EXPLORE

Exploring eXcellence Potential in Learners through Opportunity, Resources, and Environment
Purpose

Work together to nurture, guide and support the academic potential of young students.
Goals

Identify students who may not be considered for gifted and talented programs using traditional methods of identification, and who, without that opportunity, are less likely to pursue advanced levels of learning on their own.

The goal is to nurture high academic potential at an early age so that identified students will be prepared to engage in challenging subject matter and rigorous courses in upper elementary school, middle school, high school and beyond.
Benefits of Explore

- Affirming and supporting students for their advanced abilities
- Cultivating peer connections
- Developing relationships between home and school
- Providing access, advocacy, and affirmation
Who are Explorers?

• Students with gifted potential who may benefit from additional:
  • Access to gifted services
  • Advocates for their high potential
  • Affirmation of their advanced abilities
Once identified, EXPLORErs will participate in lessons that challenge them to think and use knowledge in new and different ways. Lessons will develop critical and creative thinking skills.
