Reviewed School Report Card Data- Discussed Sage Testing. Went over Sage Test results (school results, compared to district and state results).

Talked about Think Through Math. Some members expressed concern about its effectiveness and solicited feedback from the teachers. The teachers explained how it is set up to reinforce concepts learned in the classroom, while also allowing students to work at their own pace. Teachers can track whether a student or class is struggling in certain areas. The teachers feel it is an effective learning tool.

Talked about how to try to motivate attendance, including tardies and leaving early. Will start a plan from Nov 1- Nov 30 for individual students with perfect attendance. Those with perfect attendance for the entire month will receive a prize. (Prizes may be different for different grades to suit different ages.) We have \$1,000 budgeted for improving attendance incentives.
