

FIELD TRIPS

To the extent the budgetary resources permit, the Board of Education encourages and sanctions student trips or other out-of-district school activities, including participation in interscholastic events, community civic projects and international travel which are of value in helping achieve each participating student's educational objective. Such trips are to conform and relate to the approved courses of study and other program needs. Field trips will vary in the amount of time used and may take place on school time or when school is not in session. An effort will be made by Regional School District No. 7 to provide individual financial assistance when financial need is demonstrated.

The school staff, under the direction of the administration, shall take all reasonable and prudent steps to safeguard the physical and educational welfare of participating students. Each such student shall be given guidance in setting up educationally sound variations in his/her school program to enable him/her to participate and shall be counseled as to his/her obligations when in the staff's judgment his/her welfare requires it.

Out-of-country field trips must be approved by the Superintendent of Schools and the Board of Education in advance of such trips.
