

Dear Parents/Guardians:

The Pennsylvania school health guidelines and the State Board of Nursing in Pennsylvania require written orders from a physician or nurse practitioner for a student to receive any medication in school. This includes over-the-counter medications.

To help students with common complaints and minor injuries, a standing order is obtained yearly from our primary school physician for selected medications according to the Health Services Manual and district policy.

Please note:

- The nurse reserves the right to refuse to dispense medication at any time based on the assessment of the situation and every effort will be made to notify parents.
- No medication will be given more than two times during the school day.
- Please contact your building school nurse should you like further information.
