3) Review and provide feedback:

a) Safe Technology and Digital Citizenship (HB 213)

- Further discuss the school and district report and determine if adequate:

- Technology. Are the filtering, management systems, and supervision practices appropriate. If not, identify what needs to be addressed in the context of what the school and district are capable of providing under the current filtering and management systems, supervision availability, and financial restrictions. Establish an action plan to address identified concerns.

- If student education currently implemented is appropriate and adequate. If not, identify how it could be strengthened, set goals to improve the education and create an action plan to accomplish the goals. If the parent/guardian education component currently implemented is appropriate and adequate. If not, identify how it could be strengthened, set goals to improve the education component and create an action plan to accomplish the goals.

Please note: It is the intent that parent education in combination with student education is more effective. It is not the intent to tell parents ‘what to do,’ but rather to offer resources to assist them.

b) School Improvement Goals for 2016-2017

1) To improve the college, community, and career readiness of all Bountiful High School students as measured by graduation rate & ACT composite score. We propose to maintain or increase the percentage of BHS students meeting DSD graduation requirements (current BHS Class of 2015 graduation rate is 96% using Federal calculation guidelines) and to increase the composite ACT score for the Class of 2017 by .1 (Class of 2016 composite ACT score is 21.9).

2a) District Goal: To increase the school average 10th grade SAGE writing subscore from 524 to 525 (District average in 2015 was 497), and to increase the school average 11th grade SAGE writing subscore from 546 to 547 (District average in 2015 was 502).

2b) In addition, we will continue to focus efforts to improve the percentage of students scoring at or above proficiency benchmarks for SAGE in Mathematics and Science by 2% (56% of BHS students scored proficient on the SAGE Mathematics assessments in 2015 and 49% of BHS students scored proficient on the SAGE Science assessments in 2015).

3) To support quality staffing and teacher professional development through recruitment and retention measures that cultivate and are proactive. In addition, we will support improved instruction through the enhancement of our collaborative school data teams (PLC & departmental), and through the support of the Evaluate Davis teacher observation tool (as measured by Evaluate Davis assessment goals & measures).

4) Review Student Assessment Data

a) Evaluate latest student assessment information (School grading, SAGE, AP, ACT, number of failing grades and students at BHS)

5) Review Davis School District budget for Bountiful High School (2016-2017 School Year).

6) Community Council meeting schedule for 2016-2017:
