EXTREME HOT WEATHER ATHLETIC GUIDELINES

Considerations to reduce risk factors:

1. Staff will work to educate student-athletes and parents about heat illnesses and prevention. Instruction will include information regarding proper hydration, acclimatization, work/rest ratio, signs and symptoms of exertional heat illness, treatment, dietary supplements, nutritional issues, and fitness status.
2. When an athlete enters a football program, there is a four-day window of practice without pads before pads may be worn, during this time schools are limited to no more than one practice per day.
3. The SBISD staff, athletic trainers and coaches will modify work/break ratios, practice schedules, and the amount of equipment worn based on the SBISD Heat Policy and UIL Guidelines.
4. Athletes will have unrestricted access to unlimited amounts of cold water. Appropriate hydration before, during, and after physical activity is integral to healthy, safe and successful sports participation.
5. Athletes will be allowed to remove themselves from workouts as needed.
6. Coaches of indoor sports will modify outdoor workouts accordingly with a heat index greater than 93 degrees.
7. All practice schedules will be submitted to the SBISD athletic office for review and approval.
