

Long Range Facilities **Planning Committee**

Today.

Tomorrow.

Together.

Spring Branch Independent School District
November 2016

Welcome

Jennifer Blaine

Review of Charge

Jennifer Blaine

Scott R. Muri, Ed.D.

SBISD Superintendent of Schools

Spring Branch Independent School District
Long Range Facilities
Planning Committee

Today.

Tomorrow.

Together.

Spring Branch T-2-4 is our goal.

By 2017, SBISD will *double the number* of students completing a technical certification, military training, two-year or four-year degree.

The Learner's Journey
#SBjourneytogether #SBjourney

Our Core Values

Our Core Values serve as *guiding principles* that undergird and inform our actions, behaviors and decisions.

Every Child
Collective Greatness
Collaborative Spirit
Limitless Curiosity
Moral Compass

Your organization is **perfectly
designed** to achieve
the results you are achieving.

- W. E. Demming

Supporting a **Personalized** Learning Experience

- Resilient **Foundation**
- Learning **Ecosystems**
- Extraordinary **People**
- Customized **Supports**

The Learner's Journey
#everychild #SBjourneytogether #SBjourney

How will **we know** if we are successful?

- How much **progress** is every child making?
- How **academically prepared** is every child?
- How is every child doing **beyond the classroom**?
- How are our alumni doing **after** they graduate?
- Are we providing effective supports for **our employees, students, and families**?
- Are we developing a **sustainable** talent model?

2007 Bond Review

Travis Stanford

Today.

Tomorrow.

Together.

The background of the slide is a photograph of a construction site. In the foreground, several large, dark-colored corrugated metal pipes are stacked horizontally. Behind them, a building is under construction, with extensive yellow scaffolding visible around its upper levels. The sky is a pale blue with some light clouds. The text is overlaid on the middle portion of the image.

SPRING BRANCH ISD

2007 BOND PROGRAM

REVIEW

In November 2007, the SBISD voters
approved a Bond Plan for a total of
\$ 597,150,000.

SPRING BRANCH INDEPENDENT SCHOOL DISTRICT

The **2007 Bond Plan** outlined the following:

- **Upgrading** the functionality of key infrastructure systems at every facility
- **Beginning the process of transforming District schools by replacing** several of the oldest elementary schools
- **Build** additional classrooms to accommodate student population growth
- **Expanding and upgrading high school science labs**

SPRING BRANCH INDEPENDENT SCHOOL DISTRICT

The **2007 Bond Plan** outlined the following:

- **Providing safety and security upgrades to ensure the protection of students and staff**
- **Upgrading District information technology to meet 21st Century standards**
- Purchasing new school buses to update the District fleet – 183 in total
- **Enhancing the District's athletic facilities to contemporary standards**

SPRING BRANCH INDEPENDENT SCHOOL DISTRICT

2007 Bond Program

Major Construction *Highlights and Successes*

Renovation Projects:

Upgrades and renovations were made to **33 campuses** and facilities.

SPRING BRANCH INDEPENDENT SCHOOL DISTRICT

2007 Bond Program

Major Construction *Highlights and Successes*

Renovation Projects:

Upgrade and renovation scopes ranged from facility improvements to storm sewers, drainage, long term maintenance such as heating, ventilation and air conditioning systems; roof repairs, sidewalk repairs and walkway improvements; mechanical, electrical, plumbing and/or ADA requirements.

SPRING BRANCH INDEPENDENT SCHOOL DISTRICT

New Construction Projects

13 elementary schools rebuilt
(12 planned + 1 additional as a result of cost savings)

SPRING BRANCH INDEPENDENT SCHOOL DISTRICT

New Construction Projects

• Hollibrook ES	2010	• Meadow Wood ES	2012
• Ridgecrest ES	2010	• Pine Shadows ES	2012
• Westwood ES	2010	• Housman ES	2013
• Edgewood ES	2011	• Frostwood ES	2014
• Shadow Oaks ES	2011	• Valley Oaks ES	2015
• Spring Branch ES	2011	• Rummel Creek ES	2016
• Wilchester ES	2011		

SPRING BRANCH INDEPENDENT SCHOOL DISTRICT

Athletics Upgrades

Upgrades were made to **middle school** and **high school campuses, Tully Stadium** and **Don Coleman Coliseum (Natatorium, and Grob Stadium)**.

SPRING BRANCH INDEPENDENT SCHOOL DISTRICT

Athletics Upgrades

Middle schools and high schools:

- Track and Competition Field Additions at the middle schools
- Soccer Field Additions at the middle schools
- Track Resurfacing at the high schools
- Tennis Court Upgrades at the high schools
- Field Upgrades at the high schools
- Competition Athletic Additions at Stratford and Spring Woods High School
- Field House Renovations at Memorial High School and Spring Woods High School

SPRING BRANCH INDEPENDENT SCHOOL DISTRICT

Technology Upgrades

- **Computers** in **all classrooms**
- **ActivBoards** in **core classrooms**
- **Technology** in **libraries**
- A new district wide **phone system**
- **Teacher laptops**
- **Expanded Wi-Fi**

SPRING BRANCH INDEPENDENT SCHOOL DISTRICT

SBEC Project

The final **new construction project** of the 2007 Bond Program, which houses **Academy of Choice** and **Cornerstone Academy**, is scheduled for completion in the Spring of 2017.

SPRING BRANCH INDEPENDENT SCHOOL DISTRICT

Review of District-wide Initiatives

Jennifer Blaine & Travis Stanford

District Next Steps

The following initiatives are the **next critical steps** in assessing District facilities to gain an understanding of **current conditions**.

SPRING BRANCH INDEPENDENT SCHOOL DISTRICT

District Next Steps

- Design and Construction Standards

SPRING BRANCH INDEPENDENT SCHOOL DISTRICT

District Next Steps

- Design and Construction Standards
- Educational Specifications

SPRING BRANCH INDEPENDENT SCHOOL DISTRICT

District Next Steps

- Design and Construction Standards
- Educational Specifications
- Complete a Comprehensive District-wide Facilities Assessment

SPRING BRANCH INDEPENDENT SCHOOL DISTRICT

Design & Construction Standards

What are STANDARDS?

- Guidelines intended to assist the architects, engineers, and other design professionals, contractors and most importantly district staff in **understanding the preferences of SBISD in maintenance, renovations, and new construction**

SPRING BRANCH INDEPENDENT SCHOOL DISTRICT

Design & Construction Standards

Purpose/Goal?

- **Refine and create** new **DESIGN & CONSTRUCTION STANDARDS** for future renovation and new construction projects

SPRING BRANCH INDEPENDENT SCHOOL DISTRICT

Design & Construction Standards

The Timeline

- Began **March of 2016**
- Final draft is under review

SPRING BRANCH INDEPENDENT SCHOOL DISTRICT

A background image showing two men in white hard hats and safety glasses. They are looking down at a clipboard held by one of them. The man on the left is wearing a headlamp. The background appears to be a construction site with wooden framing and some handwritten text like 'CEDAR Point Elem' and 'LSX2' visible on a wall.

Educational Specifications

What are EDUCATIONAL SPECIFICATIONS?

- **Educational Specifications** are guidelines (*written documentation*), refined and created by a team of district educators and design professionals, to **establish a benchmark**, form consensus among the educators and communicate the District's expectations in terms of the future planning of the physical requirements needed **to support the educational mission of the school district.**

A photograph of two men wearing hard hats and safety glasses, looking down at a large set of plans held by one of them. The background shows a construction site with wooden framing and some handwritten notes on a wall, including "65X2" and "CEDAR Bridge Elem".

Educational Specifications

Purpose/Goal?

- **Refine and create** new **EDUCATIONAL SPECIFICATIONS** for future renovation and new construction projects that support the District's Educational mission

A photograph of two construction workers wearing hard hats and safety glasses, looking down at a large set of plans held by a clipboard. The worker on the left is holding a measuring tape. The background shows a construction site with wooden framing and a wall with handwritten text like "CEDAR Point Elem." and "65X2".

Educational Specifications

The Timeline

- Began in **August of 2016**
- Scheduled to be completed in **February of 2017**

District-Wide Facilities Assessment

Planning & Construction and AECOM have developed the **scope of services** and **assessment** for the district facilities, Child Nutrition Services, Technology and Educational Suitability and timeline.

Planning & Construction and AECOM will be **reporting and reviewing assessment findings** on an established schedule to the Long-Range Facility Planning Committee to gain consensus solutions.

The final report for the District Wide Facility Assessment is due April 2017.

District-Wide Facilities Assessment

**Design & Construction
Standards**

**Educational
Specifications**

**Facility
Assessment**

```
graph LR; A[Design & Construction Standards] --> D[Facility Assessment]; B[Educational Specifications] --> D;
```

The diagram illustrates the inputs for a District-Wide Facilities Assessment. Two yellow boxes on the left, labeled 'Design & Construction Standards' and 'Educational Specifications', have yellow arrows pointing to a large white box on the right labeled 'Facility Assessment'.

A background image showing two construction workers wearing hard hats and safety glasses, looking down at a set of plans or documents they are holding together. The scene is set in a construction environment with wooden framing visible in the background.

Facility Assessment Goals

SUCCESS=

- Open, Objective, **Transparent Assessment**
- **Thorough Analysis** of Facilities
- Information Sharing Resulting in **Consensus Solutions**
- **Delivery of Facilities Analysis** for Long-Range Facility Planning

A photograph of two men in a construction or industrial setting. They are both wearing white hard hats and safety glasses. The man on the left is wearing a grey t-shirt and has his safety glasses perched on his forehead. The man on the right is also wearing a grey t-shirt and is holding a clipboard. They are both looking down at the clipboard. The background shows some industrial equipment and a wall with some handwritten text, including "CEDAR Point Elem." and "LSX2".

Facility Assessment Scope

Will provide the district with an analysis of current facility conditions and budget estimates for use in **addressing deficiencies**. This analysis will share **recommended strategies** for long-range facility planning.

Comprehensive Facility Assessment

Spring Branch ISD

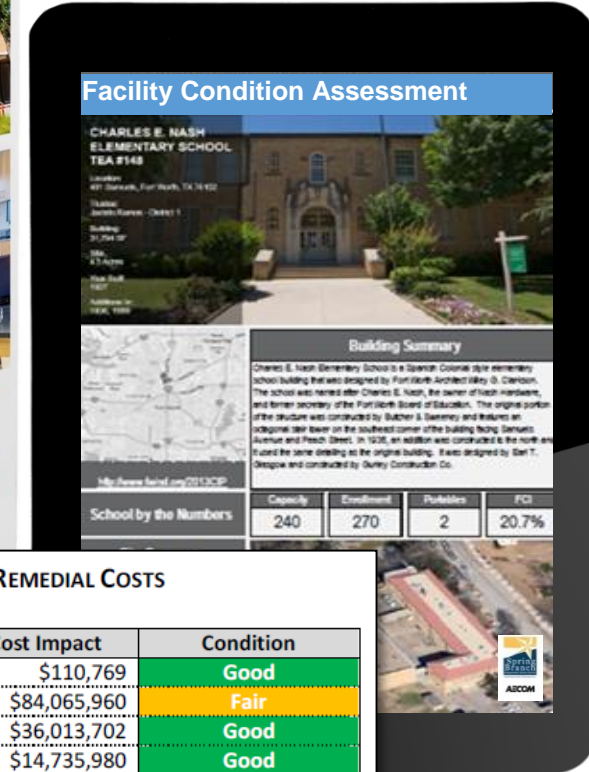

November 2016

Assessment Project Overview

Assessments include:

- Facility Condition
- Educational Suitability
- Child Nutrition
- Technology

SUMMARY OF DEFECTS AND REMEDIAL COSTS

Building Component	Cost Impact	Condition
Structure	\$110,769	Good
Mechanical	\$84,065,960	Fair
Electrical	\$36,013,702	Good
Plumbing	\$14,735,980	Good
Building Fabric	\$5,735,104	Good
Environmental	\$2,853	Good
Vertical Transportation	\$8,381,750	Good
Building Facade	\$4,323,022	Good
Roofing	\$7,101,979	Fair
Plaza & Sidewalks	\$6,273,584	Poor
TOTAL	166,744,703	

Why Conduct an Assessment Effort?

Critical to answer fundamental questions expeditiously and accurately:

- What condition are our assets in?
- Do our facilities meet educational goals & requirements?
- What is the level of effort to correct deficiencies?
- What will it cost?
- Which are the most urgent needs?

Collecting key information enables SBISD to:

- Establish a baseline
 - Prioritize Findings
 - Make Decisions
 - Justify Investments
- 

Facility Assessment Goals

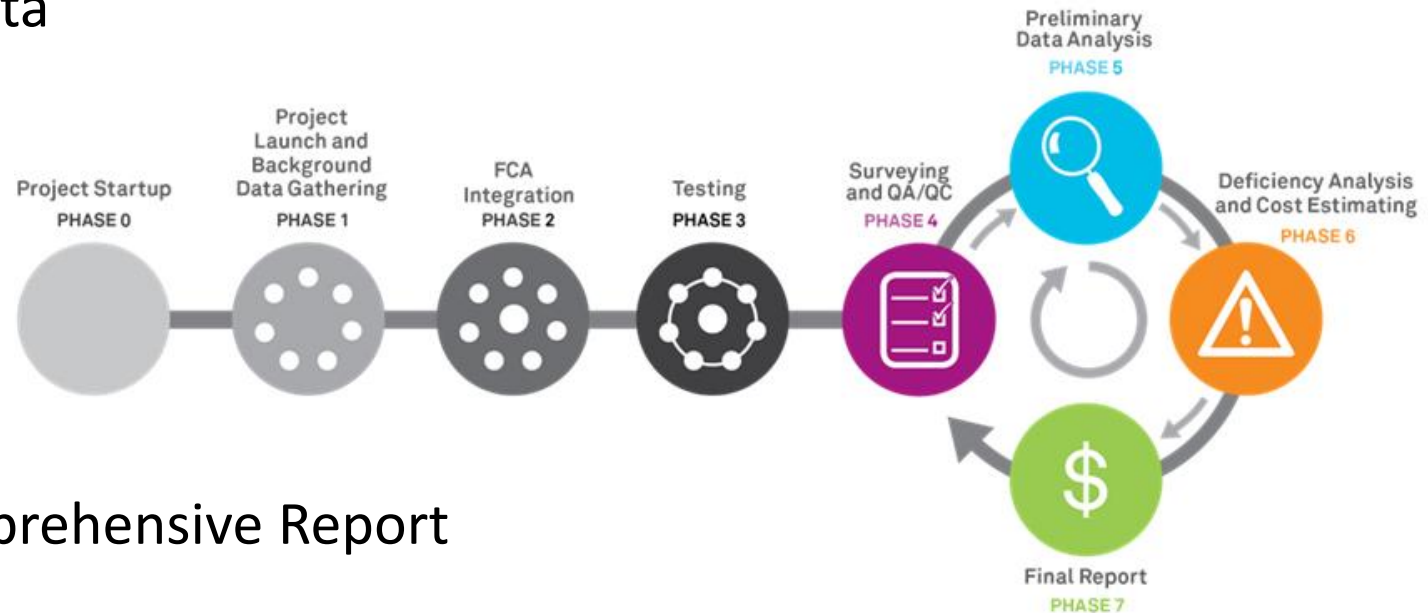

SUCCESS =

- Open, Objective, Transparent Assessment
- Thorough Analysis of Facilities
- Information Sharing Resulting in Consensus Solutions
- Delivery of Facilities Analysis for Long-Range Facility Planning

Phased Execution Approach

- Project Launch and Background Data Gathering
- Define, collect, and study existing data
- Conduct staff surveys
 - Facilities/Maintenance Staff
 - Educators from each Facility
- Conduct Model Assessment
- Perform Remaining Assessments
- Analyze Information & Prepare Comprehensive Report

Build a solid foundation to establish a plan for the future

Model Assessment Overview

- Perform Model Assessments at Terrace ES, Memorial MS, Spring Woods HS
 - Facility Condition
 - Educational Suitability
 - Child Nutrition
 - Technology
- Test and refine process
- Obtain District approval of Example Report
- Determine Schedule for remaining facilities

Adjust and refine for ideal process

Condition Assessment of Critical Systems & Assets

The effort is focused on identifying systems and assets that require repair or replacement with a specific emphasis on major systems, common to most buildings, that perform a given function. Collaborative engagement with SBISD staff is critical to project success.

- Standard rating criteria
- Example Systems / Assets:
 - Exterior Walls
 - Roofing
 - Domestic Water Distribution
 - Mechanical / HVAC
 - Lighting
 - Fire Protection
 - Electrical Distribution
 - Conveying

Rating	Standard
5 - Excellent	New equipment, no visible deficiencies. Only normal scheduled maintenance required.
4 - Good	Well maintained, only minor repairs needed. Operates at optimal conditions.
3 - Average	More minor repairs and infrequent larger repairs required, but equipment is functioning properly.
2 - Poor	Significant repairs or replacement required. Equipment is operating but deficiencies beginning to affect the performance.
1 - Fail	Major repair or replacement required. Equipment is no longer functioning or is a life safety hazard. Unit in need of a large overhaul repair or entire replacement in order for functionality to operate at ideal, safe conditions.

Execute the proven process

Capacity and Plan For Addressing Educational Suitability

- Facilities Matched To Student Learning Needs
- Align With District Goals / Standards
- More Than Square Footage
 - District of Innovation
 - Program Requirements
 - Learning Environment
 - Safety & Security

Educational spaces aligned with student needs

Child Nutrition Service Assessment

Study will review and rate current conditions of the critical Child Nutrition service functional areas / equipment.

Examples:

- Receiving Locations
- Locker / Toilet
- Janitor
- Dry Storage
- Cold Storage
- Preparation Areas
- Bake
- Production
- Holding
- Serving & Ware wash

No.	Item	Present	Condition			
			Poor	Fair	Good	Excellent
Dry Storage						
9	Dry storage shelving	✓	<input type="checkbox"/>	✓	<input type="checkbox"/>	<input type="checkbox"/>
10	Can Rack	✓	<input type="checkbox"/>	✓	<input type="checkbox"/>	<input type="checkbox"/>
Preparation						
11	Two Compartment Sink	✓	<input type="checkbox"/>	✓	<input type="checkbox"/>	<input type="checkbox"/>
12	Disposer	✓	<input type="checkbox"/>	✓	<input type="checkbox"/>	<input type="checkbox"/>

14	Slicer	✓	<input type="checkbox"/>	✓	<input type="checkbox"/>	<input type="checkbox"/>
15	Mixer	✓	<input type="checkbox"/>	✓	<input type="checkbox"/>	<input type="checkbox"/>
16	Mobile heated	✓	<input type="checkbox"/>	✓	<input type="checkbox"/>	<input type="checkbox"/>
17	Ice Maker	✓	<input type="checkbox"/>	✓	<input type="checkbox"/>	<input type="checkbox"/>
18	Utility cart	✓	<input type="checkbox"/>	✓	<input type="checkbox"/>	<input type="checkbox"/>
19	Baker's Table	✓	<input type="checkbox"/>	✓	<input type="checkbox"/>	<input type="checkbox"/>
20	Proofer	✓	<input type="checkbox"/>	✓	<input type="checkbox"/>	<input type="checkbox"/>
21	Island work tables	✓	<input type="checkbox"/>	✓	<input type="checkbox"/>	<input type="checkbox"/>
Production						
22	Convection ovens	✓	✓	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
23	Range	✓	<input type="checkbox"/>	✓	<input type="checkbox"/>	<input type="checkbox"/>
24	Steamer	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Technology Assessment

The technology assessment identifies deficiencies and provides recommendations for each facility covering the following key areas:

- Server Room
- Technology Room
- Security & Access Control
- Audio-Visual Technology
- Network & Wireless
- Cable Infrastructure

Item	Assessment
Server Room	Inadequate
Technology Room	Marginal
Security & Access Control	Inadequate
Audio-Visual Technology	Adequate
Network & Wireless	Marginal
Cable Infrastructure	Adequate
