**A Third Year Math Credit For High School Graduation
Class of 2013 and Beyond Meeting Record**

Student Name _____ Pupil # _____

School Enrolled In: BHS IHS SAS WHS NN

3rd Year Career-Based Math Course you are taking (check one):

Robotics Finance Sustainable Engineering & Design Bridges to Algebra 2

High School and Beyond Pathway (check one):

- Business, Marketing, Management
- Health & Environmental Sciences
- Technology, Engineering
- Manufacturing, Construction

On _____, a meeting was held to review information concerning an alternative 3rd year mathematics credit based upon the student's High School and Beyond plan. The intent of the meeting was to discuss the requirements, purpose, and circumstances of using a Career and Technical Education alternative for the 3rd year mathematics graduation requirement. Based on this meeting, I fully understand that:

- The student must have earned one credit in Algebra.
- The student must have earned one credit in Geometry or is concurrently enrolled in Geometry and a 3rd year math option course.
- The proposed course better aligns with the student's education and career goals as outlined by the student's High School and Beyond plan.
- College admissions requirements may or may not recognize a CTE 3rd year mathematics course for college entrance.
