

CHEMICALS:

Highline School District is committed to provide its custodians with the best available products on the market. The district is also committed to provide the safest products for the protection of its employees.

The use of disinfectants is to be used on a limited basis. The use of disinfectants is only to be used in case of a pandemic or other related circumstance that would warrant its use. There are exceptions like wrestling mats and other sports related materials that are subject to body fluids. Cleaning up body fluids will require the use of disinfectants. Restrooms being cleaned with the restroom cleaning machine method should not require any disinfectant if properly cleaned. The use of bleach can only be used on a limited basis mainly for whitening of mops. The district is committed to condensing the different types of chemicals being used and working toward limiting chemicals for day to day use down to:

- Neutral cleaner 64 (Green)
- Glass cleaner 61
- Restroom cleaning machine recommended Cleaners
- Other chemicals that may be used as needed:
- Furniture Polish
- Disinfectant / Germicidal Detergent, Hepastat 256
- Toilet Bowl Cleaner
- Abrasive Powder
- De-Greaser
- Bleach
- Gum Remover
- Drain Treatments
- Carpet Spot Removers
- Anti-Graffiti remover
- Floor Strippers
- Floor Wax
- Ice Melt

As new products come on the market the district will explore to provide the safest and usable products available.
