the birth rate for Davis County. The District also expects net migration into the County to remain positive. The District projects an additional 2,500 students over the next five years measured from October 2016 to October 2021. The state 2017 fiscal year school finance program is designed to provide every Utah school district with a basic operation program of \$3,185 per weighted pupil unit (WPU). Current budget projections indicate a moderate increase in the value of the WPU for 2018.

In response to continued student growth, the District went to the taxpayers on November 3, 2015 for a \$298.0 million bonding authorization. The authorization passed with 61.6% approval, which provided for facilities for student growth into 2021.

Awards. The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2015. The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement for Excellence, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. *This is the thirty-third year that the District has received this prestigious award.* We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to GFOA.

Acknowledgments. The efficient and dedicated staff of the business department accomplished the preparation of this report on a timely basis. We would like to express appreciation to all members of the department who assisted in the preparation of this report. Special appreciation is expressed to the District's Finance Department, who did most of the work in preparation of this report. We would also like to thank the members of the Board of Education for their interest and support in conducting the financial affairs of the District in a responsible and progressive manner.

Respectfully submitted,

Dr. W. Bryan Bowles

Executive Director/CEO

VISION

Davis School District provides an environment where

LEARNING COMES FIRST!

Students: MASTER essential learning skills,

DEMONSTRATE civic responsibility,

PREPARE for post-secondary education and careers, and

ENGAGE in positive personal development.

Parents are INVESTED in their student's education.

Employees RECOGNIZE the value of their individual contributions and COMMIT to excellence.

The community SUPPORTS the educational process.

Our efforts are guided by the following values and beliefs:

STUDENTS:

- have a shared responsibility for their own learning;
- have individual learning styles, needs, and gifts; education is most successful when these attributes are respected and utilized;
- must be prepared to embrace new opportunities and challenges in order to successfully transition from school to post secondary education and/or careers;
- school readiness is a critical component of school success.

PARENTS:

- are a student's first teacher;
- have a shared responsibility for their student's learning;
- must be empowered by schools to prepare for and support their student's learning;
- have the right to be involved and informed about school policies and their student's progress.

EMPLOYEES:

- Every employee is an educator and has shared responsibility for student learning;
- Effective classroom teachers are critical and assume primary responsibility for student learning;
- Effective leadership is key to student learning;
- Collaboration is fundamental to successful outcomes;
- Advancing the capabilities of all employees is essential to an excellent educational system.

COMMUNITY:

- Learning is best served when collaboration occures among students, parents, school and district personnel, and communities;
- Communities benefit from a strong public education system;
- Well managed physical facilities are a community asset and must be specifically designed, constructed, and maintained to advance learning.

EDUCATION SYSTEM:

- Education enhances the quality of life and is the foundation for a strong and free society;
- Education is a dynamic process improved through a continuous cycle of assessment, reflection, and
- Educational resources must be managed effectively, transparently, and equitably;
- High standards and expectations must be maintained through a system of accountability.

Independent Auditor's Report

Board of Education Davis School District

Report on the Basic Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Davis School District (the District) as of and for the year ended June 30, 2016, and the related notes to the basic financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Basic Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Davis School District as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 11 to the financial statements, in 2015, the District adopted Government Accounting Standards Board Statement No. 68, Accounting and Financial Reporting for Pensions—An Amendment of GASB Statement No. 27 and Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date—An Amendment of GASB Statement No. 68. At the time of adoption, the District did not allocate its net pension asset, deferred outflows of resources related to pensions, net pension liability, or deferred inflows of resources related to pensions to its Enterprise Fund. The beginning net position has reported in the District's Enterprise Fund and government-wide financial statements have been restated to reflect the amounts allocated to the Enterprise Fund. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedules of the District's proportionate share of the net pension liability (asset) - Utah Retirement Systems, the schedules of District contributions - Utah Retirement Systems, and the related notes to the required supplementary information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the required supplementary information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The individual fund statements and schedules and the introductory and statistical sections, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The individual fund statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing

standards generally accepted in the United States of America. In our opinion, the individual fund statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 15, 2016 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters.

The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis

This section of Davis School District's (District) comprehensive annual financial report presents management's discussion and analysis of the District's financial performance during the year ended June 30, 2016. Please read it in conjunction with the transmittal letter found on pages 11 through 14 of this report and the District's financial statements, which follow this section.

Financial Highlights

- The District's total net position was \$121.0 million at the close of the most recent fiscal year, most of which is invested in capital assets.
- The District is dependent on revenues generated by property taxes. Property tax revenues increased by 7.1% in 2016 to \$167.2 million as a result of the combination of an increase in the taxable value of property and an increase in the state-mandated basic tax rate.
- During the year, expenses were \$28.8 million less than the \$576.7 million generated in taxes and other revenues for governmental activities.
- The District continued providing for its student growth by issuing \$68.5 million of new bonds. Of the \$68.5 million, \$37.5 was issued finishing the 2009 authorization (\$250.0 million) and \$31.0 million was issued from a new authorization passed by voters in November 2015 in the amount of \$298.0 million. New elementary schools in West Farmington (estimated cost of \$21.9 million) and West Kaysville (estimated cost of \$19.5 million) are anticipated to be complete for the 2016-2017 school year. The major projects funded in the 2015 bond authorization will be a high school in Farmington, a junior high school in West Layton, 2 new elementary schools and a rebuild of West Bountiful Elementary.
- As directed by the District's School Board, the District has increased its fund balance commitment to economic stabilization in the *General Fund*. At June 30, 2016, the District has committed \$20.0 million of the *General Fund* fund balance to economic stabilization. At June 30, 2016, the District has \$11.6 million of unassigned fund balances in the *General Fund*.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the District, with the difference being reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the net position of the District changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected property taxes and earned but unpaid employee benefits).

The government-wide financial statements can be found on pages 36 to 37 of this report.

The government-wide financial statements of the District are divided into three categories:

- Governmental activities. Most of the District's basic services are included here, such as instruction, various supporting services and interest on long-term liabilities. Property taxes and state and federal grants finance most of these activities.
- **Business-type activities.** The District charges fees to students and customers and receives specific grants from various local, state, and federal agencies to help cover the costs of certain services it provides. The Pioneer Adult Rehabilitation Center is included here.
- Component unit. The District includes one other entity in the report, the Davis School District Foundation. Although legally separate, this "component unit" is included because the District is the fiscal agent and is financially accountable for it, and its purpose is to solicit donations to support educational programs of the District.

Fund financial statements. A *fund* is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and proprietary funds.

• **Governmental funds.** *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the *General Fund*, the *Debt Service Fund*, and the *Capital Projects Fund*, each of which are considered to be major funds. Data from the other three governmental funds (*School Food Services Fund*, *Student Activities Fund*, and *Tax Increment Program Fund*) are combined into a single, aggregated presentation. Individual fund data for each of the governmental funds is provided in the form of *combining and individual fund statements and schedules* elsewhere in the report.

The District adopts an annual budget for its *General Fund*. A budgetary comparison statement has been provided for the *General Fund* to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 38 to 42 of this report.

• **Proprietary funds.** The District maintains two proprietary fund types. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses one internal service fund, which is included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for its enterprise fund and for the internal service fund. The basic proprietary fund financial statements can be found on pages 43 to 45 of this report.

Notes to the basic financial statements. The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 46 to 69 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the District's progress in funding its obligation to provide pension benefits to its employees. This required supplementary information can be found on pages 70 to 71 of this report.

Individual fund statements and schedules are presented immediately following the notes to the basic financial statements. Individual fund statements and schedules can be found on pages 73 to 86 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$121.0 million at the close of the most recent fiscal year.

DAVIS SCHOOL DISTRICT'S Net Position June 30, 2016 and 2015

(in millions of dollars)

	Govern	ımental	Busines	ss-type			Total
	Activities		Activities		Total		Change
	2016	2015	2016	2015	2016	2015	2016-2015
Current and other assets Capital	\$ 391.5	\$ 340.0	\$ 7.3	\$ 8.1	\$ 398.8	\$ 348.1	\$ 50.7
assets	611.9	579.7	1.9	2.0	613.8	581.7	32.1
Total assets	1,003.4	919.7	9.2	10.1	1,012.6	929.8	82.8
Deferred outflows of resources	96.8	30.0	0.5	0.1	97.3	30.1	67.2
Current and other liabilities	81.4	63.8	0.1	0.5	81.5	64.3	17.2
Long-term liabilities outstanding	726.5	635.5	1.3	1.0	727.8	636.5	91.3
Total liabilities	807.9	699.3	1.4	1.5	809.3	700.8	108.5
Deferred inflows of resources	179.5	166.8	0.1	0.1	179.6	166.9	12.7
Net position:							
Net investment in capital assets	185.0	178.5	1.9	1.9	186.9	180.4	6.5
Restricted	51.7	44.4	-	-	51.7	44.4	7.3
Unrestricted	(123.9)	(139.3)	6.3	6.7	(117.6)	(132.6)	15.0
Total net position	<u>\$ 112.8</u>	\$ 83.6	\$ 8.2	\$ 8.6	\$ 121.0	\$ 92.2	\$ 28.8

The largest portion of the District's net position (\$186.9 million) reflects its investment in capital assets less any related outstanding debt used to acquire those assets. The District uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

• An additional portion of the District's net position (\$51.7 million) represents resources that are subject to external restrictions on how they may be used. The majority of the restricted balance is for school food services, debt service, and capital projects.

- The remaining net position (a deficit of \$117.6 million) is unrestricted. This balance includes the District's proportionate share of the unfunded obligation of the defined benefit pension plans administered by the Utah Retirement Systems. The existence of an unrestricted net position deficit indicates the District's overall economic net position, but it does not necessarily reflect positively or negatively on the District's ability to meet its obligations as they come due.
- Unrestricted net position increased by \$15.0 million during the current year. This net increase reflects an increase in resources available in the District's funds.
- Restricted net position increased by \$7.3 million during the current year. This increase resulted primarily from an increase in unspent property tax revenues restricted for debt service and capital outlay.
- The District's total revenues increased 6.1% to \$576.7 million. Federal and state aid makes up 63.3% of the District's revenues; property taxes generate 29.0% of the District's revenues.
- The total cost of all programs and services increased by 7.7% to \$547.9 million. Instruction and support services make up 65.8% and 25.6%, respectively, of the District's expenses.

DAVIS SCHOOL DISTRICT'S Changes in Net Position Years Ended June 30, 2016 and 2015

The narrative that follows considers the operations of governmental and business-type activities separately.

Governmental activities. The key elements of the increase in the District's net position for the year ended June 30, 2016 are as follows:

- Revenues increased \$37.8 million or 7.2% and continue to be primarily from federal and state aid and property taxes.
- Federal and state aid not restricted to specific purposes increased by 8.4% or \$19.1 million. Total federal aid increased 6.5% to \$44.4 million primarily due to spending levels. State aid is based primarily on weighted pupil units (WPUs) and other appropriations. If a student is in membership a full 180 days, the state awards the District one WPU. The state guarantees that if local taxes do not provide money equal to the amount generated by the WPU the state will make up the difference with state funding. The value of the WPU increased 4% from \$2,972 (2015) to \$3,092 (2016).
- Tax revenues increased to \$167.2 million or by 7.1%. This increase was a result of the combination of an increase in the taxable value of property and a decrease in the overall tax rate.

• Expenses for governmental activities increased \$42.9 million or by 8.7%. This increase was primarily the result of increased personnel expenditures for instruction as a result of the State WPU funding increase and capital spending for new schools.

Business-type activities. The \$0.4 million decrease in the District's net position for the year ended June 30, 2016 was a result of the operations of the Pioneer Adult Rehabilitation Center.

• Overall revenues decreased \$4.5 million and expenses decreased \$3.7 million due to decreased contract agreements.

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. As the District completed the year, its governmental funds reported a combined fund balance of \$148.4 million, \$25.0 million more than the previous year. This increase was due primarily to increased revenue from the State of Utah and the issuance of \$68.5 million general obligation bonds offset by costs related to planned capital projects. The *Debt Service Fund* added \$1.1 million to fund balance. The *General Fund* had a \$6.9 million increase in fund balance. In addition, the following changes in revenues and expenditures should be noted:

- Revenues for general District purposes totaled \$446.5 million, an increase of 6.9%, during the current fiscal year. This increase is primarily due to increased revenues from the State of Utah. State revenues were up 6.3% from the prior year in the *General Fund* due to increases in state appropriations for enrollment growth. Revenues for debt service and capital projects were up 3.7% and up 33.0%, respectively. These increases were primarily a result of an increase in the taxable value of property.
- Expenditures for general District purposes totaled \$439.6 million, an increase of 6.9% during the current fiscal year. Instruction represents 68.8% of *General Fund* expenditures. Capital project expenditures were up 94.6% due to the construction of new elementary schools in West Farmington and West Kaysville and an addition at Millcreek Junior High School.

• *General Fund* salaries totaled \$262.8 million while the associated employee benefits of retirement, social security, and insurance (health and accident, industrial, and unemployment) added \$127.9 million to arrive at 88.9% of total *General Fund* expenditures.

Governmental funds report the differences between their assets, deferred outflows of resources, liabilities, and deferred inflows of resources as fund balance, which is divided into nonspendable, restricted, and unrestricted portions. Nonspendable fund balance represents items such as inventories which are not resources that can be readily converted to cash. Restricted fund balance includes net fund resources of the District that are subject to external constraints due to state or federal laws, or externally imposed conditions by grantors or creditors. The unrestricted fund balance is, in turn, subdivided between committed, assigned, and unassigned portions. Committed balances reflect the District's self-imposed limitation on the use of otherwise available expendable financial resources in governmental funds. Assigned balances in the *General Fund* and in other governmental funds are those that do not meet the requirements of restricted or committed but are intended to be used for specific purposes. Unassigned balances in the *General Fund* are all other available net fund resources. At June 30, 2016, the District's combined governmental fund balance is \$148.4 million (\$7.6 million in nonspendable, \$90.3 million in restricted, \$35.5 million in committed, \$3.4 million in assigned, and \$11.6 million in unassigned fund balances).

General Fund Budgetary Highlights

During the year, the Board revised the District's budget. Budget amendments were to reflect changes in programs and related funding. The difference between the original budget and the final amended budget was a decrease of \$0.3 million or 0.1% in total *General Fund* expenditures.

During the year, final budgeted revenues were more than original budgetary estimates by \$5.7 million or 1.3%. The increase primarily reflects higher equalization funding and slightly higher than anticipated enrollment growth.

In addition to these adjustments, the District maintained cost cutting measures to hold expenditures below the amended budget in order to build reserves for unanticipated future costs. Consequently, actual expenditures were \$0.5 million below final budgeted amounts. Additionally, revenues were \$1.3 million above the final budgeted amount. The final budget also anticipated an increase to fund balance of \$6.0 million where the original budget did not have a planned increase to fund balance.

Capital Asset and Debt Administration

Capital Assets. The *Capital Projects Fund* is used to account for the costs incurred in acquiring and improving sites, constructing and remodeling facilities, and procuring equipment necessary for providing educational programs for all students within the District. The District spent \$56.6 million for capital assets. Major projects include the construction of new elementary schools in West Farmington and West Kaysville and an addition at Millcreek Junior High School.

The District continues to experience moderate growth in total students and a shift in student population to the north and southwest section of the District. The District's 10th high school is under construction and will open in the fall of 2018. Other major projects under construction include classroom additions at Woods Cross High School and Mueller Park Junior High School. The District is also in the planning stages for a junior high school that will open in the fall of 2019.

Capital assets at June 30, 2016 and 2015 are outlined below:

DAVIS SCHOOL DISTRICT'S Capital Assets June 30, 2016 and 2015

(net of accumulated depreciation in millions of dollars)

	Govern	ımental	Busine	ss-type			Total
	Activ	vities	Acti	vities	Tot	tal	Change

Total capital assets	<u>\$ 611.9</u>	<u>\$ 579.7</u>	\$ 1.9	\$ 1.9	\$ 613.8	\$ 581.6	\$ 32.2

Additional information on the District's capital assets can be found in Note 4 to the basic financial statements.

Debt Administration. On November 3, 2015, the registered voters of Davis County passed a bond authorization in the amount of \$298.0 million for general obligation school building bonds for new school construction, land acquisitions, renovation of existing school facilities, and related equipment and improvements. This debt authorization was sought to cope with the demands of student growth over the next five years, with student migration to the northwest portion of the county, and to help maintain the District's investment in its capital assets. The voter authorization passed with 61.6% in favor.

On March 3, 2016 the District issued \$31.0 of this authorization to begin high school #10 and begin a remodel of Viewmont High School. On that same date, the District also issued the final \$37.5 million of the 2009 bond authorization (\$250.0 million) to complete two new elementary schools.

The general obligation bonded debt of the District is limited by state law to 4.0% of the fair market value of the total taxable property in the District. The legal debt limit at June 30, 2016 is \$1,220 million. General obligation debt, net of unamortized premiums, at June 30, 2016 is \$475.7 million, resulting in a legal debt margin of \$729.2 million.

DAVIS SCHOOL DISTRICT'S Outstanding Debt June 30, 2016 and 2015

(net of accumulated amortization in millions of dollars)

		Go	overnm	nental activi	ities			
					,	Total		
					C	hange		
	2016 2015			201	16-2015			
Net general obligation bonds Obligations under capital lease	\$	475.7 -	\$	432.2 0.1	\$	43.5 (0.1)		
Total	\$	475.7	\$	432.3	\$	43.4		

Although it is not unusual for governments to have a 30-year bond payoff schedule, the District maintains an aggressive schedule to retire all of its general obligation bonds by 2036.

Additional information on the District's long-term debt can be found in Note 7 to the basic financial statements.

Changing Enrollment within the District

Student enrollment counts are officially taken on October 1 of each year. Student growth continues to be moderate as reflected in the October 2016 count. The District anticipated growth of approximately 700 students for the 2016-17 school year; however, actual growth was 1,142 students. Growth continues to be focused in the northwest section of the District. The chart below reflects the counts taken between October 1, 2012 and October 1, 2016 and shows total student growth of 3,285 students over the five-year period, a 4.8% increase.

DAVIS SCHOOL DISTRICT'S Student Enrollment

District fiscal year	2013	2014	2015	2016	2017	Total
October 1st enrollment	68,342	68,571	69,139	69,879	71,021	
Total enrollment change	606	229	568	740	1,142	3,285
Percentage change	0.9%	0.3%	0.8%	1.1%	1.6%	4.8%

The District has ongoing planning efforts to analyze and accommodate the issues related to new growth. A bond authorization approved by voters on November 3, 2015 for \$298.0 million will help meet the ongoing needs of the District's 20-year capital plan and to provide continuous cash flows for the necessary capital projects. With bond proceeds as well as ongoing capital funds from taxes, the District expects to meet the demands of projected student growth over both the short-term (5 years) as well as the long-term (20+ years) planning horizons.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have any questions about this report or need additional financial information, please contact the Davis School District, Office of the Business Administrator, 45 East State Street (P.O. Box 588), Farmington, UT 84025.

Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Position

June 30, 2016

Total fund balances for governmental funds		\$ 148,443,449
Total net position reported for governmental activities in the statement of net position is di	fferent because:	
Capital assets used in governmental funds are not financial resources and therefore are funds. Those assets consist of:	not reported in the	
Land Construction in progress Buildings and improvements, net of \$360,146,173 accumulated depreciation Furniture and equipment, net of \$15,343,659 accumulated depreciation Transportation equipment, net of \$24,608,080 accumulated depreciation	\$ 55,053,367 50,583,429 495,069,278 3,760,259 7,408,321	611,874,654
The net pension asset is not an available resource and therefore is not reported in the g	overnmental funds.	8,844
Some of the District's property taxes will be collected after year-end, but are not available pay for the current period's expenditures, and therefore are reported as deferred inflows funds.	_	2,152,855
Interest on long-term debt is not accrued in the governmental funds, but rather is recognexpenditure when due.	nized as an	(1,250,360)
An internal service fund is used by management to charge the costs of self insurance to and programs. The assets and liabilities of the internal service fund are included in govern in the statement of net position. Internal service fund net position at year-end is:		5,728,192
Long-term liabilities that pertain to governmental funds, including bonds payable, are no the current period and therefore are not reported as fund liabilities. All liabilities - both c - are reported in the statement of net position. Balances at year-end are:		
Bonds payable Deferred charge on refunding Unamortized premiums Accrued vacation Accrued sick leave Accrued personal leave Early retirement payable Net pension liability Deferred outflows of resources related to pensions Deferred inflows of resources related to pensions	(460,010,000) 9,072,317 (15,731,445) (4,837,182) (2,568,143) (1,446,593) (9,044,235) (232,820,688) 87,717,431 (24,440,172)	(654,108,710)
Total net position - governmental activities	(= ·,···•,··· <u>-</u>)	\$ 112,848,924

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

Year Ended June 30, 2016

Tear Effect out 6 00, 2010		
Net change in fund balances-total governmental funds	\$	24,994,841
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, equipment with an initial, individual cost of more than \$5,000 and buildings and improvements with an initial, individual cost of more than \$100,000 are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.		
Capital outlays\$ 56,625,730Gain on sale of capital assets137,256Proceeds from sale of capital assets(137,256)Depreciation expense(24,431,763)		32,193,967
Some capital asset additions are financed through capital leases. In governmental funds, a capital lease arrangement is considered a source of financing, but in the statement of net position, the lease obligation is reported as a liability. Repayment of capital lease principal is an expenditure in the governmental funds, but repayment reduces the lease obligation in the statement of net position.		
Interest expense - capital leases 3,807		00.005
Principal payments on capital leases 93,118		96,925
The governmental funds report bond proceeds as financing sources, while repayment of bond principal is reported as an expenditure. In the statement of net position, however, issuing debt increases long-term liabilities and does not affect the statement of activities and repayment of principal reduces the liability. Also, governmental funds report the effect of premiums when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. Interest is recognized as an expenditure in the governmental funds when it is due. In the statement of activities, however, interest expense is recognized as it accrues, regardless of when it is due. The net effect of these differences in the treatment of general obligation bonds and related items is as follows:		
General obligation bond proceeds(188,535,000)Bond premium(8,440,747)Amortization of deferred amounts on refunding(1,491,142)Amortization of bond premium2,196,008Repayment of bond principal33,230,000Refunded bonds escrow payment126,452,953Interest expense - general obligation bonds98,715		(36,489,213)
Property tax revenue is recognized when levied (claim to resources established) rather than when available. The portion not available soon enough to pay for the current period's expenditures is reported as deferred inflows of resources in the funds.		(469,868)
In the statement of activities, certain operating expenses - compensated absences (vacation and sick and personal leave) and termination benefits (early retirement) - are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). During this year, benefit obligations changed by the following amounts:		
Accrued vacation (385,379) Accrued sick and personal leave (427,913) Early retirement payable 126,492 Pension expense 5,824,260		5,137,460
An internal service fund is used by the District to charge the costs of health and dental insurance to individual funds. The assets and liabilities of this internal service fund are included with governmental activities is the statement of net position. The net position of this internal service fund is:		3,776,053
Change in net position of governmental activities	Φ	
Change in het position of governmental activities	Φ	29,240,165

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Davis School District (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the District are described below.

Reporting entity – The Board of Education, comprised of seven elected individuals, is the primary governing authority for the District. As required by GAAP, these financial statements present the District and its component unit, Davis School District Foundation, a legally separate organization for which the District is considered to be financially accountable. Due to the relationship between the District and the Foundation, it would be misleading to exclude the financial information of the Foundation from this report. The Foundation exclusively services the District. The District makes all personnel decisions for the Foundation and pays for all operating costs of the Foundation. The Foundation is reported as a separate column in the District's government-wide financial statements as a discretely presented component unit; the Foundation is reported as a governmental fund type. Separate financial statements for the Foundation may be obtained at the District's administrative office.

Government-wide and fund financial statements – The government-wide financial statements (the statement of net position and the statement of changes in net position) display information about the primary government (the District) and its component unit. These statements include the financial activities of the overall government. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions occur only when the elimination of such activity would distort the expenses and revenues reported by function. These statements distinguish between the governmental and business-type activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a function and, therefore, are clearly identifiable to a particular function. Depreciation expense for capital assets that can specifically be identified with a function are included in its direct expenses. Depreciation expense for "shared" capital assets (for example, a school building is used primarily for instruction, school administration, and operation and maintenance of facilities) are ratably included in the direct expenses of the appropriate functions. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Interest on general long-term liabilities is considered an indirect expense and is reported in the statement of activities as a separate line. Program revenues include 1) fees and charges paid by students and other recipients of goods or services offered by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Revenues that are not classified as program revenues, including property taxes, are presented as general revenues.

The *fund financial statements* provide information about the District's funds. Separate statements for each fund category (governmental and proprietary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. The remaining governmental funds are reported as nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party

cs to basic Financial Continued

receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities. Operating expenses result from transactions directly associated with the fund's principal services.

The District reports the following major governmental funds:

- The General Fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- The *Debt Service Fund* accounts for resources accumulated and payments made for principal and interest on general obligation school building bonds.
- The *Capital Projects Fund* accounts for resources accumulated and payments made for the acquisition and improvement of sites, construction and remodel of facilities, and procurement of equipment necessary for providing educational programs for all students within the District.

The District reports the *Pioneer Adult Rehabilitation Center Fund* which accounts for revenues and expenses related to fostering independence for people with disabilities as a major enterprise fund.

Additionally, the District reports the *District Self Insurance Fund* (an internal service fund) which accounts for employee benefits provided to other funds of the District on a cost reimbursement basis.

Measurement focus, basis of accounting, and financial statement presentation – The *government-wide* and *proprietary fund financial statements* are reported using the economic resources measurement focus and are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District receives value without directly giving equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within thirty days after year-end. Property taxes and interest are considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when the District receives cash. Expenditures generally are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, early retirement, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted resources available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

Notes to Basic Financial Statements

Continued

Budgetary Data – The District operates within the budget requirements for school districts as specified by state law and as interpreted by the Utah State Superintendent of Public Instruction. Budgets are presented on the modified accrual basis of accounting for all governmental funds. All annual appropriations lapse at fiscal year-end with the exception of those indicated as a fund balance commitment. The following procedures are used in establishing the budgetary data reflected in the financial statements.

- By June 1 of each year, the District business administrator prepares a proposed annual budget (for the fiscal year beginning July 1) for all applicable funds. The budget is presented to the Board of Education by the superintendent. This budget includes proposed expenditures and the means of financing them. Also included is a final budget for the current fiscal year ending June 30.
- Copies of the proposed budget are made available for public inspection and review by the District's patrons.
- If the District does not exceed the certified tax rate, a public hearing is held prior to June 22 at which the budget is legally adopted by resolution of the Board after obtaining taxpayer input. If the District exceeds the certified tax rate, the budget is adopted in August when additional data is available to set the rates.
- Once adopted, the budget can be amended by subsequent Board action. The Board upon recommendation of the superintendent can approve reductions in appropriations, but increases in appropriations by fund require a public hearing prior to amending the budget. In accordance with Utah state law, interim adjustments may be made by administrative transfer of money from one appropriation to another within any given fund.
- Certain interim adjustments in estimated revenue and expenditures during the year ended June 30, 2016, have been included in the final budget approved by the Board, as presented in the financial statements.
- Expenditures may not legally exceed budgeted appropriations at the fund level.

Deposits and investments – The cash balances of substantially all funds are pooled and invested by the District for the purpose of increasing earnings through investment activities and providing efficient management of temporary investments. Investments for the District, as well as for its component unit, are reported at fair value. Changes in the fair value of investments are recorded as investment earnings. Earnings on pooled funds are apportioned and paid or credited to the funds based on the average balance of each participating fund.

Cash and cash equivalents – The District considers cash and cash equivalents in proprietary funds to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition, including investments in the Utah Public Treasurers' Investment Fund (PTIF).

Receivables and payables – Activity between funds that are representative of lending/borrowing arrangements outstanding at year-end are referred to as either "due to/from other funds" (i.e., current portion of interfund loans). Any residual balances outstanding between governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Inventories – Inventories are valued at cost or, if donated, at fair value when received, using the moving average method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Donated food commodities are reported as revenue when received. Inventories

Notes to Basic Financial Statements

Continued

reported in the governmental funds are equally offset by a nonspendable portion of fund balance, indicating that they are not expected to be converted to cash.

Prepaid items – Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when paid.

Capital assets – Capital assets, which include land, buildings and improvements, furniture and equipment, and transportation equipment are reported in the government-wide financial statements and proprietary fund financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$5,000 for land, furniture and equipment, and transportation equipment and \$100,000 for buildings and improvements. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at estimated fair value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the lives of the assets are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction is not capitalized. Buildings and improvements, furniture and equipment, and transportation equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	40
Building improvements and portable classrooms	20
Kitchen equipment appliances	15
Maintenance and CTE equipment	15
School buses	10
Furniture and office equipment	10
Heavy trucks	7
Audio visual equipment	6
Light trucks	6
Copiers, printers, etc	5
Miscellaneous equipment and accessories	5
Passenger cars and vans	5
Computer equipment and software	3

Compensated absences – Under terms of association agreements, twelve-month or full-year employees earn vacation and sick leave in amounts varying with tenure and classification. Nine-month full-time employees earn sick leave and personal leave in amounts varying with tenure and classification. In the event of termination or death, an employee is reimbursed for the current value of accumulated vacation days to a maximum of 40 days, and is reimbursed for unused personal leave days at an appropriate substitute rate. Upon retirement, employees are compensated for accumulated sick leave at 21.5% of the current value. All vacation pay, personal leave pay, and an estimated potential amount for sick leave pay, are accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements. Compensated absences will be paid by the fund in which the employee worked (typically the *General Fund*).

Continued

Pensions – For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Utah Retirement Systems (URS) and additions to/deductions from URS's fiduciary net position have been determined on the same basis as they are reported by URS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Pension plan investments are reported at fair value.

Long-term obligations – In the government-wide financial statements and the *Self Insurance Fund*, long-term debt and other long-term obligations are reported in the applicable statement of net position. Bond premiums and discounts, as well as refunding costs, are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of unamortized bond premiums or discounts.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

Deferred outflows/inflows of resources – In addition to assets, financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has the following sources that qualify for reporting in this category; these items are reported in the statement of net position.

- Deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.
- Deferred outflows of resources related to pensions includes a) net difference between projected and actual earnings on pension plan investments and b) changes in proportion and differences between contributions and proportionate share of contributions, and c) District contributions subsequent to the measurement date of December 31, 2015.

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has the following sources that qualify for reporting in this category:

- Unavailable property tax revenue consists of uncollected, delinquent property taxes.
- Property taxes levied for future year property taxes levied on January 1, 2016 for the following school year.

Continued

• Deferred inflows of resources related to pensions – includes a) differences between expected and actual experience and b) changes of assumptions in the measurement of the net pension liability/asset, and c) changes in proportion and differences between contributions and proportionate share of contributions.

Net position/fund balances – The residual of all other elements presented in a statement of net position is *net position* on the government-wide and proprietary fund financial statements and the residual of all other elements presented in a balance sheet on the governmental fund financial statements is *fund balance*.

Net position is divided into three components: net investment in capital assets (capital assets net of related debt less unspent bond proceeds), restricted, and unrestricted. Net position is reported as restricted when constraints are placed upon it by external parties or are imposed by constitutional provisions or enabling legislation.

The governmental fund financial statements present fund balances based on a hierarchy that shows, from highest to lowest, the level or form of constraints on fund balance resources and the extent to which the District is bound to honor them. The District first determines and reports non-spendable balances, then restricted, then committed, and so forth.

Fund balance classifications are summarized as follows:

- Nonspendable This category includes fund balance amounts that cannot be spent because they are either a) not in spendable form or b) legally or contractually required to be maintained intact. Fund balance amounts related to prepaid items and inventories are classified as nonspendable.
- Restricted This category includes net fund resources that are subject to external constraints that have been placed on the use of the resources either a) imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments or b) imposed by law through constitutional provisions or enabling legislation. Restricted fund balance amounts include the unspent tax revenue for specific purposes (debt service and capital projects) and amounts in other governmental funds (school food services).
- Committed This category includes amounts that can only be used for specific purposes established by formal action of the District's highest level of decision-making authority. The Board of Education is the highest level of decision making authority for the District that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation. The Board of Education has resolved to commit fund balance amount in the governmental funds for the following purposes:
 - Workers compensation claims.
 - Employee benefit obligations for unpaid compensated absences including vacation, sick, and personal leave.
 - Amounts held in other governmental fund resources for schools.
 - As defined in Utah law as an "undistributed reserve," the District maintains up to five percent of *General Fund* budgeted expenditures for economic stabilization. Potential state budget cuts, disasters, immediate capital needs, and other significant events are circumstances or conditions that signal the need for stabilization. Additionally, the

Notes to Basic Financial Statements

Continued

commitment is necessary to maintain liquidity (i.e., reducing any disparity between when financial resources are available to make payments and the maturity of related liabilities). Also defined by state law, the commitment is not to be used "in the negotiation or settlement of contract salaries for school district employees" and the use of this reserve requires a written resolution adopted by a majority vote of the Board of Education filed with the Utah State Board of Education and the Utah State Auditor.

- Assigned This category includes amounts to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The Board has authorized the business administrator to assign fund balances. The Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment. The District has assigned *General Fund* resources for district programs and for schools as well as for future medical insurance costs.
- Unassigned Residual balances in the *General Fund* are classified as unassigned.

Net position/fund balance flow assumption – Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report in each category of net position and fund balance, a flow assumption must be made about the order in which the resources are considered to be applied.

- Net position It is the District's policy to consider restricted net position to have been depleted before unrestricted net position.
- Fund balance It is the District's policy to consider restricted fund balance to have been depleted before using any components of unrestricted fund balance. Further, when components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

2. DEPOSITS AND INVESTMENTS

Deposits and investments are carried at fair value. A reconciliation of cash and investments at June 30, 2016, as shown on the financial statements is as follows:

Carrying amount of deposits	\$ 29,089,910
Carrying amount of investments	193,886,597
Total cash and investments	\$ 222,976,507
Governmental funds cash and investments Enterprise funds cash and investments Internal service funds cash and investments	\$ 198,154,668 6,746,972 16,660,059
Primary government Component unit cash and investments	221,561,699 1,414,808
Total cash and investments	\$ 222,976,507

Notes to Basic Financial Statements

Continued

The District complies with the State Money Management Act (Utah Code Section 51, Chapter 7) (Act) and related Rules of the Money Management Council (Council) in handling its depository and investing transactions. District funds are deposited in qualified depositories as defined by the Act. The Act also authorizes the District to invest in the Utah Public Treasurers' Investment Fund (PTIF), certificates of deposit, U.S. Treasury obligations, U.S. agency issues, high-grade commercial paper, banker's acceptances, repurchase agreements, corporate bonds, money market mutual funds, and obligations of governmental entities within the state of Utah.

The Act and Council rules govern the financial reporting requirements of qualified depositories in which public funds may be deposited and prescribe the conditions under which the designation of a depository shall remain in effect. The District considers the actions of the Council to be necessary and sufficient for adequate protection of its uninsured bank deposits.

Rules of the Council allow the Davis School District Foundation to invest private grants, contributions, and endowments in any deposit or investment authorized by the Act and certain investment funds, equity securities, fixed-income securities, and investment strategies with institutions that meet certain restrictions.

Deposits – At June 30, 2016, the District and the Foundation have the following deposits with financial institutions:

	Carrying Amount		Bank Balance		Amount Insured	
Davis School District Davis School District Foundation, a	\$	27,687,035	\$ 31,818,263	\$	250,000	
component unit of the District		1,402,875	1,402,875		-	
Total deposits	\$	29,089,910	\$ 33,221,138	\$	250,000	

Custodial credit risk – Custodial credit risk for deposits is the risk that, in the event of a bank failure, a government's deposits may not be returned to it. The District does not have a formal deposit policy for custodial credit risk. At June 30, 2016, the uninsured amount of the District's and Foundation's pooled bank deposits was uncollateralized.

Investments – The District's investments are with the PTIF, government agencies, and in corporate bonds. The Foundation invests private funds through a broker.

The PTIF is an external government investment pool managed by the Utah State Treasurer. The PTIF is authorized and makes investments in accordance with the Act. The Council provides regulatory oversight for the PTIF. Participant accounts with the PTIF are not insured or otherwise guaranteed by the state of Utah. Participants in the PTIF share proportionally in the income, costs, gains and losses from investment activities. The degree of risk of the PTIF depends upon the underlying portfolio, which primarily consists of money market securities including certificates of deposit and top-rated domestic commercial paper held by the Utah State Treasurer; the portfolio has a weighted average life of 90 days or less. The reported value of the pool is the same as the fair value of the pool shares.

At June 30, 2016, the District has \$184,604,323 invested in the Utah Public Treasurers' Investment Fund; the PTIF is not rated. The District has \$5,608,356 invested in government agencies rated AA+ and Aaa or higher by Standard & Poor's and Moody's Investors Service, Inc., respectively. The District also has \$3,661,985 invested in corporate bonds rated BBB+ and Baa1 or higher by Standard & Poor's and Moody's

Notes to Basic Financial Statements

Continued

Investors Service, Inc., respectively. The Davis School District Foundation has \$11,933 invested in mutual funds that are unrated.

The District and the Foundation have the following investments summarized by investment type and maturities:

		Investment Matu	urities (in Years)
Investment Type	Fair Value	Less Than 1	1-5
Davis School District: Utah Public Treasurers' Investment Fund (PTIF) Government agencies Corporate bonds	\$ 184,604,323 5,608,356 3,661,985	\$ 184,604,323 - -	\$ - 5,608,356 3,661,985
Total District	193,874,664	184,604,323	9,270,341
Davis School District Foundation, a component unit of the District Mutual funds investing in:			
Taxable bonds	2,097	2,097	-
International stock	9,836	9,836	
Total Foundation	11,933	11,933	
Total investments	\$ 193,886,597	\$ 184,616,256	\$ 9,270,341

- Interest Rate Risk Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District manages its exposure to interest rate risk by complying with the Act, which requires that the remaining term to maturity of investments to not exceed the period of availability of the funds invested. Except for endowments, the Act further limits the remaining term to maturity on all investments in commercial paper and bankers' acceptances to 270 days or less and fixed-income securities to 365 days or less. In addition, variable-rate securities may not have a remaining term to final maturity exceeding two years. The Foundation can invest private funds in fixed-income securities with a dollar-weighted average maturity not to exceed ten years. The District has no investment policy that would further limit its interest rate risk.
- Credit Risk Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District's policy for reducing its exposure to credit risk is to comply with the Act and related rules. The Act and related rules limit investments in commercial paper to a first tier rating and investments in fixed-income and variable-rate securities to a rating of A or higher as rated by Moody's Investors Service or by Standard & Poor's. The District has no investment policy that would further limit its investment choices.
- Concentration of Credit Risk Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The District's policy for managing this risk is to comply with the Act and related rules. The Act limits investments in commercial paper and or corporate obligations to 5% of the District's total portfolio with a single issuer. The District places no other limits on the amount it may invest in any one issuer. The Foundation can invest private funds in certain equity and fixed-income securities provided no more than 5% of all funds are invested in any one issuer and no more than 25% of all funds are invested in a particular industry.

Notes to Basic Financial Statements

Continued

Also, for the Foundation's investments in private funds, no more than 75% may be invested in equity securities and no more than 5% in collateralized mortgage obligations.

• Custodial Credit Risk – Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The District's policy for managing this risk is to comply with the Act and related rules. The District places no other limit on the amount of investments to be held by counterparties. The Act requires the Foundation's public treasurer to have custody of all securities purchased or held or deposit these securities with a bank or trust company to be held in safekeeping by that custodian. The Foundation's investments held in a brokerage account are covered by Securities Investor Protection Corporation up to \$500,000.

3. FAIR VALUE MEASUREMENTS

In 2016, the District adopted Government Accounting Standards Board Statement No. 72, *Fair Value Measurement and Application*.

The new standard provides guidance for determining a fair value measurement for financial reporting purposes. The standard also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements.

The District's financial statements are not affected by this new standard.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The District has the following recurring fair value measurements as of June 30, 2016:

- U.S. Treasury securities of \$5,608,356 are valued using quoted market prices (Level 1 inputs).
- Corporate bonds of \$3,661,985 are valued using a matrix pricing model (Level 2 inputs).
- Public Treasurers' Investment Fund position of \$184,604,323 is valued at the District's position in the PTIF multiplied by the published fair value factor (Level 2 inputs).

The Foundation has the following recurring fair value measurements as of June 30, 2016:

Mutual funds of \$11,933 are valued using quoted market prices (Level 1 inputs).

4. PROPERTY TAXES

District property tax revenue – The property tax revenue of the District is collected and distributed by the Davis County treasurer as an agent of the District. Utah statutes establish the process by which taxes are levied and collected. The county assessor is required to assess real property as of January 1 (the legal lien date) and complete the tax rolls by May 15. By July 21, the county auditor is to mail assessed value and tax notices to property owners. A taxpayer may then petition the County Board of Equalization between August 1 and August 15 for a revision of the assessed value. The county auditor makes approved changes

Continued

in assessed value by November 1 and on this same date the county auditor is to deliver the completed assessment rolls to the county treasurer. Tax notices are mailed with a due date of November 30.

An annual uniform fee based on the value of motor vehicles is levied in lieu of an ad valorem tax on motor vehicles. This uniform fee was 1.5% of the fair market statewide value of the property, as established by the State Tax Commission. Legislation requires motor vehicles be subject to an "age-based" fee that is due each time a vehicle is registered. The revenues collected in each county from motor vehicle fees is distributed by the county to each taxing entity in which the property is located in the same proportion in which revenue collected from ad valorem real property tax is distributed. The District recognizes motor vehicle fees as property tax revenue when collected.

As of June 30, 2016, property taxes receivable by the District includes uncollected taxes assessed as of January 1, 2016 or earlier. It is expected that all assessed taxes (including delinquencies plus accrued interest and penalties) will be collected within a five-year period, after which time the county treasurer may force sale of property to collect the delinquent portion.

Incremental taxes – In addition to property taxes the District levies for its own purposes, the District levies property taxes for redevelopment agencies (located within the boundaries of the District) in accordance with the Community Development and Renewal Agencies Act (Utah Code 17C-1). These taxes are forwarded directly by the county to the redevelopment agencies as these taxes are collected by the county.

Property tax revenue (or incremental taxes) from increased assessed values within project areas are earmarked to finance urban renewal, economic development, and community development projects managed by the redevelopment agencies for the duration of the projects.

During the year ended June 30, 2016, incremental taxes levied by the District for the redevelopment agencies totaling \$6,860,325 were recorded as revenue with an equivalent amount of expenditure for instruction in the other governmental funds (in the *Tax Increment Program Fund*).

Continued

5. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2016 is as follows:

	Beginning			Ending
	Balance	Increases	Decreases	Balance
Governmental activities:				
Capital assets, not being depreciated				
Land	\$ 48,746,923	\$ 6,306,444	\$ -	\$ 55,053,367
Construction in progress	13,916,810	46,656,774	(9,990,155)	50,583,429

For the year ended June 30, 2016, depreciation expense was charged to functions of the District as follows:

Governmental activities:	
Instruction	\$ 18,961,729
Supporting services:	
Students	187,404
Instructional staff	104,846
District administration	36,033
School administration	1,033,439
Central	796,890
Operation and maintenance of facilities	1,622,461
Student transportation	1,444,592
School food services	 244,369
Total depreciation expense, governmental activities	\$ 24,431,763
Business-type activities:	
Pioneer Adult Rehabilitation Center	\$ 105,849

The District is obligated at June 30, 2016 under construction commitments as follows:

Project		Project Authorized		J		Costs to Date	Costs to Complete
Canyon Creek Elementary (#61)	\$	21,856,434	\$	20,206,620	\$ 1,649,814		
Kay's Creek Elementary (#62)		19,467,052		18,980,973	486,079		
Woods Cross High Addition		8,678,414		789,688	7,888,726		
High School #10		79,752,758		9,889,715	69,863,043		
Viewmont High renovation		7,615,947		716,433	 6,899,514		
	\$	137,370,605	\$	50,583,429	\$ 86,787,176		

The general obligation school building bonds will be used to finance the costs to complete these projects (See Note 8).

6. RETIREMENT PLANS

Description of plans – Eligible employees of the District are provided with the following plans through the Utah Retirement Systems (URS) administered by the URS:

Defined Benefit Pension Plans (cost-sharing, multiple-employer plans):

- Public Employees Noncontributory Retirement System (Tier 1 Noncontributory System)
- Public Employees Contributory Retirement System (Tier 1 Contributory System)
- Tier 2 Public Employees Contributory Retirement System (Tier 2 Contributory System)

Defined Contribution Plans (individual account plans):

- 401(k) Plan (includes the Tier 2 Defined Contribution Plan)
- 457 Plan and other individual plans

Notes to Basic Financial Statements

Continued

Title 49 of the *Utah Code* grants the authority to establish and amend the benefit terms to the Utah State Retirement Board, whose members are appointed by the Governor. The URS (a component unit of the State of Utah) issues a publicly available financial report that can be obtained at www.urs.org.

The Tier 2 systems became effective July 1, 2011. All eligible employees beginning on or after July 1, 2011, who have no previous service credit with any of the systems, are members of the Tier 2 systems.

Benefits provided – The URS provides retirement, disability, and death benefits to participants in the defined benefit pension plans. Retirement benefits are determined from 1.25% to 2.00% of the employee's highest 3 or 5 years of compensation times the employee's years of service depending on the pension plan; benefits are subject to cost of living adjustments up to 2.50% or 4.00%, limited to the actual Consumer Price Index increase for the year. Employees are eligible to retire based on years of service and age.

Defined contribution plans are available as supplemental plans to the basic retirement benefits of the defined benefit pension plans and as a primary retirement plan for some Tier 2 participants. Participants in the defined contribution plans are fully vested in employer and employee contributions at the time the contributions are made, except Tier 2 required contributions and associated earnings are vested during the first four years of employment. Benefits depend on amounts contributed to the plans plus investment earnings. Individual accounts are provided for each employee and are available at termination, retirement, death, or unforeseeable emergency.

Contributions – As a condition of participation in the plans, employers and/or employees are required to contribute certain percentages of salary and wages as authorized by statute and specified by the Utah State Retirement Board. Contributions are actuarially determined as an amount that, when combined with employee contributions (where applicable), is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded actuarial accrued liability.

For the year ended June 30, 2016, District required contribution rates for the plans were as follows:

	Defin			
	District Contribution	Employee Paid	Paid by District for Employee	District Rates for 401(k) Plan
Tier 1 Noncontributory System	22.19%			1.50%
Tier 1 Contributory System	17.70%	1.00%	5.00%	-
Tier 2 Contributory System *	8.22%	-	-	1.78%
Tier 2 Defined Contribution Plan *	-	-	-	10.00%

^{*} The District is also required to contribute 9.94% of covered employee payroll of the Tier 2 plans to finance the unfunded actuarial accrued liability of the Tier 1 plans. The District is also required to contribute 0.08% of covered employee payroll of the Tier 2 plans for death benefits.

Employees can make additional contributions to defined contribution plans subject to limitations. For the year ended June 30, 2016, District and employee contributions to the plans were as follows:

Continued

	District Contributions	Employee Contributions
Tier 1 Noncontributory System	\$ 44,466,708	\$ -
Tier 1 Contributory System	279,041	15,765
Tier 2 Contributory System	5,662,572	-
401(k) Plan	4,686,437	3,252,542
457 Plan and other individual plans	-	693,619

^{*} Tier 2 plan contributions include required contribution to finance the unfunded actuarial accrued liability of the Tier 1 plans and for death benefits.

Pension liabilities, pension expense, and deferred outflows of resources and deferred inflows of resources related to pensions – At June 30, 2016, the District reported a net pension asset of \$8,890 and a net pension liability of \$234,018,136 for the following plans:

	Proportionate Share		Net Pension Net Pen Asset Liability	
Tier 1 Noncontributory System	7.3414109%	\$	_	\$ 230,614,740
Tier 1 Contributory System	5.4310774%		-	3,403,396
Tier 2 Contributory System	4.0722871%	_	8,890	
Total		\$	8,890	\$ 234,018,136

The net pension asset and liability were measured as of December 31, 2015 and the total pension asset and liability used to calculate the net pension asset and liability were determined by an actuarial valuation as of January 1, 2015 and rolled forward using generally accepted actuarial procedures. The District's proportion of the net pension asset and liability is equal to the ratio of the District's actual contributions compared to the total of all employer contributions during the plan year.

For the year ended June 30, 2016, the District recognized pension expense of \$45,054,636 for the defined benefit pension plans and pension expense of \$4,686,437 for the defined contribution plans. At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to defined benefit pension plans from the following sources:

Notes to Basic Financial Statements

Continued

	Out	erred flows sources	Deferred Inflows of Resources
Differences between expected and actual experience	\$	-	\$ 18,118,225
Changes of assumptions		-	4,584,023
Net difference between projected and actual earnings on			
pension plan investments	61,9	984,041	-
Changes in proportion and differences between contributions			
and proportionate share of contributions	1	52,336	1,863,625
District contributions subsequent to the measurement date	26,0	032,204	
Total	\$ 88,1	68,581	\$ 24,565,873

The \$26,032,204 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date of December 31, 2015 will be recognized as a reduction of the net pension liability in the year ending June 30, 2017. The other amounts reported as deferred outflows of resources and deferred inflows of resources related to defined benefit pension plans will be recognized in pension expense as follows:

	Deferred			
	Outflows			
Year Ending	(Inflows) of			
June 30,	Resources			
2017	\$ 7,961,654			
2018	7,961,654			
2019	8,582,868			
2020	13,198,555			
2021	(24,688)			
Thereafter	(109,539)			

Actuarial assumptions – The total pension liability in the January 1, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.75%

Salary increases 3.50% to 10.50%, average, including inflation

Investment rate of return

7.50%, net of pension plan investment expense, including inflation

Mortality rates were developed from actual experience and mortality tables, based on gender, occupation, and age, as appropriate, with adjustments for future improvement in mortality based on Scale AA, a model developed by the Society of Actuaries.

The actuarial assumptions used in the January 1, 2015 valuation were based on the results of an actuarial experience study for the five-year period ended December 31, 2013.

Continued

The long-term expected rate of return on defined benefit pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class and is applied consistently to each defined benefit pension plan. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

	Expected Return Arithmetic Basis					
Asset Class	Target Allocation	Real Return Arithmetic Basis	Long-Term Expected Real Rate of Return			
Equity securities	40%	7.06%	2.82%			
Debt securities	20%	0.80%	0.16%			
Real assets	13%	5.10%	0.66%			
Private equity	9%	11.30%	1.02%			
Absolute return	18%	3.15%	0.57%			
Cash and cash equivalents	0%	0.00%	0.00%			
Total	100%		5.23%			
Inflation			2.75%			
Expected arithmetic nominal	return		7.98%			

The 7.50% assumed investment rate of return is comprised of an inflation rate of 2.75% and a real return of 4.75% that is net of investment expense.

Discount rate – The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions all participating employers will be made at contractually required rates, actuarially determined and certified by the Utah State Retirement Board. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate was not changed from the prior measurement date.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate – The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.50%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate:

Notes to Basic Financial Statements

Continued

	1% Decrease (6.50%)	Discount Rate (7.50%)	1% Increase (8.50%)
District's proportionate share of the net pension (asset) liability:			
Tier 1 Noncontributory System	\$ 417,403,971	\$ 230,614,740	\$ 73,991,721
Tier 1 Contributory System	7,695,154	3,403,396	(237,258)
Tier 2 Contributory System	1,630,229	(8,890)	(1,251,189)
Total	\$ 426,729,354	\$ 234,009,246	\$ 72,503,274

Pension plan fiduciary net position – Detailed information about the pension plan's fiduciary net position is available in the separately issued URS financial report.

Payables to the pension plans – At June 30, 2016, the District reported payables of \$11,466,583 for contributions to defined benefit pension plans and defined contribution plans.

7. RISK MANAGEMENT

Effective January 1, 2015, the District became self-insured for health insurance benefits of qualified employees. The District continues to be self-insured for dental insurance benefits of qualified District employees. During 2015, the *Self Insurance Fund*, an internal service fund, was established to pay self-insurance claims for health and dental coverage provided to qualified District employees. The District carries commercial insurance, which covers claims in excess of \$200,000. The fund collects premiums, established by the District and plan administrator, from other District funds. The District has recorded an estimate of claims incurred but not reported (IBNR) of \$10,931,867 as of June 30, 2016. This liability is based on experience and information provided by the plan administrator. The following table shows a history of accrued claims payable for the years ended June 30, 2016 and 2015:

	 2016	 2015	
Beginning accrued claim payable	\$ 11,569,061	\$ -	
Claims (including incurred but not reported)	59,071,900	28,777,513	
Payment of claims and administrative costs	 (59,709,094)	(17,208,452)	
Ending accrued claims payable	\$ 10,931,867	\$ 11,569,061	

Unemployment compensation is handled on a cost of benefits reimbursement basis with the state of Utah. The District is self-insured for worker's compensation claims up to \$250,000 per incident which are processed by a third party administrator. During the year ended June 30, 2016, the District paid worker's compensation claims in the amount of \$1,006,346. A co-insurance policy provides for individual worker's compensation claims in excess of \$250,000. This District has not established a liability for either claims outstanding or for the claims incurred but not reported (IBNR) because management believes the amount would be immaterial to the financial statements.

The District maintains insurance coverage for general, automobile, personal injury, errors and omissions, employee dishonesty, and malpractice liability up to \$10 million per occurrence through policies administered by the Utah State Risk Management Fund (Fund). The District also insures its buildings, including those under construction, and contents against all insurable risks of direct physical loss or damage

Notes to Basic Financial Statements

Continued

with the Fund. Property physical damage is insured to replacement value with a \$1,000 deductible; automobile physical damage is insured to actual value with a \$350 deductible; other liability is limited to the lesser of \$10 million or the statutory limit. The Fund is a public entity risk pool operated by the State for the benefit of the State and local governments within the State. The District pays annual premiums to the Fund; the Fund obtains independent coverage for insured events, up to \$25 million per location. This is a pooled arrangement where the participants' pay experience rated annual premiums, which are designed to pay claims and build sufficient reserves so that the pool will be able to protect the participating entities with its own capital. The pool reinsures excess losses to preserve the capital base. Insurance coverage by major category of risk has remained relatively constant as compared to the prior fiscal year. Insurance settlements have not exceeded insurance coverage for the past three years.

8. LONG-TERM LIABILITIES

Long-term liability activity for the year ended June 30, 2016 is as follows:

	Beginning			Ending	Due Within
	Balance	Additions	Reductions	Balance	One Year
Governmental activities:					
Bonds payable:					
General obligation bonds	\$ 420,660,000	\$ 188,535,000	\$(149,185,000)	\$ 460,010,000	\$ 34,865,000

General obligation bonds – The District issues general obligation bonds to provide funds for the construction of new facilities, acquisition of property, renovation and improvement of facilities, and procurement of other equipment. General obligation bonds are direct obligations and pledge the full faith and credit of the District.

The annual requirements to amortize all general obligation bonds outstanding as of June 30, 2016, including interest payments, are listed as follows:

Year Ending June 30,	Principal	Interest	Total	
2017	\$ 34,865,000	\$ 16,660,115	\$ 51,525,115	
2017	33,205,000	14,921,926	48,126,926	
2019	33,755,000	13,795,897	47,550,897	
2020	33,770,000	12,692,766	46,462,766	
2021	32,640,000	11,577,108	44,217,108	
2022-2026	128,345,000	43,998,638	172,343,638	
2027-2031	118,120,000	20,202,346	138,322,346	
2032-2035	45,310,000	3,921,819	49,231,819	
Total	\$ 460,010,000	\$ 137,770,616	\$ 597,780,616	

Notes to Basic Financial Statements

Bond Series 2016 - GO Bonds - original issue of	
\$68,500,000 with interest rates ranging from 2.0% to 3.375%	68,500,000
	\$ 460,010,000
	<u> </u>

The general obligation bonded debt of the District is limited by state law to 4.0% of the fair market value of the total taxable property in Davis County. The legal debt limit at June 30, 2016 is \$1,220,649,568 with general obligation debt outstanding, net of issuance premiums, of \$491,472,890, resulting in a legal debt margin of \$729,176,678.

Payments on the general obligation bonds are made by the *Debt Service Fund* from property taxes and earnings on investments. The obligations under capital leases are paid by the *Capital Projects Fund*. Compensated absences, claims payable, and early retirement benefits will be paid by the fund in which the employee worked, including the *General Fund* and other governmental funds.

Notes to Basic Financial Statements

Continued

Bond issuance – On March 3, 2016, the District issued \$68,500,000 of general obligation school building bonds with a premium of \$1,510,053. The bonds were issued at an effective interest rate of 2.63% (annual rates range between 2.0% and 3.375%) and will mature on June 1, 2036.

Advance refunding – On August 27, 2015, the District issued \$120,035,000 of general obligation refunding bonds with a premium of \$6,930,694. The bonds were issued with interest rates ranging from 1.8% to 5.0% and will mature June 2029. The District issued the bonds to advance refund \$20,125,000, \$29,200,000, \$41,055,000, and \$25,575,000 of outstanding Series 2006, Series 2007, Series 2008, and Series 2009 general obligation bonds, respectively. The District deposited the net proceeds along with other resources in an irrevocable trust to provide for all future debt service on the refunded portion of the Series Series 2006, Series 2007, Series 2008, and Series 2009 general obligation bonds. As a result, that portion of the Series 2006, Series 2007, Series 2008, and Series 2009 general obligation is considered defeased, and the District has removed the liability from its accounts.

The advance refunding reduced total debt service payments over the next 13 years by \$8,463,606. This results in an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$7,547,073.

Early retirement payable – The District provides an early retirement incentive program. Eligibility is restricted to those employees with a minimum of ten years of service in the District, and who meet the eligibility requirements for and will be receiving Utah Retirement System benefits. Eligible retirees will receive a contribution of 16% of their annual salary per year, for up to three consecutive years, into a qualified 401(a) and/or 403(b) plan, or until they become eligible to receive unreduced social security benefits, whichever occurs first. Employees who retire under the incentive program will continue to be enrolled in group medical and dental programs until they become eligible for Medicare, or for 10 consecutive years following retirement, whichever comes first. Enrollment is contingent upon the retiree contributing the same premium as required of active employees for the first 3 years and the full premium for the following 7 years. For the years ended June 30, 2016 and 2015 the District's direct payments to retirees were \$2,967,086 and \$2,390,338 and payments of insurance premiums on behalf of retirees were \$1,942,127 and \$1,565,727, respectively. Future retirement payments of employees who have elected early retirement are recognized on an accrual basis as an expense in the government-wide financial statements in the year of retirement. This liability is paid from the fund from which the employee retires.

9. LITIGATION AND LEGAL COMPLIANCE

There are lawsuits pending in which the District is involved. The District's legal counsel and insurance carriers estimate that the potential claims against the District, not covered by insurance, resulting from such litigation would not significantly affect the financial statements of the District.

All fund balances are positive at June 30, 2016. Expenditures in the *General Fund* and *Student Activities Fund*, (a special revenue fund reported in other governmental funds) exceeded budgeted amounts by \$475,972 and \$206,729, respectively, for the year ended June 30, 2016.

10. GRANTS

The District receives significant financial assistance from federal and state governmental agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the District's independent auditors and other governmental auditors. Any disallowed claims resulting from such audits could become a liability of the *General Fund* or other applicable fund. Based on prior experience, District administration believes such disallowance, if any, would be insignificant.

Notes to Basic Financial Statements

Continued

11. RESTATEMENT

In 2015, the District adopted Government Accounting Standards Board Statement No. 68, Accounting and Financial Reporting for Pensions—An Amendment of GASB Statement No. 27 and Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date—An Amendment of GASB Statement No. 68. At the time of adoption, the District did not allocate its net pension asset, deferred outflows of resources related to pensions, net pension liability, or deferred inflows related to pensions to its Enterprise Fund. The beginning net position reported in the District's Enterprise Fund and government-wide financial statements have been restated to reflect the amounts allocated to the Enterprise Fund:

	Enterprise Fund -			Primary Government				
	Pioneet Adult Rehab Center		Governmental Activities		Business-type Activities		Total	
Beginning net position, as previously stated	\$	9,507,771	\$	82,724,061	\$	9,507,771	\$	92,231,832
Net pension asset		613		(613)		613		-
Deferred inflows of resources related to pensions		140,500		(140,500)		140,500		-
Net pension liability		(937,892)		937,892		(937,892)		-
Deferred outflows of resources related to pensions		(87,919)		87,919		(87,919)		-
Beginning net position, as restated	\$	8,623,073	\$	83,608,759	\$	8,623,073	\$	92,231,832

12. SUBSEQUENT EVENT

In October 2016, Utah Retirement Systems (URS) completed its review on the eligibility of *Pioneer Adult Rehab Center* program employees. URS concluded that the program employees were eligible to participate in URS and has therefore notified the *Pioneer Adult Rehab Center* (an enterprise fund of the District) that is owes \$1,563,494 in retirement contributions and \$271,440 in accrued interest. The District is disputing the determination made by URS and, as a result, no amount have been recognized as a liability in the District's financial statements.

Schedule of District Contributions – Utah Retirement Systems

Years Ended June 30, 2016 and 2015

	2016	2015
Tier 1 Noncontributory System		
Contractually required contribution Contributions in relation to the contractually required contribution	\$ 44,466,708 (44,466,708)	\$ 43,924,810 (43,924,810)
Contribution deficiency (excess)	\$ -	\$ -
District's covered-employee payroll Contributions as a percentage of covered-employee payroll	\$ 203,305,674 21.9%	\$ 203,539,652 21.6%
Tier 1 Contributory System		
Contractually required contribution Contributions in relation to the contractually required contribution	\$ 279,041 (279,041)	\$ 323,810 (323,810)
Contribution deficiency (excess)	\$ -	\$ -
District's covered-employee payroll Contributions as a percentage of covered-employee payroll	\$ 1,576,505 17.7%	\$ 1,858,776 17.4%
Tier 2 Contributory System		
Contractually required contribution Contributions in relation to the contractually required contribution	\$ 6,160,316 (6,160,316)	\$ 4,551,043 (4,551,043)
Contribution deficiency (excess)	\$ -	\$ -
District's covered-employee payroll Contributions as a percentage of covered-employee payroll	\$ 36,010,273 28.3%	\$ 26,761,238 27.9%

Notes: The schedule only presents information for 2016 and 2015; prior-year information is not available.

Contributions as a percentage of covered-employee payroll may be different than the Board certified rate due to rounding or other administrative issues.

DAVIS SCHOOL DISTRICT Notes to Required Supplementary Information

Changes in assumptions-Utah Retirement Systems – Amounts reported in plan year 2015 reflect the following assumption changes adopted from the January 1, 2015 valuation:

- The wage inflation assumption for all employee groups was decreased from 3.75% to 3.50%.
- The rate of salary increases assumption for most groups was modified.
- The payroll growth assumption was decreased from 3.50% to 3.25%.
- The post retirement mortality assumption for female educators showed an improvement.
- Minor adjustments to the preretirement mortality assumption were made.
- Certain demographic assumptions were changed that generally resulted in a) an increase in members
 anticipated to terminate employment prior to retirement, b) a slight decrease in members expected to become
 disabled, and 3) a slight increase in the expected age of retirement.

Individual Fund Statements and Schedules

General Fund – The General Fund is used to account for all financial resources applicable to the general operations of the District which are not required to be accounted for in another fund. Utah law defines the General Fund as the Maintenance and Operations Fund.

Debt Service Fund – The Debt Service Fund is used to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources. Financing is provided by an annual property tax levy for general obligation debt as authorized by Utah Code 11-14.

Capital Projects Fund – The Capital Projects Fund is used to account for the resources used in acquiring and improving sites, constructing and remodeling facilities, and procuring equipment for the education programs for all students within the District. Financing is provided by an annual property tax levy not to exceed 0.0024 as authorized by Utah Code 53 A-16-107 . Also, state funds can be obtained by qualifying under guidelines established for districts determined to be in critical need for construction building aid.

School Food Services Fund – The School Food Services Fund is used to account for the food service activities of the District as required by state and federal law. Financing is provided by local sales along with substantial subsidies from the State of Utah and the U.S. Government to help ensure that students receive low cost, nutritionally balanced meals.

Student Activities Fund – The Student Activities Fund is used to account for revenues and expenditures from school-based operations. The revenues comprise of interest earnings, gate receipts, fundraisers, and student fees. Expenditures support curricular and extra-curricular activities.

Tax Increment Program Fund – This fund is used to account for property taxes levied by the District, but remitted directly to redevelopment agencies located within the boundaries of the District. Incremental taxes are levied as authorized by Utah Code 17C-1. Incremental taxes are recorded as revenue with an equivalent amount of expenditure representing the fact that these amounts are forwarded directly by the county to the redevelopment agencies and used at the agencies' discretion.

STATISTICAL SECTION

This part of the Davis School District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

Contents	<u>Page</u>
Financial Trends These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.	90-93
Revenue Capacity These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.	94-97
Debt Capacity These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	98-102
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	103-106
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	107-113

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Note: Beginning FY2015, the District implemented GASB Statements 68 and 71, restating and decreasing beginning net position by \$191,371,711. Imcremental taxes were first reported in 2015 with an equal amount reported expenditures.

Note: Beginning in FY2013, the District implemented GASB Statement No. 65. As a result, the beginning net position was decreased by \$2,369,335. Prior years have not been restated.

^{*}Note: Beginning in FY2011, School Food Services was reclassified as a governmental activity rather than a business-type activity.

Note: Beginning in FY2011, School Food Services was reclassified as a governmental activity rather than a business-type activity.

^{*} Note: Beginning in FY2011, the District implemented GASB Statement No. 54. Fund balance categories have been restated to reflect the new statement as if commitments and assignments had been approved in those years.

^{**} Note: Beginning in FY2008, the Student Activities Fund was reclassified from an agency fund to a special revenue fund. As a result of this change, the beginning fund balance was increased by \$6,892,772. Prior years have not been restated.

Total direct capital leases					 93,118
Total direct and overlapping de	ebt (excluding the State)	(5)			\$ 448,533,016

- (1) 2015 values are preliminary and subject to change. Taxable value used in this table excludes the taxable value used to determine uniform fees on tangible personal property.
- (2) The Weber Basin Water Conservancy District ("WBWCD") covers all of Morgan County, most of Davis County and Weber County, and portions of Box Elder and Summit Counties. Principal and interest on WBWCD general obligation bonds are paid from sales of water. WBWCD's outstanding general obligation bonds are limited ad valorem tax bonds. By law, WBWCD may levy a tax rate of up to .000200 to pay, first, for any outstanding general obligation indebtedness, then for operation and maintenance expenses, and then for any other lawful purpose.
- (3) All or portions of these governmental entities' outstanding general obligation debt are supported by user fee revenues from water or sewer. The District's portion of overlapping general obligation debt has been reduced to the extent that such general obligation debt is supported by "user fee revenues".
- (4) South Davis Recreation District members are Bountiful, Centerville, North Salt Lake, Woods Cross, and West Bountiful.
- (5) The State's general obligation debt is not included in overlapping debt because the State currently levies no property tax for payment of general obligation bonds.
- (6) Governmental activities debt is limited to general obligation debt for these entities; information on other debt is not available.
- (7) Percentage based on total shared area of land in respective geographical boundaries.

Average Daily Membership and October Enrollment Years Ended June 30, 2007 to 2016

Year Ended June 30,	Average Daily Membership	Annual Increase	October 1st Enrollment	Annual Increase
2016	65,299	750	69,879	740
2015	64,549	590	69,139	568
2014	63,959	347	68,571	229
2013	63,612	568	68,342	606
2012	63,044	1,339	67,736	1,717
2011	61,705	698	66,019	567
2010	61,007	288	65,452	438
2009	60,719	715	65,014	463
2008	60,004	1,366	64,551	1,719
2007	58,638	909	62,832	483

Average Daily Membership (ADM) equals total aggregate days of membership of all students divided by 180 days of school.

Enrollment is taken each October 1st for that school year, and is a headcount of all students, including all kindergarten students even though they are in membership for only half day:

Student Enrollment Projections Next Twenty Years

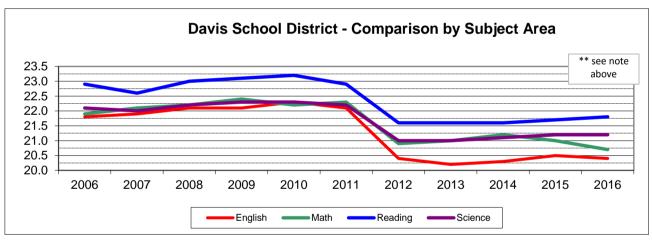

These projections are based upon the State of Utah's Economic and Demographic Projections, from the Governor's Office of Planning and Budget. Information pertaining to Davis County is extracted, then adjusted for local birth rates and "in" and "out" migration factors to arrive at the final estimate. In 2014, the local birth rate has been adjusted down by the State for the first time in twenty years.

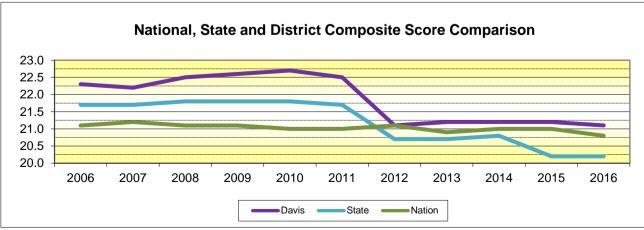

American College Test (ACT) Results Years Ended June 30, 2007 to 2016
